

Water Quality Protection District Board will be touring Prickly Pear Creek on Wylie Drive as part of our scheduled July board meeting.

Please remember to wear proper clothing, shoes. Bring your facemask, and a chair and/or umbrella, as we will be in one spot for the tour.

Please RSVP to Jolene by July 23, 2020

The field site is located along Prickly Pear Creek just north of East Helena off Wylie Drive.

From Wylie Drive, pull through the open gate next to **Clarco Storage** units and park between the fence and the two-track. It's a short walk to the creek from there.

BRING: sturdy shoes, chair, water, a joke.

Plan on an hour of demonstration and discussion. Please remember your social distancing and COVID etiquette.
