

# A Closer Look at Fall-Related Deaths

## Lewis and Clark County, 2014-2018

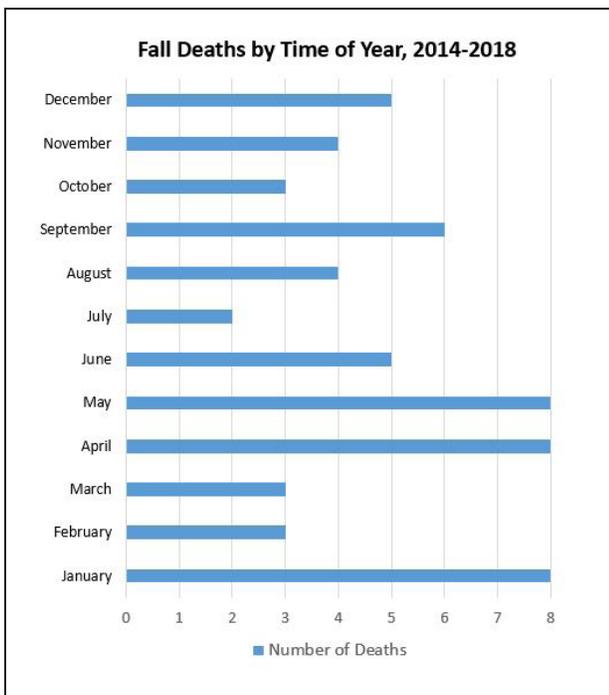

Fall-related deaths by gender and year

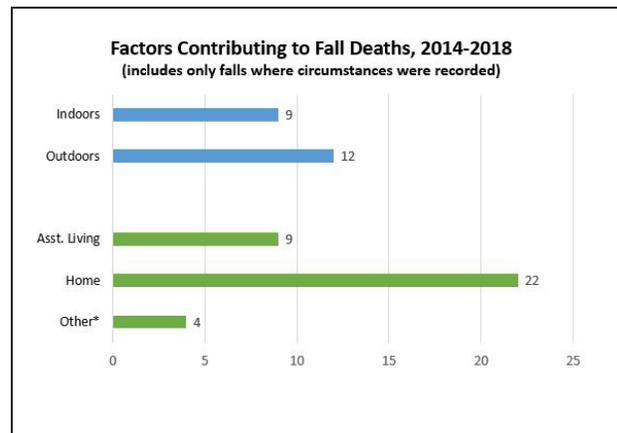

Fall-related deaths by age

Fall-related deaths by time of year

Factors contributing to fall-related deaths

\*Other includes primarily places of work and business

Data Source: Lewis and Clark County Coroner's Office  
Graphs by Lewis and Clark Public Health

Caution should be used when drawing conclusions from this data because the number of fall deaths is small.

**40%**  
of accidental deaths in the county are caused by falls, more than any other single cause.
