## ICS 202 – INCIDENT Objectives & Update Form

<b>1. Incident Name:</b> <b>COVID-19</b>	<b>2. Operational Period:</b>	Date From:	<b>10/12/20</b>	Date To:	<b>10/19/20</b>
		Time from:	<b>0830</b>	Time from:	<b>0830</b>
<b>3. Prepared by:</b> Name: Brett Lloyd	Position: Planning Section Chief	<b>4. Approved by:</b> Name: Drenda Niemann		Position: Incident Commander	

**Commander's Intent:**

*The intent of all actions and operations is to, as much as possible, minimize disease spread through physical distancing and other evidence-based protective and preventive measures.*

**General Control Objectives:**

1. Protect the public health by taking a lead role in preventing or minimizing the spread of COVID-19 in the community.
2. Support informational, advisory & medical resource needs of healthcare partners.
3. Maintain situational awareness and impacts on the local healthcare system and community.
4. Maintain continuity of Public Health operations.
5. Manage Public Information & Education to provide technical guidance, situational awareness and manage rumors & misinformation.
6. Implement & manage a phased local reopening effort that focuses on easing restrictions while still minimizing disease transmission.

**Quick Resources:**

|--|--|--|
- Seven-day case counts have nearly doubled for the third week in a row, moving Montana into 5<sup>th</sup> place regionally for new cases in the past week. South Dakota surpassed Idaho to take 3<sup>rd</sup> place, with Washington dropping below Montana for the first time since this all started despite the fact that their numbers have been consistently high.
  - County case numbers continue to rise at a rate of nearly 20 per day on average. This trend is expected to continue through the next two weeks, at least.
  - Continued reports of individuals breaking quarantine, not answering the phone when we call to contact trace, and/or going to work sick.
  - Complaints about businesses and individuals not following prevention measures, (social distancing, wearing a mask, etc.) continue to come in.
  - Both PureView and St. Peter's Hospital have their drive thru testing sites active M-F again. A provider's order is needed to test.
  - **First Montana Hospital Capacity Report released. ([link](#))**
  - **Next IAP will be Monday, October 19, 2020.**

**Federal Level Updates:**

## ICS 206 – INCIDENT Medical Plan

<b>1. Incident Name:</b> <h3 style="text-align: center; margin: 0;">COVID-19</h3>	<b>2. Operational Period:</b>	Date From:	<b>07/20/20</b>	Date To:	<b>Ongoing</b>
		Time from:	<b>0830</b>	Time from:	<b>0830</b>
<b>3. Prepared by:</b> Name: Brett Lloyd      Position: Planning Section Chief		<b>4. Approved by:</b> Name: Drenda Niemann      Position: Incident Commander			

**Commander's Intent:**

*The intent of all actions and operations is to, as much as possible, minimize disease spread through social distancing and other evidence-based protective and preventive measures.*

**Safety Message: (updated 7/20/20): As of July 16, 2020, masks are required in indoor areas open to the public. For more information, read the [Governor's directive here](#).**

**Exceptions to the mask requirement include [ref. Section 4 of Governor's Directive]:**

- children under the age of five. All children between the ages of two and four, however, are strongly encouraged to wear a face covering in accordance with the provisions of this Directive. Children under the age of two should not wear a face covering;
- persons consuming food or drinks in an establishment that offers food or drinks for sale;
- persons engaged in an activity that makes wearing a face covering impractical or unsafe, such as strenuous physical exercise or swimming;
- persons seeking to communicate with someone who is hearing impaired;
- persons giving a speech or engaging in an artistic, cultural, musical, or theatrical performance for an audience, provided the audience is separated by at least six feet of distance;
- persons temporarily removing their face covering for identification purposes;
- persons required to remove face coverings for the purpose of receiving medical evaluation, diagnosis, or treatment; or
- persons who have a medical condition precluding the safe wearing of a face covering.

- Only those employees in public-facing work spaces are required to wear face coverings as specified in this Directive. All other employees are asked to wear face coverings in all shared indoor spaces including but not limited to, hallways, break rooms, shared offices, meeting rooms, and shared vehicles. Additionally, employees working outside must wear face coverings when social-distancing is not possible.
- In instances where no mask can be worn due to a noted exception under Section 4 (sited above), employees in public-facing roles must remain behind glass or plastic screening and maintain a strict 6-foot distance between themselves and all other employees. As we continue in Phase 2 of the re-opening plan, here are some reminders about keeping city-county work environment as safe and healthy as possible. Please continue to follow the provisions and procedures noted below:
  - Where feasible, employees that have been working remotely should continue to work remotely;
  - Continue to conduct symptom screening at the beginning of each shift;
  - Maintain physical distancing of 6 feet in the office or common areas.
  - Continue to follow the handwashing guidelines; use hand sanitizer when washing hands is not an option;
  - Avoid touching your eyes, nose, and mouth with your hands; avoid close contact with others; and cover coughs and sneezes;
  - Continue to disinfect common equipment and other highly touched surfaces. Everyone has a role in this.
  - Use the masks, gloves, sanitation supplies, and hand sanitizer provided;
  - Stay home from work if you're feeling sick or experiencing COVID-19 symptoms. Use the proper procedure established by your department/office/work unit to notify your supervisor as soon as possible. If you start experiencing symptoms at work, it's important to notify your supervisor and go home as soon as possible. COVID-19 Symptoms Include: fever, cough, shortness of breath or difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, or new loss of taste or smell. We encourage you to go in for testing if you're experiencing these symptoms and wait for your results before returning to work.

Diligence is needed in our handwashing (hygiene habits) and sanitation efforts! Offices that have waiting lines or waiting areas for customers/member of the public should review the [guidelines for Phase II reopening in the Governor's Directive](#).

**Travel Guidelines**

If you have plans for out-of-state travel, please make note of the following:

- Upon return, if you can work from home for 14 days, this is the first and best choice. Maintaining efficient operations, even from home, is still a priority for Lewis and Clark County.
- If you develop symptoms, call your provider. If they recommend a test, stay home until you know your results. You will want to let your provider know when and where you have traveled.
- If working from home is not an option, please exercise precaution and follow the protocols your office or department put in place, as well as the CDC guidelines above in order to maintain the healthiest work environment possible.
- If you have family or friends visiting from out-of-state where close contact cannot be avoided (understandably), the precautions above should also be followed.

## ICS 206 – INCIDENT Medical Plan

### Instructions on when and how to ask for medical help:

- Symptoms of COVID-19 include a fever over 100 degrees F, cough, and difficulty breathing. If you have mild symptoms, stay home if possible and contact your medical provider by phone for guidance. Your provider will make sure you don't expose others in the office or hospital setting. He or she will also work with public health professionals to determine if you need to be tested.
- If you have severe symptoms, such as difficulty breathing, seek care immediately. Let the 9-1-1 dispatcher know that you might have COVID-19.
- Older patients and people who have underlying medical conditions or compromised immune systems should contact their physician early in the course of even mild illness.

### Location of Medical Aid Stations:

- Testing is being done at both St. Peter's Urgent Care in Helena and by PureView in East Helena. **Walgreens is doing testing daily from 9-5.**
- You no longer need to have a provider's order to be tested for COVID. There are various drive up clinics happening in the near future. Also, "Alluvian" in Great Falls does drive up testing.

### Personal Protective Equipment

Location	PPE Type	Instructions for Use
Murray Building	Face Masks Required	<b>Non Clinical Staff</b> – Cloth Masks, wash daily <b>Clinical Staff</b> - Cloth or surgical masks, dispose or wash daily <b>Patients</b> – Surgical masks
City/County Building	Face Masks <b>Required</b>	<b>Non Clinical Staff</b> – Cloth Masks, wash daily
EOC	Face Masks- <b>Required</b>	<b>Non Clinical Staff</b> – Cloth Masks, wash daily
Out in Public	Face Masks-, <b>Required in indoor, public spaces and outside where social distancing cannot be maintained, e.g. standing in a line, at a gathering, etc.</b>	<b>Non Clinical Staff</b> – Cloth Masks, wash daily

### Other Instructions:

- If you feel ill, notify your supervisor immediately. Do not come to work until you feel better.
- If you have questions or concerns, contact the state hotline at 1-888-333-0461 or the LCPH Nurse's Hotline at 406-457-8904.
