LEWIS AND CLARK COUNTY MONTANA

COMPREHENSIVE ANNUAL FINANCIAL REPORT

FISCAL YEAR 2014

July 1, 2013 to June 30, 2014

Shed hunting,... also known as antler hunting, consists of looking for antlers that the elk, deer, moose, and antelope have discarded during the winter months. This outdoor activity can be enjoyed by all ages and has been compared to an Easter egg hunt. A large number of people visit Wildlife Management Areas across the State of Montana beginning in mid-May to shed hunt.

Wildlife Management Areas (WMA's) within Lewis and Clark County

There are several WMA's located in Lewis and Clark County. They offer refuge to wildlife, usually from early December to early May, which also provides big game security. This period of isolation allows the animals to strive throughout the winter and to give birth to their young without human interaction.

The Beartooth WMA crosses the county line into Cascade County and is 31,947 acres. It is located about 40 miles north of Helena, with emphasis on mule deer and elk. The management goal includes native wildlife species and a variety of vegetation to provide food and cover for the wildlife, while allowing public recreation and hunting opportunities.

The Sun River WMA is 19,771 acres and is located about 9 miles northwest of Augusta. The management goal includes maintaining and enhancing diversity and quality for elk and other wildlife species that currently use the WMA, while allowing wildlife viewing and hunting opportunities.

The WMA's in Lewis and Clark County are home to many species including: birds, amphibians, reptiles, fish, and mammals. Grizzly bears have been sighted in the Sun River WMA, while white tail deer, mule deer, elk, bighorn sheep, mountain lions, black bears, coyotes, and beavers have been sighted in both WMA's listed above.

The WMA's open in mid-May to the public for recreational use. Those uses vary per management area, but include: hiking, biking, horseback riding, bird watching, photography, boating, fishing, camping, picnicking, hunting, trapping, wildlife viewing, shed hunting, and enjoying the great outdoors.

LEWIS AND CLARK COUNTY

Consolidated Office of Treasurer/Clerk and Recorder

November 25, 2014

To the Board of County Commissioners and the Citizens of Lewis and Clark County, Montana:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report (CAFR) of Lewis and Clark County (hereafter referred to as County) for the fiscal year ended June 30, 2014.

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse, to compile sufficient reliable information for the preparation of the County's financial statements and comply with laws and regulations in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The financial statements of the County have been audited by Anderson ZurMuehlen and Company P.C., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2014, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded based upon the audit that there was a reasonable basis for rendering unmodified opinions over the County's basic financial statement opinion units, as listed in the accompanying table of contents for the fiscal year ended June 30, 2014. The independent auditor's report is presented at the front of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and render an opinion on compliance involving the administration of major federal awards.

The County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, as amended in 1996, and the United States Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments and Non-Profit Organizations</u>. Information related to this single audit, including the schedule of expenditures of federal awards and the auditor's reports on internal control over financial reporting and compliance and other matters under <u>Government Auditing Standards</u> and in accordance with OMB Circular A-133 is included in the single audit section of this report.

Management is required to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

Profile of Lewis and Clark County

The County, established as a commission form of government in 1915, is located in the southwestern part of the state. The County government is comprised of a three-member commission that is elected at large, each member serving a staggered six-year term. There are eleven elected officials that serve four-year terms. The main County offices are located in Helena, the state capital and county seat, which is located in the southern portion of the County. The County currently has a land area of approximately 3,513 square miles and a population of approximately 66,805. The population of the County is predominately urban with the majority of the residents within a twenty-mile radius of Helena. The County is empowered to levy a property tax on both real and personal property located within its boundaries.

The County provides a full range of services. General government functions include judicial and legal services, public records administration, election services, financial services, planning services and public school administration. Public safety functions include law enforcement (sheriff), fire protection, coroner services, and detention services. The County provides the following public works functions: road and bridge maintenance, weed control, building maintenances, solid waste services, and cemetery services, along with the various public health services and animal, insect, and pest control. Other social and economic functions provided are those related to welfare, senior citizens, and extension services. The County, also, provides recreational opportunities associated with the fairgrounds and local parks. The County reports include the Cooperative Health Center as a component unit. The county operated a nursing home, but sold the facility on June 1, 2012, on an installment sale. Current activity centers around collection of the principal and interest related to the sale.

The annual budget serves as the foundation for the County's financial planning and control. All agencies of the County are required to submit requests for appropriation to the Clerk and Recorder before June 10th of each year, or on a date designated by the County Commission. The Budget Officer for the Commission uses these requests for appropriation as the starting point for developing a proposed budget. The Board of County Commissioners is required to hold public hearings on the proposed budget and to adopt a final budget through resolution. The appropriated budget is prepared by fund, function (e.g., public safety), and department (e.g. sheriff). The Board of County Commission must approve any transfer of appropriations

during the course of the year. The objective of the County's budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the County Commission. Activities of the general fund, all special revenue funds (except the Forestvale Endowment fund), and the debt service funds, have budgets adopted annually. These budgets, adopted by resolution, delineate the total amount of expenditures budgeted by fund total with the exception of the general fund, which includes department totals. Budgetary comparisons have been presented in at least this much detail.

Factors Affecting Economic Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates.

The County has experienced the effects of the national economic downturn. After the economic downturn starting in FY08, the County experienced a slowdown in several areas. Subdivision applications, permits for septic systems and tonnage received at the landfill dropped significantly as new construction stopped. Over the past six years, the County has seen slow, but steady growth. Property tax revenue has grown at approximately 2% each year. This growth is far below the levels the County experienced in the years prior to the recession, but is comparable to historic growth levels.

The County has performed well during this period of economic downturn, with an unemployment rate much lower than the state and national rates. Helena has a stable economy due to an estimated one-third of jobs being held by federal, state, county, or city government workers. The current unadjusted unemployment figure for the County is 3.7 percent. This is down .8 percent from one year ago. The current unadjusted unemployment figure for the Montana is 4.6 percent and the nation is 6.1 percent.

The County conducts various planning processes (long-term, mid-term and short-term), to help guide the government and to insure that decisions are made in the context of the organization as a whole and with a long-term perspective. Diligent efforts are made to insure each of these component planning processes are in concert with one another. This so called "Linkage" is paramount to insure short-term decisions are consistent with the overriding values embodied in the mid-term and long-term planning processes adopted by the County Commission.

Each element of the County's planning process has a different purpose and timeframe. The County's Mission, Core Values Statement and Growth Policy are the most far-reaching in nature—20 to 25 years. The Capital Improvement Program and the Five-Year Financial Forecast are mid-term in nature—5 years. The Annual Budget and the Capital Budget are short-term—covering a 1-year timeframe. The most important requisite is that they are coordinated efforts.

Mid-term financial planning for the County included the creation of a Capital Improvement Plan (CIP). Each department is asked to develop and prioritize future needs and identify funding for those needs. Additionally, each department is required to develop a replacement schedule for existing assets that identifies the replacement cost, the number of years until replacement and the annual reserves needed to replace the equipment at the end of its useful life. The CIP is presented to the County Commissioner as a separate document for review and approval and will be incorporated into future budgets. The development of the CIP provides an essential tool for managing capital improvements and replacements in the future. For fiscal year 2014, \$1.9 million was set aside for future replacement of capital assets.

Financial policies are guidelines for operational and strategic decision making related to financial matters, as they identify acceptable and unacceptable courses of action, establish parameters in which the

government can operate, and provide a standard against which the government's fiscal performance can be judged.

The County's annual budget is developed in accordance with the policies and priorities set forth in the five year strategic financial plan, County Commission goals, the needs of the County, and state and federal laws. Program/project priorities and service levels will be established by the aforementioned plans.

The County will seek to maintain a diversified and stable revenue base to protect it from short-term fluctuations in any one revenue source. The County will pursue an aggressive policy of collecting revenues. An aggressive policy of collecting revenues will help to insure revenue estimates are met, all taxpayers are treated fairly and consistently, and delinquencies are kept to a minimum. The County will aggressively pursue opportunities for Federal or State grant funding. An aggressive policy of pursuing opportunities for Federal or State grant funding provides citizens assurance that the County is striving to obtain all state and federal funds to which it is entitled—thereby reducing dependence upon local taxpayers for the support of local public services.

The County will make all current expenditures with current revenues, avoiding procedures that balance current budgets by postponing needed expenditures, accruing future revenues, or rolling over short-term debt. The County will set fees and rates at levels which fully recover the total direct and indirect costs—including operations, capital outlay, and debt service. The County recognizes that accounting principles generally accepted for state and local governments discourage the "earmarking" of General Fund revenues, and accordingly, the practice of designating General Fund revenues for specific programs should be minimized in the County's management of its fiscal affairs.

The County will estimate revenues in a realistic and conservative manner. Aggressive revenue estimates significantly increase the chances of budgetary shortfalls occurring during the year—resulting in either deficit spending or required spending reductions. Realistic and conservative revenue estimates, on the other hand, will serve to minimize the adverse impact of revenue shortfalls and will also reduce the need for mid-year spending reductions.

The County will give highest priority in the use of one-time revenues to the funding of capital assets or other non-recurring expenditures. Utilizing one-time revenues to fund on-going expenditures may result in incurring annual expenditure obligations which may be unfunded in future years. Using one-time revenues to fund capital assets or other non-recurring expenditures better enables future administrations and Commissions to cope with the financial problems when these revenue sources are discontinued, since these types of expenditures can more easily be eliminated.

The County operates an investment pool for idle cash belonging to the County, school districts, fire districts and other small local agencies. The investments of the County are managed through an investment committee. The County has formally adopted an investment policy established by the committee, which outlines the investment goals and strategies. It has been the intent of the County to add additional stability for the overall portfolio by creating a laddering process using treasury bills, agency notes and certificate of deposits.

Although the County has a fairly stable economic environment, the increase in demand for government services that accompanies development has exceeded the growth in revenues. The 2001 Montana Legislature provided major tax reform for local governments and the most significant was House Bill 124. This bill replaced the funding structure, primarily dependent on motor vehicle, gaming revenues, and includes an entitlement share from the state. The purpose of the bill was to simplify the flow of revenue between local governments and the State of Montana and to provide local governments a stable source of

between local governments and the State of Montana and to provide local governments a stable source of funding. The entitlement share will grow each year based on population and the consumer price index. The legislature also passed Senate Bill 176, which provided for the state to assume the costs of District Court, excluding the Clerk of Court and the Public Defender. The legislature also recognized that the rising cost of providing health insurance to employees was prohibitive for local governments and authorized local governments to raise mills to cover the cost of increases in health insurance premiums. The financial statements included in this report reflect these changes.

In 2004, the voters of the County voted in favor of the 8.18 mills or approximately \$703,644 for a period of ten years to finance the \$5,727,000 in projects and in favor of 2.91 mills or approximately \$250,000 in permanent funding for continuing operations, replacement and depreciation of the Fairgrounds. The tenyear construction mill levy in June 2004 was for a major construction project that included an exhibit hall/grandstands building and related infrastructure improvements, tower and entry portals and repairs to the existing multi-purpose building at the County Fairgrounds. The building was completed in the late summer of 2008. The building has allowed the fairgrounds to host many diverse events and has proven to be a huge asset to the community. Fiscal year 2014 was the last year on the construction mill levy.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Lewis and Clark County for its comprehensive annual financial report for the fiscal year ended June 30, 2013. This was the nineteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance and administration departments. We would like to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report. Special thanks to Amy Reeves for her dedication towards the completion of this report. Credit must also be given to the Board of County Commissioners for their unfailing support for maintaining the highest standards of professionalism in the management of Lewis and Clark County's finances.

Respectfully submitted,

Paulette DeHart

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Board of County Commissioners Lewis & Clark County, Montana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Lewis & Clark County, Montana as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Lewis & Clark County, Montana as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund and public safety fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and Schedule of Other Postemployment Benefit Plans on pages 5–15 and 80 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lewis & Clark County, Montana's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, schedules of capital assets used in the operations of government funds, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules, schedules of capital assets used in the operations of governmental funds, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2014, on our consideration of Lewis & Clark County, Montana's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lewis & Clark County, Montana's internal control over financial reporting and compliance.

LEWIS AND CLARK COUNTY

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2014 and 2013

INTRODUCTION

As management of Lewis and Clark County, Montana, we offer readers of Lewis and Clark County's basic financial statements this comparative narrative overview and analysis of the financial activities of Lewis and Clark County for the fiscal years ended June 30, 2014 and 2013. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages v-ix of this report.

FINANCIAL HIGHLIGHTS

- Lewis and Clark County's primary government assets and deferred outflows of resources exceeded it liabilities and deferred inflows of resources at June 30, 2014 by \$75.2 million (reported as net position) compared with \$70.2 million at June 30, 2013. Of this amount, \$24.1 million (reported as unrestricted net position) may be used to meet the government's general obligations to citizens and creditors.
- The total net position increased by \$5.0 million. The current year increase is a result of the county's investment in large infrastructure projects and building construction projects, along with the continual saving of resources by departments for future capital purchases/improvements in excess of amounts being spent.
- The County received over \$2.2 million from the settlement of two protested tax cases.
- As of June 30, 2014, Lewis and Clark County's governmental funds reported combined ending fund balances of \$24.7 million, compared with \$23.1 million at June 30, 2013. Of this amount, \$18.1 million is available for spending at the government's discretion (committed, assigned, and unassigned fund balances).
- Major infrastructure and construction projects have continue through the last three fiscal years. Several of the road and building projects were completed in this fiscal year, but several more were started.
- Lewis and Clark County made principal payments for the general obligation bond, special assessment loans, revenue bonds, and contracts/loans of \$1.5 million. The County accrued a liability of \$3,815,000 for lawsuits with a very likely chance of an unfavorable outcome.
- For a summary of new GASB pronouncements adopted in the current fiscal year, see Note 2 Stewardship, Compliance and Accountability, Section D. New Accounting Guidance Implemented pages 48 49.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to Lewis and Clark County's basic financial statements. The basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. These components are described below:

Government-wide financial statements: The government-wide financial statements are designed to provide readers with a broad overview of Lewis and Clark County's finances, in a manner similar to a private-sector business. One of the most important questions asked about the County's finances is, "Is the County as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the County as a whole and about its activities in a way that helps answer this question. These statements include all assets, deferred outflow of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the County's net positions and changes in them. The County's net position - the difference between assets plus deferred outflow of resources and liabilities plus deferred inflows of resources - are one way to measure the financial position of the County. Over time, increases or decreases in the County's net position are an indicator of whether the financial health is improving or deteriorating. Non-financial factors such as changes in the County's property tax base or the condition of the County roads also need to be considered in assessing the financial position of the County.

The Statement of Net Position and the Statement of Activities distinguishes between the following activities:

- Governmental Activities most of the County's basic services are reported here, including public safety, public works, public health and general administration. Property taxes, local option, vehicle taxes, and state and federal grants finance most of these activities.
- Business-type activities the County charges a fee to customers to recover the cost of certain services provided. The County's landfill and transfer stations; the Cooney Home, a nursing home facility; and the operations of the fairgrounds are reported here.
- Component Units the County includes one separate legal entity in its report the Cooperative Health Center. Although legally separate, this component unit is important because the County is financially accountable for them.

The government-wide statements can be found on pages 18 and 19 of this report.

Fund Financial Statements: A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The fund financial statements provide detailed information about the most significant funds, not the County as a whole. Some funds are required to be established by State law and by bond covenants. Also, the Board of County Commissioners establishes funds to help control and manage money for particular purposes or to meet legal responsibilities for using certain taxes, grants and other

money. For example, the County maintains separate funds for on-going federal grants in order to track specific expenditures to the grant.

The County maintains two types of funds, governmental and proprietary, which use different accounting approaches.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. These funds focus on how money flows into and out of the funds and the balances left at year-end that are available for spending. These funds use the modified accrual method of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services it provides. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the governmental statements. By doing so, readers may better understand the long-term impact of the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Lewis and Clark County maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the public safety fund, the rural special improvement district debt fund, and the capital development fund, which are considered to be major funds. Data from the other 57 nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the combining statements elsewhere in this report.

Proprietary funds - Lewis and Clark County maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its landfill and transfer station sites, its nursing home and its fairgrounds operations. *Internal Service funds* are used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its building and vehicle maintenance services, information technology services and property, liability and health insurance services. Because these services predominantly benefit governmental services rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities, but provide more detail and additional information, such as cash flows.

Fiduciary funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Lewis and Clark

County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 34, 35 and 164-183 of this report.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 37-76 of this report.

Other information – The basic financial statements are preceded by management's discussion and analysis and followed by other post employment benefits information. These sections are required supplementary information.

The combining statements referred to earlier in connection with nonmajor governmental funds, nonmajor enterprise funds, internal service, and the discretely-presented component unit funds are presented immediately following the required supplementary information section. Combining and individual fund statements and schedules can be found on pages 81-162 of this report.

THE COUNTY AS A WHOLE

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Lewis and Clark County, the net position was \$75,220,084 at June 30, 2014.

Net Position

The largest portion of Lewis and Clark County's net position, approximately 60.7 percent, reflects its net investment in capital assets (e.g., land, building, machinery, equipment and infrastructure, less any related debt used to acquire those assets that is still outstanding). The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in capital assets is reported net

of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The Restricted portion of Lewis and Clark County's net position, 7.2 percent, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position, \$24,110,984, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, Lewis and Clark County is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

Governmental Activities - Governmental activities increased Lewis and Clark County's net position by \$3,440,834, thereby accounting for 68.4 percent of the total growth in the net position

of Lewis and Clark County. Total revenues increased by \$6,362,724 or 16.8 percent, with total expenses increasing by \$5,988,779 or 17.3 percent. Elements that contributed to the increase in net position are as follows:

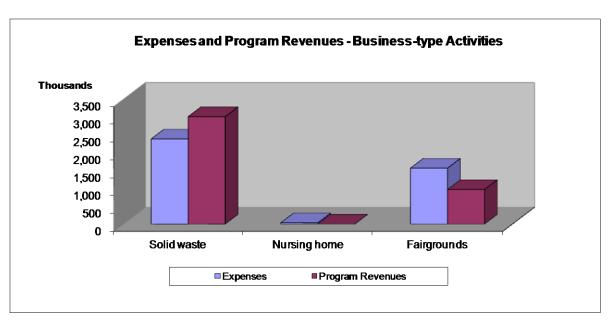

- Of the County's major governmental funds, the Public Safety fund was the only one to show positive net change in fund balance, of any significance. The remaining significant increase is from the combination of the Other Governmental Funds of over \$2,180,922.
- A one-time liability for future settlements of several lawsuits occurred in the General fund.
- Although the Capital Development showed a negative change in fund balance of \$602,541, as expenditures for several large capital purchases and the Crisis Center building construction occurred. These large amounts, totaling over \$1 million, are converted capital asset in the government-wide schedules, thus increasing the County's Net position.
- A positive effect on the fund balance resulted from an additional payment of \$2,339,471 of Payment in Lieu (PILT) being recognized as revenue in the General and Public Safety funds, along with a nonmajor governmental fund. This amount shows up in the increase of Grants and contributions not restricted to a specific program and a decrease in unearned revenues.
- The Road/Bridge Projects fund received in excess of \$2,162,000 in grants for Federal Forest Highway projects, thus showing strong growth in Capital grants and contributions.
- The increase in taxes of 6.7 percent or \$1,499,800 is primarily due from the settlements of two protested tax cases. Although, some of the growth is due to new construction growth, which is usually historic between 3 to 5 percent.
- The majority of the expense increase comes from improvement projects that don't meet capitalization thresh holds for maintenance and repair of buildings, roads and radio towers and equipment, along with the lawsuit liability.

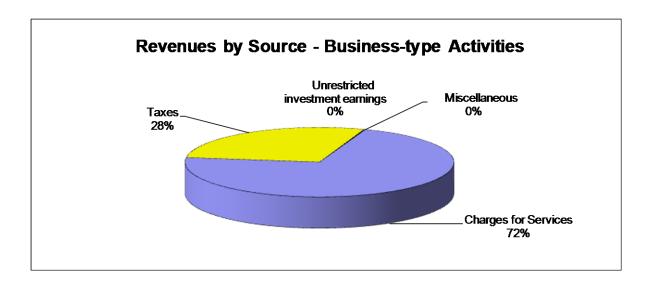

Business Activities - Business-type activities increased Lewis and Clark County's net position by \$1,587,500, thereby accounting for 18.0 percent of the total growth in the net position of Lewis and Clark County. Key elements of this increase are as follows:

- At the fairgrounds, revenues continue to be greater than expenses resulting in an increase of change in net position of over \$1 million. Tax revenue from a mill levy continued strong and resulted in \$72,000 more than the previous year. This revenue is used to pay off the revenue bonds issued for new construction and improvements to the facility.
- Operations relating to solid waste disposal showed increase in net position of approximately \$610,000, The rate increases, in fiscal year 2013, is allowing revenues to stay ahead of expenses.
- The Cooney Home, which was sold in the May 2012, resulted in negative change in net position of over \$32,000. This negative amount is the result of additional account receivable being recognized as uncollectible and the expensing of the costs to collect receivables. The fund received very minimal revenues. Other activity in this fund results from the collection of the installment payments of principal and interest from the sale.

THE COUNTY'S FUNDS

Governmental funds

As of the end of the current fiscal year, Lewis and Clark County's governmental funds reported fund balances of \$24.7 million, an increase of \$1.6 million in comparison with the prior year increase of \$1.1 million. Of this amount, \$.9 million (3.4%) is classified as non-spendable and \$23.8 million (96.6%) constitutes spendable fund balance. The spendable fund balance is further classified as restricted, \$5.6 (22.9%); committed, \$16.4 million (66.5%); assigned, \$1.2 million (4.6%); and unassigned, \$.6 million (2.6%). The preceding fund balance ratios are calculated based on their relation to total fund balances. These fund balance classifications resulted from the implementation of GASB Statement No. 54 and are defined in detail in footnote 1.

The general fund is the main operating fund of the County. At the end of the current fiscal year, combined unassigned and assigned fund balance of the general fund was \$1.7 million, while total fund balance was \$1.8 million.

The fund balance of the County's general fund decreased \$1,129,471 during the current fiscal year. Taxes saw a substantial increase in collections, primarily due to receiving \$572,550 from the settlement of two protested tax cases. Intergovernmental revenues show an increase of \$2,204,201, of which \$1,901,971 was an additional payment of Payment in Lieu (PILT) being recognized. The remaining revenue categories stayed fairly constant with last fiscal year. Overall expenditures saw a slight decrease in most functional categories, resulting in a decrease of \$91,171. A one-time liability of \$3,815,000 recorded for future settlements of several lawsuits causes in the majority decrease in fund balance.

The Public Safety Fund saw an increase in fund balance of over \$1,166,000 to end with a total fund balance of \$2.9 million. The major contributor to this increase was a tax revenue increase of \$893,002 from the settlement of two protested tax cases and intergovernmental revenue increasing due to an additional payment of \$322,500 for Payment in Lieu (PILT) being recognized.

The Rural Special Improvement District Debt Fund had a total fund balance of \$.1 million, which is steady with the prior year. The restricted fund balance can only be used for payments of principal and interest.

The Capital Development Fund had a total fund balance of \$5.9 million, which is down from the \$6.5 million in the prior year. The decrease in fund balance shows that departments making several large expenditures for capital outlay projects and assets in excess of the amount they contribute to their capital improvement plans (CIP).

Proprietary funds

Lewis and Clark County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Cooney Home at the end of the year was (\$.19) million, the County landfill was \$.38 million and (\$.27) million for the Fairgrounds. The County has met debt coverage ratios on all revenue bonds.

Although the Cooney Home sold on June 1, 2012, the county continues to use the fund to collect outstanding receivables and to account for the installment payments from the purchaser, also to record and pay payables.

The deficit in Unrestricted - Net position for the Fairgrounds decreased by \$.74 million as increases in revenue, enabled continued payoff of principal on the construction loans.

General Fund Budgetary Highlights

Over the course of the year, the Board of County Commissioners did not revise the County budget for the General fund for either revenues or expenditures. Actual revenues for the General Fund were more than the actual and final budget by \$2,247,424. Payments in lieu of taxes of \$1,901,971 more than the original budget, as an extra payment was recognized.

Actual expenditures from the General Fund were \$720,195 less than budgeted. The majority of departments spent less than they were budgeted, including general governmental and public safety departments that had unspent budgets of \$589,693 and \$60,421, respectively.

Capital Asset and Debt Administration

Capital assets - Lewis and Clark County's investment in capital assets (net of accumulated depreciation) for its governmental and business type activities as of June 30, 2014, was \$50,897,042. This investment in capital assets includes land, buildings, improvements other than buildings, infrastructure, machinery and equipment. For fiscal year 2014, the County's investment in capital assets increased by \$1,816,622. The increase is due to current year purchases of capital assets and major costs for road construction exceeding depreciation and retirement of capital assets.

Major capital asset events during the fiscal year included the following:

Governmental

- The State of Montana donated land and buildings to the County that is located at 16 West Custer. It is to be used by the County and the City of Helena for parking and maintenance buildings for the County fairgrounds. The total assets value \$640,000.
- The Crisis Center building project had total project costs over \$975,000 million.
- The Public Works department, in conjunction with the Forest Highway Projects grants, continues to work on improving the surface of several rural roads, a project started in fiscal year 2011, with current fiscal cost being in excess of \$1.9 million.
- A search and rescue building was started with costs at \$232,000.
- Purchase of vehicles and equipment for public safety in the amount of \$435,000.
- Purchase of vehicles, machinery and equipment for the Public Works department in the amount of \$189,000.

Business-type

- County landfill purchased a Cat Loader for \$282,000.
- Depreciation was \$580,000 for the business-type funds.

Long-term debt - As of June 30, 2014, the County had total debt outstanding of \$7,740,722. Of this amount, \$2,515,000 in general obligation bonds, \$931,521 is special assessment debt for which the government is liable in the event of default by the property owners subject to the assessment and \$3,489,166 represents bonds secured solely by specified revenue sources (i.e., revenue bonds). The remaining \$805,035 comprises contract/loan debt backed by the full faith and credit of the government.

Lewis and Clark County's total debt has a net decrease of \$1,265,040, due primarily to the payment of \$1,503,302 in principal, which exceeded loan proceeds for special assessment debt of \$238,262. The county made principal payments for general obligation bonds, special assessment loans with governmental commitment, revenue bonds, and contracts/loans of \$120,000, \$281,336, \$946,921, and \$155,045, respectively. The County has not had a recent change in its credit rating.

Additional detailed information on capital assets and debt administration can be found in notes 8, 9, and 10 of the basic financial statements.

Other Facts, Decisions, or Conditions of Future Significance

- In times of economic downturn, maintaining a healthy fiscal position becomes even more important. The Commission focused on maintaining adequate cash balances to weather the recession while continuing to provide the current level of services. The County is anticipating cash balances to decrease by \$11.2 million to \$19.1 million for all County funds. This represents a reserve of 23.9 percent of budgeted expenditures. This is a healthy reserve and will allow the Commission the flexibility and time to respond to decreasing revenues in an orderly fashion.
- In June 2004, the voters approved a mill levy of approximately \$703,644 or 8.18 mills for a period of ten years. Its primary purpose was to assist in financing the construction of a major event center and other projects at the Lewis and Clark County Fairgrounds. As this mill levy reaches the end of the 10 years, major discussions are underway in presenting or not presenting a new levy to the taxpayers for future development of the fairgrounds.

Contacting the County's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have questions concerning this report or need additional financial information, contact the Finance Department at Lewis and Clark County.

s

	3,398,319 675,769 414,525 (2,347,762)		(238,262)	120,000		(121,114) (39,387) 2,272
RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Net Change in fund balances total governmental funds The change in net position reported for governmental activities in the statement of activities is different because:	Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expenses. Capital assets purchases capitalized Construction in Progress increase/(decrease) Retirement, Trade In, Donation, etc of Capital assets Depreciation expense	Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Long-term receivables	Proceeds from long-term debt provides current financial resources to the governmental funds and the repayment of principal consumes the current financial resources of the governmental funds, thus contributing to the change in fund balance. In the statement of net position, however, issuing debt and repaying principal, increases and decreases, respectively, long-term liabilities and does not affect the statement of activities. Proceeds of long-term debt	Finicipal payrients are. Bonds payable Contract/loans payable	Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available.	Compensated absences OPEB implicit rate subsidy Acrued interest

Internal service funds are used by management to charge the costs of certain activities, such as maintenance supplies, and information technology and services; postage; radio sites; liability insurance claims; major medical, dental, life, vision insurance and claims; and flexible benefits claims. The net revenues/(losses) of on county buildings and vehicles; puchase, maintenance, and supplies for copiers, gasoline, central office the internal service funds are included in governmental activities in the statement of activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS

LEWIS AND CLARK COUNTY, MONTANA

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the County of Lewis and Clark have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below.

A. Reporting Entity

Lewis and Clark County is a political subdivision of the State of Montana. The County seat is Helena, which also serves as the state capitol. The population of the County is predominantly urban with the majority of the residents within a twenty-mile radius of Helena.

The county government includes a three (3) member commission, members elected at large and serving three staggered six (6) year terms. Ten (10) additional elected officials serve four (4) year terms.

For financial reporting purposes, the County has included all funds which comprise the County (the primary government) and its component units. The component units are entities for which the County is financially accountable, or whose relationship with the County is such that exclusion would cause the County's financial statements to be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the County to impose its will on the organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the County.

Discretely Presented Component Units

The component unit is an entity that is legally separate from the County because it possesses corporate powers, but is financially accountable to the County, whose relationships with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. The component unit columns of the financial statements include the financial data of the following entity.

<u>Cooperative Health Center</u> – The Cooperative Health Center (CHC) is a nonprofit corporation organized for the purpose of providing health services to the medically under-served in the County.

The corporation's board, includes representatives of local health care providers and consumers, is not controlled by the County. The County is financially accountable for the CHC as a result of fiscal dependency. Under terms of an agreement between the CHC and the County, the CHC must follow fiscal and personnel policies established by the County. Among these fiscal and personnel policies are procurement, claims processing, capital asset and hiring and firing. Due to this close operational and financial relationship, CHC could impose specific financial burdens on the County. Therefore, the County Commission can impose its will on the CHC by approving or not approving most of the major fiscal issues. The CHC does not separately present financial information for the entity and therefore it is presented as a governmental fund type within these statements and notes.

Related Organizations

The following fall into the category of "related organization" as defined by the Governmental Accounting Standards Board criteria.

<u>Helena Airport Authority</u> – For this entity, the Lewis and Clark Board of County Commissioners appoint the majority of the board of directors, but cannot impose their will on the organization, nor does the County derive any benefit or burden from this organization.

<u>Lewis and Clark Library</u> – The Library was formed in 1974 by an Interlocal Library Contract executed by Lewis and Clark County and the City of Helena. The County and the City each appoint two members to the Library Board of Trustees while the fifth member is jointly appointed by the City and County Commissions. The Library is funded through fees and tax levies collected by the County. The County cannot impose their will on the organization, nor does the County derive any benefit or burden from this organization. See Note 21 - Joint Ventures for a summary of financial information for the Library.

Investment Pool

The County maintains an investment pool consisting of funds belonging to the County and of funds held with the County Treasurer belonging to legally separate entities, such as fire, water, sewer, irrigation and cemetery special districts and school districts. The Treasurer's investment pool, hereafter called investment pool, is comprised of two components: (1) internal pooled deposits and investments and (2) external pooled deposits and investments. There is no regulatory oversight of the investment pool, but an investment committee is responsible for setting policy and reviewing and monitoring investments.

All school districts and other special districts within Lewis and Clark County are required by Montana State Statutes to hold all funds with the County Treasurer and have the option to participate in the county's investment pool or to direct their own investments. These districts have elected to participate in the investment pool.

B. Basis of Presentation, Basis of Accounting

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government (the County) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Certain indirect costs are included in the program expense reported for the individual functions and activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the County's funds, including its fiduciary funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and

enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All other expenses not meeting this definition are reported as non-operating.

The County reports the following major governmental funds:

General Fund: This is the County's main operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Public Safety Fund: This fund accounts for the receipt of revenues from mill levies, grants, and fees, along with the expenditures related to public safety, including law enforcement, detention, drug task force, and patrol.

Rural Special Improvement District Debt Fund: This fund is used to accumulate revenues from assessments collected on the property tax bills. It is used for periodic payments of principal and interest of special improvement districts debt.

Capital Development Fund: This fund accounts for the County's transfers from other funds and resources relating to expenditures dedicated to the acquisition and replacement of major capital assets.

The County reports the following major enterprise funds:

Cooney Home: This fund is used to account for the receipt of revenues and other resources and related expenses for the operation of the County-owned long-term care facility.

County Landfill: This fund is used to account for the receipt of user charges and other resources and related expenses for the operation, maintenance, construction of new cells and related closure and postclosure costs associated with the landfill.

Fairgrounds: This fund is used to account for the receipt of user charges and other resources and related expenses for the operation of the County fairgrounds. It is, also, used for the accumulation of tax revenues and expenditures related to the major construction project.

Additionally, the County reports the following fund types:

Permanent Funds: These funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the County's programs. As allowed by Montana Code Annotated (MCA) 37-19-82, the earnings of Forestvale Perpetual Care Fund are used for maintaining the county cemetery.

Enterprise Funds: These funds account for the operations and activities, which render services on a user charge basis to the general public. Primary services are landfills and transfer stations.

Internal Service Funds: These funds account for the financing of goods and services provided by one department or agency to other departments or agencies on a cost reimbursement basis, such as maintenance on county buildings and vehicles; gasoline; information technology and services; liability insurance claims; major medical, dental, life, vision insurance and claims; and flexible benefits claims.

Fiduciary Funds: These funds account for monies held on behalf of school districts, special districts, and other governments and agencies that use the County as a depository; property taxes collected on behalf of other governments; and surety bonds and performance deposits.

Measurement Focus, Basis of Accounting

Government-wide, Proprietary Statements, and Fiduciary Funds: The government-wide, proprietary fund and fiduciary funds financial statements are reported using the economic resources measurement focus. Agency funds have no measurement focus. The government-wide, proprietary funds, investment trust funds, and the agency funds financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property taxes, excluding motor vehicle taxes, licenses, and interest on investments are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the County finances certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted funds available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

C. Assets, Liabilities and Net Position or Equity

Deposits and Investments

Interest rate risk: In accordance with its investment policy, the County manages its exposure to declines fair values by limiting the maturity of its investment portfolio to no more than two years.

Credit risk: State law authorizes the County to invest in the State Short-Term Investment Pool (STIP); repurchase agreements; registered warrants of the County or of municipalities or school districts located in the County; U.S. government treasury bills, notes, bonds and other treasury obligations such as state and local government series; general obligations of certain agencies of the United States such as Federal Home Loan Bank; and U.S. government security money market funds if the fund meets certain conditions. Credit risk is minimized by compliance with State law.

Concentration of credit risk: The County's investment policy does not specifically address concentration of credit risk to allow for an investment in any one issuer not to be in excess of a specific threshold percentage of the government's total investments.

Custodial credit risk: In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. For an investment, this is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or

collateral securities that are in the possession of an outside party. State law governs the amount and types of security required to cover that portion of the deposits which is not guaranteed or insured according to law. Per state law, when negotiable securities are furnished, such securities may be placed in trust and the trustee's receipt may be accepted in lieu of actual securities when such receipt is in favor of the treasurer and their successors. Sections 7-6-202 and 7-6-206, MCA severely limit the types of investments and time deposits which are permitted by the County. Compliance with these statutes minimizes the County's custodial credit risk.

The County's external investment pool is required to report certain investments at fair value in the balance sheet and recognize the corresponding change in the fair value of investments in the year in which the change occurred. The County will state investments at fair value, when material.

The County's cash and cash equivalents are considered to be cash on hand and demand deposits. In addition, the investments with the State of Montana's Short-Term Investment Pool (STIP) is deemed to be a cash equivalent since it is sufficiently liquid as to permit withdrawal of cash at any time without prior notice or penalty.

The County's investments are considered to be U.S. Government obligations, collateralized mortgage obligations, mortgage-backed securities, repurchase agreements, certificates of deposit and mutual funds that invest only in government obligations or securities issued by agencies of the United States. The cash resources of the individual funds are combined to form a pool of cash and investments, which is managed by an investment committee. Assets held by Lewis and Clark County for external participants in the pool is shown in the Investment Trust Fund at fair value. On June 30, 2014, the percentage share of the investment pool that relates to the external investments is 38 percent.

The fair value of pooled investments is determined annually and is based on current market prices. Investment income earned as a result of pooling is distributed to those funds authorized by statute using a formula based on the average daily balance of cash and investments in each fund. Changes in the fair value of investments are recognized as revenue at the end of each year.

The County also manages several individual investment trust accounts for external participants. These accounts are reported in the Individual Investment Fund. Funds in the Individual Investment Fund are invested entirely in STIP.

At June 30, 2014 the balance in the individual investment trust accounts were as follows:

Helena School District Elementary Building Reserves	\$ 931,612
Helena School District High School Building Reserves	1,761,359
Helena School District other investment	189,246
Helena School District fiscal agent bond account	103
Helena School District Endowment	4,356
Total Individual Investment Accounts	<u>\$ 2,886,676</u>

Individual investment accounts are held and invested separately by the County and interest earned is deposited solely in the individual accounts.

The County issues warrants in payment of its obligations. When the warrants are presented to the treasury, the County's demand account is automatically charged to pay the warrants. Cash balances in all funds except the payroll fund are reported net of outstanding warrants.

Short-term Interfund Receivables/Payables

Activity between individual funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are classified as "due from other funds" or "due to other funds" on the balance sheet.

Noncurrent portions of long-term interfund loan receivables in governmental type funds are reported as advances and are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available financial resources, therefore, are not available for appropriation.

All property tax receivables are shown net of an allowance for uncollectible. The property tax receivable allowance is equal to 2 percent of the outstanding property taxes at fiscal year-end. At June 30, 2014 the allowance amounted to \$97,582 for the primary government and \$244,613 for agency funds.

Property tax levies are set on or before the second Monday in August, in connection with the budget process. Real property (and certain attached personal property) taxes are billed within ten days after the third Monday in October and are due in equal installments on November 30 and the following May 31. After those dates, they become delinquent (and a lien is placed upon the property). After three years, the County may exercise the lien and take title to the property. Special assessments are either billed in one installment due November 30 or two installments due November 30 and the following May 31. Personal property taxes (other than those billed with real estate) are generally billed no later than the second Monday in July (normally in May and June), based on the prior November's levies. Personal property taxes, other than mobile homes, are due thirty days after billing. Mobile home taxes are billed in two halves, the first due May 31 and the second due the following November 30. The tax billings are considered past due after the respective due date and are subject to a penalty (2 percent of the tax charge) and monthly interest (10 percent annually of the tax charge).

Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out expenditures method. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as deferred outflows of resources in both government-wide and fund financial statements.

Restricted Assets

Certain proceeds of enterprise fund and internal service fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted on the statement of net position because their use is limited by applicable bond covenants. The "bond reserve" account is used to report resources set aside to make up potential future deficiencies in the revenue bond debt service account. The "bond debt service" account is used to segregate resources accumulated for debt service payments over the next twelve months. The "perpetual care – nonexpendable" account is used to legally restricted the principal of a program to the extent that only earnings may be used for purposes that support the County's program. The Other purposes classification represents assets that are contractually or legally restricted to a specific program.

Capital Assets

The County's major infrastructure networks - roads and bridges - that had been put in place prior to implementation of GASB Statement 34, were first reported retroactively in fiscal-year 2007.

The County's works of art, exhibits, and books are not being capitalized. The County has a policy that says these items are protected and preserved.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Purchased or constructed capital assets are recorded at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation. The County capitalizes all assets purchased during the year over the following threshold:

	Capitalize and Depr	<u>eciate</u>		
Land	Capitalize on	ıly		
Land Improvements	\$25,000			
Building	\$50,000			
Building Improvements	\$50,000			
Construction in Progress	Capitalize only if total will be			
•	\$50,000	for Buildings; or		
	\$25,000	for Improvements; or		
	\$250,000	for Infrastructure		
Machinery and Equipment	\$15,000			
Vehicle	\$15,000			
Infrastructure	\$250,000			

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of the capital assets of business-type activities is included in the capitalized value of the asset constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Infrastructure	6-50
Buildings	15-40
Building Improvements	7-30
Vehicles	5-15
Equipment	5-10
Computer Equipment	3-7

Compensated Absences

It is the County's policy to permit employees to accumulate a limited amount of earned but unused vacation benefits, which will be paid to employees upon separation from County service. Employees are allowed to accumulate and carry over a maximum to two times their annual accumulation of vacation, but no more than 90 days into the new calendar year. There is no restriction on the amount of sick leave that may be accumulated. In addition, all nonexempt employees are allowed to accumulate compensatory time at time and one-half. Union contracts set the limit of compensatory time allowed. Upon separation, employees are paid 100 percent of accumulated vacation, 25 percent of accumulated sick leave and nonexempt employees are paid 100 percent of compensatory time. The liability for compensated absences is reported in the government-wide and proprietary fund statements.

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources

while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Postemployment Benefits

The County accounts for postemployment benefit obligations in accordance with Governmental Accounting Standards Board. The County allows retirees, their dependents and spouses to pay the same level of rates for insurance as current employees. The standard implies that this gives the retirees an "implicit rate subsidy" since retirees generally have higher health costs and should pay higher premiums. The County feels this is not a legal liability since nothing in State law or other contracts requires us to provide the same rate and we can change it at any time. Rates are actuarially established for the entire group and therefore the costs are covered. The County will continue to fund this imposed liability on a pay-as-you-go basis, as County staff feel it would be irresponsible to set aside taxpayer funds in a irrevocable trust fund that will never be used and probably continue to increase.

Fund Balance/Net Position

Fund Balance: Governmental fund balances are required to be allocated to two general classifications, nonspendable and spendable.

Nonspendable represents the portion of fund balance that the resources are not in spendable form such as inventory, and, in the general fund, long-term notes and loans receivable. Also considered nonspendable are resources that are legally required to be maintained intact (i.e. principal portion of permanent trusts).

Spendable fund balance is further categorized as restricted, committed, assigned, and unassigned.

- Restricted Constraint is externally imposed by third party (grantor, contributor, etc.), state constitution or by enabling legislation by the legislature;
- Committed Constraint is internally imposed by the County Commission by resolution by the end of the reporting period;
- Assigned Constraint is internally expressed intent by the government body or authorized official (s) through budget approval process by the reporting date;
- Unassigned remaining balance with no constraints.

The County adopted a spending policy for restricted and unrestricted fund balances with the following order of spending: restricted, assigned, committed, and lastly unassigned. When expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When expenditures are incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of assigned funds, then committed funds and finally unassigned funds, as needed, unless the County has provided otherwise in its commitment or assignment actions. The County Commission is the highest body in the County. Any constraints on funds set by them through public meeting and commission vote must be reported as committed, if action is taken by fiscal year end. Once the Commission has established the commitment, it can only be modified or rescinded by similar public meeting and commission vote. The County's Chief Administrative Officer or the County Finance Officer is generally the only other persons that can impose constraints that would cause amounts to be assigned. These constraints generally relate to carrying over budget authority from prior years for projects that have been budgeted for by the County Commission, but were not complete as of the prior year end.

Additional disclosure of the purpose of every major special revenue fund in the financial statement notes is in Footnote 11.

The County does not maintain a stabilization fund or have a minimum fund balance policy.

Net position: Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets excludes unspent debt proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Restricted resources are used first to fund appropriation.

Grant Revenue

The County recognizes grant income on government-mandated and voluntary non-exchange transactions when all eligibility requirements have been met. Cash or other assets provided in advance are reported as advances and as deferred inflows of resources.

Interfund Transactions

Interfund services provided and used are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except interfund services provided/used are reported as transfers. Transfers occurring between the County (primary government) and discretely presented component units are reported as revenue and expenses.

Comparative Data/Reclassifications

No comparative total data has been presented.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

General Budget Policies

An annual appropriated operating budget is adopted each fiscal year for County funds in accordance with State statutes. Levied funds that have an annual appropriated operating budget include the County's General Fund; Health Facilities Debt Service Fund; Library-Agency Fund; and the following Special Revenue Funds: Craig Mosquito, Mosquito Control, Water Quality, Mental Health, Roads, Predatory Animal Control, Cattle Protection Program, District Court, Search and Rescue Operations, Parks, Permissive Medical Insurance, Forestvale Cemetery, County Planning, Emergency Disaster, County Health, Senior Citizens, County Extension, and Public Safety. Others funds that have budgets adopted include Health-Related Grants, Public Safety Radio Projects, Inmate Programs, Records Preservation, Parks Development, Lincoln Parks, BEP Program, DUI Programs, City/County Drug, Missouri River Drug Task Force, MRDTF Federal Sharing, Hard Rock Mine Reserve, Metal Mines Tax Reserve, Craig Wastewater Facility Maintenance, Craig Training Center Maintenance, Septic Maintenance Revolving Loan, Septic Maintenance, Open Space, Road Improvement – Subdivision, Alcoholism, Gas Tax, HIDTA, Justice Assistance Grant, Citizens Corp/CERT Program, National Fire Plan, Economic Development, Noxious Weed Trust, Other Grants, Special Assessment Districts, City/County Building Debt, Open Space Debt, RSID Revolving Debt, Rural Special Improvement District Debt, Capital Development, CTEP Projects, RID Projects, Federal Grant Projects, Search and Rescue Facility, Search and Rescue Facility Debt, and Road/Bridge Infrastructure Projects.

Budget Process

As provided by State law, Lewis and Clark County follows these procedures to develop the budget information:

- 1) A proposed operating budget is submitted to the County Commissioners for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2) Public hearings are conducted to obtain taxpayer comments.
- 3) The final budget is adopted by the County after public hearings have been conducted.
- 4) By the later of the second Monday in August or within 45 calendar days after receiving certified taxable values, the County shall fix the tax levy for each taxing jurisdiction within the county or municipality.

Spending control is legally established by an annual resolution adopted by the County Commission. This resolution delineates the total amount of expenditures budgeted by fund total with the exception of the general fund which includes department totals. Budgetary comparisons have been presented in at least this much detail. Budget appropriation transfers may be made between the general classifications of salaries and wages, operation and maintenance, and capital outlay upon a resolution adopted by the County Commission. Reported budget amounts represent the original adopted budget, as amended by resolution of the County Commission. It is management's responsibility to see that the budget is followed to the budgetary line-item level.

The County Commission may amend a final budget when shortfalls in budgeted revenues require reductions in approved appropriations to avert deficit spending, when savings result from unanticipated adjustments in projected expenditures, when unanticipated state or federal monies are received, or when a public emergency occurs which could not have been foreseen at the time of adoption. The procedure to amend the budget in total can be made only after the County prepares a resolution, notice is published of a public hearing, and a public hearing is held in accordance with State law.

B. Budget/GAAP Reconciliation

Legally required budgets are adopted on the cash basis of accounting consistent with the budget laws of the State of Montana, which is a basis of accounting not in accordance with generally accepted accounting principles (GAAP). Under the budget basis of the County, certain revenues and the related assets are recognized when received rather than when susceptible to accrual or when earned, and certain expenditures are recognized when disbursed as determined by the date of the warrant rather than when the obligation was incurred. In addition, inventories are recorded as expenditures when purchased. GAAP requires that material balances of inventory at year-end be reported on the balance sheet. Accordingly, a fund balance reserve is reflected. Annual appropriated budgets are legally adopted for the County's General Fund, all Special Revenue Funds (except the Forestvale Endowment), Debt Service Funds, and the Capital Projects Funds. No formal budget is adopted for the Permanent Fund (Forestvale Perpetual Care Fund). Formal budgetary polices are employed for the Special Revenue and Debt Service Funds. For many funds, effective budgetary controls are also achieved through (1) Rural Special Improvement District (RSID) bond provisions, (2) Intercap Loan provisions, (3) federal and state grant contracts/agreements, and (4) bond provisions. Also, the Rural Revolving (RSID Revolving) fund is no longer deemed budgetary, but continues to receive delinquent tax collections.

Individual fund budgetary amounts equal appropriation amounts. All annual appropriations lapse at fiscal year end. Encumbrances are appropriated in the subsequent fiscal year.

Accounting principles used in developing data on a budgetary basis differ from those used in preparing financial statements in conformity with generally accepted accounting principles (GAAP). The following schedule reconciles the amounts on the basic governmental fund - Statement of Revenues, Expenditures,

and Changes in Fund Balance – Budget and Actual (which is prepared on a non-GAAP budgetary basis) to the amounts in the basic governmental fund -Statement of Revenues, Expenditures, and Changes in Fund Balance (which is prepared on a GAAP basis) for the major funds.

	Major Funds								
		Public	RSID	Capital					
	General	Safety	Debt	Development					
Fund Balances Budget	\$ 5,133,430	\$ 2,306,026	\$ 105,590	\$ 5,920,107					
Basis Differences									
Inventory	101,253	-	-	-					
Accrual of tax revenue	531,068	828,582	12,784	-					
Accrual of licenses and permits	127,554	-	-	-					
Accrual of intergovernmental revenue	32,160	16,849	-	-

C. Fund or Position Deficits

The Cooney Home is the only fund with a deficit at fiscal year-end. The Cooney Home was sold in May 2012. The negative amount is the result of account receivables being recognized as uncollectible and the expensing of the costs to collect receivables that occurred after the sale. The deficit will slowly improve as the County receives interest revenue from the collection of the installment payments of principal and interest from the sale.

D. New Accounting Guidance Implemented

The County has adopted the provisions of the following GASB pronouncements for fiscal year 2014:

- Statement No. 66, Technical Corrections—2012—an amendment of GASB Statements No. 10 and No. 62, which is effective for the County beginning in fiscal year 2014. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, and No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.
- Statement No. 67, Financial Reporting for Pension Plans, which is effective for the County beginning in fiscal year 2014. The objective of this Statement is to improve financial reporting by state and local governmental pension plans.
- Statement No. 69, Government Combinations and Disposals of Government Operations, which are effective for government combinations and disposals of government operations occurring in financial reporting periods beginning in fiscal year 2014, and should be applied on a prospective basis. This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. As used in this Statement, the term *government combinations* includes a variety of transactions referred to as mergers, acquisitions, and transfers of operations.
- Statement No. 70, Accounting and Financial Reporting for Nonexchange Financial Guarantees, effective for financial statements for reporting beginning in fiscal year 2014. The objective of this Statement is to improve accounting and financial reporting by state and local governments that extend and receive nonexchange financial guarantees.

NOTE 3 – DEPOSITS AND INVESTMENTS

The county's investment pool is in accordance with Montana Code Annotated Section 7-6-201 and County's Investment Pool Investment Policy. The responsibility for conducting investment transactions reside with the County Treasurer, with overall policy guidance the responsibility of a committee formed by the County Commissioners. The pool is not registered with the SEC. The fair value of investments is reviewed monthly, with yearly adjustments to the financial statements at fiscal year-end, if necessary. All parties involved share in gains or loss equitably, based on their average daily balances. Participating jurisdictions elect to participate by an interlocal agreement, with each party share equal, dollar for dollar. Jurisdictions may elect to invest funds outside the investment pool (shown as "Individual Investments" in these notes), but will not participate in pool gains or losses.

Following is a reconciliation of the County's deposit and investment balances as of June 30, 2014:

	Pooled Cash and Investments		_	ndividual vestments		Other	Total	
Bank Deposits	\$	1,974,135	\$	8,305	\$	122,229	\$	2,104,669
Investments		80,382,108		2,878,372		555,871		83,816,351
Total	\$	82,356,243	\$	2,886,677	\$	678,100	\$	85,921,020
	Government-wide Statement of Net Position		Fiduciary Funds Statement of Net Position		Component Units			Total
Cash and Cash Equivalents	\$	26,993,133	\$	46,659,988	\$	670,940	\$	74,324,061
Investments		3,748,528		6,312,621		93,597		10,154,746
Restricted assets (noncurrent)		1,442,213						1,442,213
Total	\$	32,183,874	\$	52,972,609	\$	764,537	\$	85,921,020

Carrying amounts and fair values (Bank Balance for Cash Deposits) for the County's cash/cash equivalents and investments are presented in the following schedules.

Cash Deposits

The composition of cash and cash equivalent deposits at fair value on June 30, 2014, was as follows:

	Primary Government		Component Unit		
Cash on hand	\$	(451,914)	\$	(4,954)	
Petty cash		28,910		850	
Time deposits		2,393,812		22,431	
Fiscal agent deposits		97,895		-	
Money market account		17,639			
Total Primary Government	\$	2,086,342		_	
Total Component Unit			\$	18,327	
Total Reporting Entity			\$	2,104,669	

Cash balances, available for investment - except those held separately, are maintained in pooled bank and investment accounts to improve investment opportunities. Available cash is invested until the cash is needed for expenditures. Any short-term investments with a maturity of 90 days or less from the date of acquisition are treated as cash equivalents for financial statement purposes.

Cash and cash equivalent deposits may include cash and cash items: demand, time, savings, fiscal agent deposits, money markets, and Certificates of Deposit. Certificates of deposit amounts are required in the above schedule, per GASB 3, for disclosure of credit and market risk, but for financial reporting purposes, they are reported as investments.

The County minimizes custodial credit risk by restrictions set forth in County policy and state law. Custodial credit risk for deposits is the risk that in the event of a financial institution failure, the County's deposits may not be returned or the County will not be able to recover the collateral securities in the possession of the outside party. The County's policy requires deposits to be 102 percent secured by collateral valued at fair value. The Treasurer's Office maintains a listing of financial institutions, which are approved for investment purposes. Types of securities that may be pledged as collateral are detailed in Section 17-6-103, Montana Code Annotated (MCA). County policy requires that that specific safeguards, against risk of loss, be evidenced when the County does not physically hold securities.

At fiscal year end, the County's carrying amount of deposits was \$2,416,243 and the bank balance was \$2,354,320. The carrying amount of deposits for the County includes \$22,431 of the component unit cash balance. Of the bank balance, \$250,000 will be covered by federal depository insurance (FDIC), and any remaining will be covered by securities held by the pledging financial institution's trust department or agent in the County's name.

Fiscal agent deposits of \$97,895 consist of deposits with trustees related to the issuance of bonds by the county. These funds are invested in accordance with bond covenants and are pledged for payment of principal, interest and specified capital improvements. The pledging financial institution's trust department or agent in the County's name holds the invested funds.

At fiscal year end, the County did not have a certificate of deposit. Certificates of deposit must be 100 percent collateralized by securities held by the pledging financial institution's trust department or agent in the County's name.

Both, Forestvale Perpetual Care Fund and Forestvale Endowment Fund, had money market balances at fiscal year end, of \$5,113 and \$4,221, respectively. The pledging financial institution's trust department or agent in the County's name holds the invested funds.

State of Montana statutes require that the County have pledged securities equal to 50 percent of its total deposits and investments, which are not insured or guaranteed, if the institution in which the deposit is made has a net worth to total assets ratio of 6 percent or more. At June 30, 2014, the County was in compliance with this statute.

Investments

On June 30, 2014, the book value approximated the fair value of the investments; therefore no unrealized gain or loss was recorded for the year. The composition of investments on June 30, 2014, was as follows:

Primary Government

At fiscal year end, the reported amount of the primary government's investments was \$83,072,990. Of the amount, \$0 was uninsured and unregistered with the pledging financial institution's trust department or agent holding the invested funds in the County's name.

Component Unit

At fiscal year end, the reported amount of the component government's investments was \$743,361. Of the amount, none was uninsured and unregistered with the pledging financial institution's trust department or agent holding the invested funds in the County's name.

Although the county has no formal policy relating to interest rate risks, the following table illustrates the specific identification method used to disclose interest rate risks related with the County's investments. The specific identification method does not compute a disclosure measure, but presents a list of each investment, its amount, its maturity date, and any call options. The investments include certain short-term cash equivalents, various long-term items and restricted assets by maturity in years. The County uses a laddering technique in which it purchases investments in which one or two may mature each month. The investments have maturity ranges from nine to twenty four month. As a long-term investment matures, a new one may be purchased to replace it or the County may wait to replace it, meanwhile investing short-term until an appropriate replacement is found. The State short-term investment pool has investments with a weighted average maturity of 43 days. The laddering allows for diversity in the portfolio to minimize interest rate risk.

	Maturities in Years

State statutes limit investments for all funds, with the exception of Forestvale Perpetual Care Fund and Forestvale Endowment Fund, to the following types:

- Direct obligations of the United States Government
- Securities issued and guaranteed by agencies of the United States
- Mutual funds that invest only in government obligation
- Securities issued by agencies of the United States Securities guaranteed by the United States or by an agency of the United States but not issued by agencies of the United States
- Repurchase agreements
- State Short-Term Investment Pool (STIP)

Along with the limitations place on investments by state law, the County minimizes custodial credit risk by restrictions set forth in County policy. Custodial credit risk for investments is the risk that in the event of a financial institution failure, the County's investments may not be returned or the County will not be able to recover the collateral securities in the possession of the outside party. The County Treasurer's Office maintains a listing of financial institutions and securities dealers, not affiliated with a bank, which are approved for investment purposes. County policy requires that that specific safeguard against risk of loss be evidenced when the County does not physically hold securities.

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County securities have credit risk as measured by major credit rating services. This risk is that the issuer of a county security may default in making timely principal and interest payments. The county has addressed the issue of credit risk in its formal investment policy by requiring safekeeping and collateralization of its investments. The county primarily invests in State of Montana short-term investment pool and obligations of the U.S. government. The Forestvale Perpetual Care Fund and Forestvale Endowment Fund are authorized to invest in stocks, bonds, and mutual funds.

The State of Montana short-term investment pool has its own formal investment policy that addresses credit risk. A copy of the policy is located at www.investmentmt.com/Programs/STIP/STIP_IPS.pdf.

The County invests in the Short-Term Investment Pool (STIP) managed by the State of Montana. The STIP investments are purchased in accordance with the statutorily mandated "Prudent Expert Principle". The portfolio may include asset-backed securities, commercial paper, corporate and U.S. Government direct obligations, U.S. Government agency securities, repurchase agreements, institutional money market funds, certificates of deposit and variable rate securities. These securities are purchased to provide shareholders with a diversified portfolio earning a competitive return. The County has reported these investments as cash equivalents for financial reporting purposes. Per GASB 3 for disclosure of credit risk, STIP amounts are required in the investment footnote schedules. Amounts invested by the County in STIP may be redeemed at any date at the carrying value on that date. Audited financial statements for the State of Montana's Board of Investments are available at 555 Fuller Avenue, Helena, Montana 59601.

Investments in the Short-Term Investment Pool are reported at fair value. The fair value of pooled investments is determined annually and is based on year-end market prices. The unit value of the pool, including STIP, is fixed at \$1 for both participant redemptions and purchases. Investments in the STIP are carried at cost. STIP is managed by the State of Montana and is classified as a 2A-7 like pool. STIP income is automatically reinvested in additional units.

Governmental Accounting Standards Board (GASB) Technical Bulletin No. 94-1, effective for periods ending after December 31, 1994, requires governmental entities participating in an investment pool to disclose certain types of securities held in the pool. As noted above, the County invests in STIP. This pool contains two types of investments requiring disclosure, which are asset-backed securities and variable rate (floating-rate) securities.

Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit risk quality per GASB No. 40. The agency notes of \$10,148,003 of the primary unit and \$90,518 of the component unit, meet this requirement.

The credit ratings presented in the following tables are provided by Standard and Poor's Corporation (S & P) rating service. If no rating is available from S & P, then a Moody's Investment Services, Inc rating will be used. The County does not have policies regarding credit ratings of investments.

The County has invested in collateralized mortgage obligations (CMOs). These investments are mortgage-backed securities and are commonly referred to as derivatives, meaning that the value of the security is derived from underlying instruments or market indices. The County is invested in derivatives taking many forms including, but not limited to, floating and inverse floating securities and principal-only strips. These investments are categorized as Federal National Mortgage Association - CMO in the previous schedules.

The County invested in derivatives in an effort to maximize yields. These securities are based on cash flows from the underlying mortgages. Therefore, they are sensitive to the mortgagee's payments, which may vary based on raises and declines in interest rates. Maturity dates on these securities are in fiscal year 2023. The book value (cost) of the County's derivative holdings as of June 30, 2014, was \$24,734 and the fair value on that date was \$25,192.

Following is the County's statement of net assets and changes in net assets for its investment pool.

STATEMENT OF NET POSITION INVESTMENT POOL June 30, 2014

Governmental funds report *Deferred Inflows of Revenue* for amounts which asset recognition criteria has been met, but for which revenue recognition criteria has not been met. Under modified accrual basis of accounting, such amounts are measurable, but not available. Governmental funds also report *Deferred Inflows of Resources* in connection with revenues collected after all eligibility requirements are met, but prior to meeting time requirements. At the end of the current fiscal year, the various components of *deferred inflows* reported in the governmental funds were as follows:

Governmental Activities

	Deferred Inflows	Deferred Inflows	
	of Revenue	of Resources	Total
Taxes/Assessment receivable (General Fund)	\$ 308,888	\$ -	\$ 308,888
Accounts receivable (General Fund)	281,846	-	281,846
Taxes/Assessment receivable (Public Safety Fund)	482,155	-	482,155
Taxes/Assessment receivable (RSID Debt)	1,231,537	-	1,231,537
Taxes/Assessment receivable (Nonmajor Funds)	392,983		392,983
Total	\$ 2,697,409	\$ -	\$ 2,697,409
Taxes/Assessment receivable (Nonmajor Funds)	392,983	-	392,983

General Fund

The County entered into an agreement with Rocky Mountain Development Council, which is associated with unpaid insurance premiums, thus resulting in an amount owing of \$281,846, with a payment due this year of \$30,000, the remaining amount of \$251,846 being classified as a long-term accounts receivable.

\$ 281,846

NOTE 5 – INTERFUND RECEIVABLES AND PAYABLES

The County uses interfund receivables and payables for funds that incur negative cash balances due to expenditures exceeding revenues for a short time period. Balances due to/from other funds at June 30, 2014, consist of the following:

2,349,605

Governmental Activities			
Receivable Fund	Payable Funds		Amount
General Fund	HIDTA Grant	\$	17,632
	National Fire Plan		27,880
	Noxious Weed Trust Grant		11,672
	CTEP Projects		29,134
	RID Projects		242
	Total non-major governmental funds		86,560
	Cooney Home		2,263,045
	Total enterprise funds		2,263,045

NOTE 6 - NOTE AND ADVANCES RECEIVABLE

Total governmental activities

Notes and advances receivable at June 30, 2014, include the following:

Governmental Activities

Debt Service Funds		
RSID Revolving Fund 2 percent above the STIP rate, advance receivable from Woodlawn Service Connection, due in semi-annual payments through 2018.	\$	28,755
2 percent above the STIP rate, advance receivable from Cave Gulch Watershed Project, due in semi-annual payments through 2014. Total debt service funds	\$	441 29,196
Capital Projects Funds		
Capital Development Fund 2 percent above the STIP rate, advance receivable from Fairgrounds Enterprise for major construction projects and portable bleachers, due in semi-annual payments beginning in December 2008 and continuing through 2016.	<u>\$</u>	591,392
Total governmental activities	<u>\$</u>	620,588

Business-Type Activities

Enterprise Fund

Cooney Home

Two promissory notes entered into with Cooney Realty LLC for the acquisition of the nursing home were refinanced on May 30, 2014. The new interest rate will be 1.81%, with month installments of \$7,384, with a final balloon payment due June 1, 2020.

\$ 2,049,977

NOTE 7 – TRANSFERS

The County uses interfund transfers for regular re-occurring internal charges, such as administration fees and insurance costs, to name a few.

The following is a summary of transfers in and out during fiscal year 2014:

_	Transfers Out										
		Public	RSID	Capital	Nonmajor	County	Fair	Internal	Total		
	General	Safety	Debt	Development	Governmental	Landfill	Enterprise	Service	Transfers		
	Fund	Fund	Fund	Fund	Funds	Fund	Fund	Funds	In

NOTE 9 – LONG-TERM DEBT

GENERAL OBLIGATION BONDS

Governmental Activities

The following is a summary of general obligation bond transactions for the fiscal year ended June 30, 2014:

		General		
	(Obligation		
Bond payable, July 1	\$	2,635,000		
Bond issued		-		
Bond retired		(120,000)		
Bond payable, June 30	\$	2,515,000		

On November 4, 2008, pursuant to a voter approved ballot, the Open Space Grant Program was created. It allows for the issuing of up to \$10,000,000 in general obligation bonds for the preserving of open-space lands in the county, including working lands and land for protecting water and wildlife. A special revenue fund, Open Space, was created, in which, to deposit the revenue bond proceeds and for the associated disbursements. To date, \$3,000,000 has been issued.

Revenues for the retirement of the general obligation bond issue are collected through mill levies. All revenue collections and debt repayment disbursements are reported in the Opens Space Debt Service fund. Bonds payable at June 30, 2014, consist of the following issue:

				Amount
	Interest	Maturity		Outstanding
	Rate	Date	Issued	6/30/2014
General Obligation Bonds:				
Opens Space Projects	variable	7/1/2030	\$3,000,000	\$2,515,000
	(2.00% to 4.05%	(o)		

General obligation bond debt service requirements to maturity are as follows:

FY Ending	Interest	Principal	 Total

Total	\$ 830,908	\$ 2,515,000	\$ 3,345,908

REVENUE BONDS

At June 30, 2014, the outstanding revenue bond indebtedness of Lewis and Clark County is as follows:

Governmental Activities

Health Care Facility Revenue Bonds, Series 1998D:

\$ 240,000

This bond has an interest rate of 3.8 to 5.1 percent, payable from the Cooperative Health Center in annual installments of \$30,000 to \$65,000 beginning February 1, 1999, callable on or after February 1, 2006. The original debt, issued on February 1, 1998, was \$1,367,072 and is a limited tax levy of up to 3 mills. Final payment is scheduled for February 1, 2018, upon which time the tax levy will cease.

Business-type Activities

At June 30, 2014, the outstanding revenue bond indebtedness of Lewis and Clark County is as follows:

Solid Waste Facility Refunding Revenue Bonds, Series 2004:

\$2,934,085

(DNRC SRF Loan Program)

In fiscal year 2013, the County issued refunding bonds in the amount of \$2,004,000. The purpose of this issuance is to use the proceeds to retire the County's outstanding Solid Waste Facility Revenue Bonds, Series 2004. The new bonds will have an interest rate of 2.25 percent in comparison to the old rate of 3.75 percent. The semi-annual installment payments range from \$85,266.50 to \$100,273.75 beginning July 1, 2013. Final payment is scheduled for July 1, 2024. The carrying amount of the Series 2004 bonds was \$2,004,000, therefore resulting in no increase or decrease in bonds payable for this series.

The reduction in the cash flow requirement is \$229,056, with the economic gain calculated at \$38,132.

Additional revenue bonds were issued in fiscal years 2009 and 2011, amounting to \$649,900 and \$1,400,000, respectively. The issue made in fiscal year 2009 has been paid off in full.

The bonds are to be repaid from the net revenues, less operating expenses, derived from the operations from the County's Solid Waste Facility. Upon satisfaction of the debt, rates charged to the users will be reduced.

Fairgrounds Revenue Bonds, Series 2007:

315,081

This bond has an interest rate of 4.54 percent, payable from the Fairgrounds Enterprise in semi-annual installments of \$184,766 to \$314,924 beginning July 1, 2008. The original debt, issued on August 27, 2007, was \$3,535,000 and is secured by the Special Fairgrounds Building Tax Levy. Final payment is scheduled for July 1, 2014.

Total Business-type Activities

\$3,249,166

Total Revenue Bonds

\$3,489,166

The County is carrying the cost of the Solid Waste Facility Revenue Bonds at par plus the unamortized deferred loss due to refunding. The deferred loss is amortized on a monthly basis over the life of the bonds. These revenue bonds are unsecured and repayment is from charges for services of the corresponding facilities.

Revenue bond resolutions include various restrictive covenants. The more significant covenants 1) require that cash be restricted and reserved for operations, debt service, and replacement and depreciation of facilities; 2) specify minimum required operating revenue; and 3) specific and timely reporting of financial information to bond holders and the registrar.

The following information is presented to satisfy bond covenant provisions. The bond resolution for the 1998 Health Care Revenue Bonds issued in February 1998 requires a 110 percent earnings ratio based on the current year's maximum debt service requirement. Bond requirements for the County Landfill Refunding Revenue Bond requires that net revenues in excess of current expenses equal 125 percent of the maximum amount of principal and interest in any subsequent fiscal year.

For the year ended June 30, 2014, the County was in compliance with these requirements for the County Solid Waste Facility and the Health Care Facilities.

	County Solid			alth Care
	Wa	ste Facility	F	acilities
Gross revenues	\$	1,320,513	\$	329,882
Direct operating expenses		611,206		229,713
Net Revenue	\$	709,307	\$	100,169
Maximum debt service	\$	360,256	\$	69,990
Percent coverage		196.9%		143.1%

Gross revenues include operating revenues and interest income. Direct operating expenses exclude depreciation and interest expense on the bond issue.

Revenue bond debt service requirements to maturity are as follows:

Governmental Activities

Changes in Long-Term Liabilities

The following is a summary of the changes in long-term liabilities for the year ended June 30, 2014:

									Due
Governmental Activities	Balance						Balance	,	Within
	7/1/2013	A	Additions	Re	eductions	6	6/30/2014	One Year	
General obligation bonds	\$ 2,635,000	\$	_	\$	120,000	\$	2,515,000	\$	125,000
Revenue bonds	295,000		-		55,000		240,000		55,000
Special assessment	974,595		238,262		281,336		931,521		89,778
Contracts/Loans	960,080		_		155,045		805,035		160,401
Compensated absences	1,939,509		1,938,961		1,803,115		2,075,355		207,536
OPEB implicit rate subsidy	 227,612		39,387				266,999		
Total	\$ 7,031,796	\$	2,216,610	\$	2,414,496	\$	6,833,910	\$	637,715
Business-type Activities									
Revenue bonds	\$ 4,141,087	\$	-	\$	891,921	\$	3,249,166	\$	605,499
Landfill liability	1,163,103		13,705		103,600		1,073,208		12,400
Compensated absences	80,441		73,662		84,126		69,977		6,998
OPEB implicit rate subsidy	 11,861		2,041				13,902		
Total	\$ 5,396,492	\$	89,408	\$	1,079,647	\$	4,406,253	\$	624,897

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At fiscal year end, the revenue bond balance of \$240,000 and \$212,761 of the compensated absences represent internal service funds' liabilities. Also, for the governmental activities, claims and judgments and compensated absences are generally liquidated by the general fund and other governmental funds.

The OPEB plan allows retirees to participate, as a group at a rate that does not cover all the related costs. This results in the reporting of an "implicit rate" subsidy in the related financial statements. While this liability is disclosed for financial purposes, it does not represent a legal liability of the County, or any of its component units.

SPECIAL ASSESSMENT DEBT AND CONTRACTS/LOANS PAYABLE

Governmental Activities

The following loans represent borrowings from the Montana Board of Investments Intercap Loan Program.

Special Assessment Debt

Montana Board of Investment intercap loans have a variable interest rate that is adjusted annually. For fiscal year 2014, the rate was 1.0 percent. Special assessment debts at June 30, 2014, are as follows:

	Amount Year of Issued Maturity		Year of Maturity	Principal Balance 6/30/2014		Due Within One Year		FY2015 Interest Rate (%)
Gable Estates Rural Improvement District	\$	317,476	2016	\$	7,897	\$	3,875	1.00%
Maynard Rural Improvement District		8,680	2016		1,987		985	1.00%
Bel Air Rural Improvement District		194,635	2018		27,348		5,639	1.00%
Bel Air Curbs Rural Improvement District		13,685	2018		3,387		794	1.00%
Townview Rural Improvement District		39,197	2018		6,861		1,609	1.00%
Green Acres Rural Improvement District		25,273	2018		6,211		1,456	1.00%
Skyview Rural Improvement District		52,996	2020		9,894		1,570	1.00%
Autumn Wind Rural Improvement District		40,124	2025		26,152		2,050	1.00%
Fantasy Road Rural Improvement District		9,279	2027		4,522		309	1.00%
Big Sky Road Rural Improvement District		143,606	2028		130,606		8,113	1.00%
Crestwood Road Rural Improvement District		94,656	2024		87,656		8,378	1.00%
McHugh Rural Improvement District		495,272	2023		270,000		35,000	4.40%
Woodlawn Rural Improvement District - wastewater		143,000	2027		104,000		6,000	2.75%
Woodlawn Rural Improvement District - water		319,516	2028		245,000		14,000	2.75%
Total Special Assessment Debt	\$	1,897,395		\$	931,521	\$	89,778	

The loans are special assessment debt issued for the construction and maintenance of capital improvements within defined special improvement districts. The loans are payable from special assessments levied against the properties in the respective districts. The County has a secondary responsibility on the debt issued for the various districts. State law obligates the County to pay the debt service on these loans even if the assessments on the property owners are in default. At fiscal year-end 2014, funds with special assessment debt had \$13,494 in delinquent tax receivables. State law provides for and the County uses a "Special Improvement District Revolving Fund" to accumulate resources for such debt service payment. Statues allow for a special property tax levy as long as the balance in this fund is less than 5 percent of total outstanding special assessment debt with government commitment. This fiscal year, the County did not levy for the fund.

Contracts/Loans Payable

Loans are issued for cost of construction or remodeling of county building, repairs and replacement of bridges, and purchase of motor graders for public works and public safety radio and computer systems.

				P	rincipal		Due	FY2015
	Amount		Year of	Balance		,	Within	Interest
	Issued		Maturity	6/30/2014		One Year		Rate (%)
City/County Building Remodel	\$	977,748	2018	\$	467,176	\$	110,918	1.00%
City/County Building Remodel - Phase II		505,000	2021		337,859		49,483	1.00%
Total	\$	1,482,748		\$	805,035	\$	160,401	

The following is a summary of maturities and interest by years for the special assessment debt and contracts payable at June 30, 2014. With variable interest rates that are adjusted annually, the actual interest is shown for the next year and the future years are estimated using the FY2015 rate of 1.0 percent.

	Special Assessment Debt					Contracts Payable

Business-type Activities

Contracts/Loans Payable

No loans are outstanding for business-type activities at fiscal year-end.

NOTE 10 - CONDUIT DEBT

The County has authorized the issuance of certain bonds in its name to provide tax exempt status because it perceives a substantial public benefit will be achieved through the use of proceeds. The following describes the various types of such third party debt.

<u>Environmental Facilities Revenue Bonds</u> – These bonds have been issued on behalf of Asarco, Inc., to finance pollution control projects at the Asarco plant in Lewis and Clark County.

<u>Higher Education Revenue Note</u> – These notes have been issued on behalf of Carroll College, to finance construction of various buildings and improvements, including installation of energy efficiency improvements to various buildings and facilities on the Carroll College campus.

<u>Industrial Development Revenue Bonds</u> – These bonds have been issued on behalf of Golden Triangle, Inc., to finance a portion of the construction, acquisition and financing of mental health facilities.

<u>Family Services Provider Revenue Bonds</u> – These bonds have been issued on behalf of Montana Advocacy Program, Inc., to finance the acquisition and remodeling of a building to provide office space for the corporation.

As of June 30, 2014, the status of all third party debt issued is:

	Issued	Outstanding
Environmental Facilities Revenue Bonds Asarco, Inc.	\$ 33,160,000	\$ 33,160,000
Environmental Facilities Revenue Bonds Asarco, Inc.	34,800,000	34,800,000
Higher Education Revenue Bond - Carroll College	12,315,000	11,945,000
Higher Education Revenue Bond - Carroll College	4,250,000	4,250,000
Industrial Development Revenue Bonds - Golden Triangle, Inc.	2,000,000	711,000
Family Services Provider Revenue Bonds	995,000	795,280
Total	\$ 87,520,000	\$ 85,661,280

These bonds do not constitute an indebtedness of the County. The debt is payable solely from the funds and assets pledged by the ultimate borrower stipulated in the loan agreements. In the opinion of County officials, this debt is not payable from any revenues or assets of the County, and neither, the full faith and credit of the taxing authority of the County, the State or any political subdivision thereof is obligated to the payment of principal or interest on the bonds.

NOTE 11 - FUND BALANCE - MAJOR PURPOSE PRESENTATION

GASB Statement No. 54 requires the County to present the governmental fund balances and each major special revenue fund revenues by specific purposes. In the basic financial statements, the fund balance classifications are presented in the aggregate. The tables presented below further display the fund balances and major special revenue fund revenues and by major purposes.

	GOVERN	MENT AL FUND	BALANCE BY Debt Service	FUNCTION

NOTE 12 - LEASES

Capital Leases

In fiscal year 2014, Lewis and Clark County did not have any capital leases.

NOTE 13 - LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

State and Federal laws and regulations require that Lewis and Clark County place a final cover on its landfill when closed and to perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. The amount of the related closure and postclosure care costs recognized in each period is based on the relative amount of waste received during the period, even though some of the closure and postclosure care costs will be paid after the landfill is closed. Lewis and Clark County is required by state and federal regulations to provide financial assurance for landfill closure, postclosure and remediation (if applicable). The County qualifies and has chosen to provide assurance by using the Local Government financial test.

County Landfill

The County Landfill began accepting waste in the Class II area on October 11, 1994. The Class II area encompasses a total of 80 acres. In the Class II area, individual cells will be opened, filled and closed over time. These cells are named Phase 1, Phase 2, etc. The final construction of the first cell to be opened, Phase 1, was completed in December 1994. The Phase 2 cell began accepting waste in December of 2002. The closure of the Phase 1 cell was completed during fiscal year 2004. Also in fiscal year 2004, a new area was opened called Class IV that will be used only for construction waste.

In March 2014, a new engineer's report was completed and it provided, among others, three significant changes from the January 2009 engineer's report. The first being a change in the annual tonnage from 45,000 tons per year to 40,000 tons per year, with an annual escalation of 1.25%. The second change was to the remaining life of the landfill, which was changed from 87 years to 98 years. Thirdly were the changes to closure and postclosure cost estimates.

The new cost estimates and new remaining useful life(s) associated with the March 2014 engineer's report, resulted in the following changes to the reported amounts:

• Montana financial assurance regulations require that the landfill financially assure for the largest planned open area during the life of the landfill. One of two financial assurance approaches shall to be used when building financial assurance. The county uses the approach to financially assure the largest area that will ever be open during the life of the site. When Phases 4 and 5 are open, the landfill will have 29.5 acres open in the Class II landfill area and 7 acres of Class IV area which will be required to be closed over the remaining life of the site.

- The estimated total cost for landfill closure and postclosure care is \$2,266,250. This is a decrease of \$346,462. The total closure cost for the Class II and Class IV areas, associated with the largest open areas as noted above, are \$1,359,650 and \$306,000, respectively. In the Class II area, Phase 2 is nearing end of its useful life and is currently being closed. The total postclosure liability is \$600,600.
- The fiscal year-end liability that represents the financial insurance amount is \$936,808, which is comprised of estimated costs for Class II area closures, Class IV area closure, and post-closure monitoring of \$803,774, \$68,988 and \$64,046, respectively. The yearly increase in liability for closure for Class II cells and the Class IV cell is \$5,731 and \$2,443, respectively. The yearly increase in liability for postclosure is \$5,531.

The amounts reported to date, represent estimates based upon the use of approximately 16.5 percent of the landfill's ultimate capacity and are based on what it would cost to perform all closure and postclosure care at year-end; however, actual costs may be higher due to inflation.

Scratch Gravel Landfill

The Scratch Gravel Landfill was closed on October 8, 1994. Based on the new engineer's report, as of March 2014, the remaining estimated costs for landfill postclosure changed from \$220,000 to 136,400. The annual estimated landfill postclosure cost is estimated to be \$12,400 for each of the next 11 years. All costs are based on what it would cost to perform all postclosure care at year-end; however, actual costs may be higher due to inflation, as current EPA regulations regarding financial assurance were not in effect during the life of the Scratch Gravel landfill. Postclosure costs were not accumulated. All postclosure costs will be financed with current revenues.

It is anticipated that future inflation costs at the County and the Scratch Gravel Landfills will be in part financed from earnings on investments. The remaining portion of anticipated future inflation costs (including inadequate earnings on investments, if any) and additional costs that might arise from changes in postclosure requirements (due to changes in technology or more rigorous environmental regulations, for example), may need to be covered by charges to future landfill users, taxpayers, or both.

NOTE 14 – EMPLOYEE BENEFIT PLANS

Montana Public Employees Retirement System

With a few exceptions, all of Lewis and Clark County's employees must participate in one of three state-administered cost-sharing multiple-employer defined benefit pension plans. The exceptions are employees that work less than 960 hours and elected officials of the County. These three groups have the option of participating in Montana Public Employees' Retirement System (MPERS). The plans provide retirement, death and disability benefits to plan members and beneficiaries. Sheriff employees are covered by the Montana Sheriffs' Retirement System (MSRS), one employee is covered by the Montana Teachers Retirement System (MTRS) and substantially all other County employees are covered by MPERS.

The plans issue financial reports that include financial statements and the required supplementary information. Those reports are available to the public and may be obtained by writing or calling the respective plans offices as follows:

Sheriffs' Retirement System 100 N Park Ave, Suite 200 PO Box 200131 Helena, Montana 59620-0131 (406) 444-3154 Montana Public Employees' Retirement System 100 N Park Ave, Suite 200 PO Box 200131 Helena, Montana 59620-0131 (406) 444-3154

Montana Teachers' Retirement System 1500 E Sixth Ave PO Box 200139 Helena, Montana 59620-0139 (406) 444-3134 State law determines required contribution rates. The contribution rates, expressed as a percentage of covered payroll for the fiscal year ended June 30, 2014, were as follows:

	MPERS	MSRS	MTRS	
Employer	7.070%	10.115%	7.470%	
Employee	7.900%	9.245%	7.150%	

The County's contributions for the years ended June 30, 2012, 2013 and 2014, as listed below, are equal to the required contribution for each year.

	MPERS	MSRS	MTRS		
2012	\$ 1,036,530	\$ 380,680	\$ 5,457		
2013	\$ 897,539	\$ 401,374	\$ 5,617		
2014	\$ 1,086,175	\$ 403,489	\$ 6,568		

Other Employee Benefits

Lewis and Clark County provides medical insurance coverage for its employees via a self funded plan administered by Allegiance Benefit Plan Management, Inc., of Missoula, Montana. The purpose of this plan is to pay medical, dental and vision claims of Lewis and Clark County employees and their covered dependents, and to minimize the total cost of annual medical insurance to the County. Rates for the coming year are determined in consultation with the administrator based on past claim experience. Medical claims exceeding \$120,000 specific per claimant plus \$50,000 aggregate for the group are covered by a commercial "stop-loss" policy that the plan purchases. The County accrues, as liabilities, those claims that have been reported within ninety days of the date of the financial statements, but were identified by Allegiance Benefit Plan Management, Inc., as being incurred prior to the date of the financial statements. As of June 30, 2014, the County's medical insurance fund had a balance of \$1,234,638. Employees are responsible to pay 60 percent of a claimant's costs up to \$3,500 for individuals and \$7,000 per family. After the \$3,500 out-of-pocket maximum is met, 100 percent of any eligible costs are covered by the health plan.

	Annual Deductible (1)		Benefit Pe	ercentage (1)	Out-of-pocket Maximum (1)		
Medical Benefit	PPO	Non-PPO	PPO	Non-PPO	PPO	Non-PPO	
Per Covered Person	\$250	\$500	60%	50%	\$3,500	\$100,000	
Per Family	\$750	\$1,000	60%	50%	\$7,000	N/A	
Pharmacy Benefit			Preferred	Non-Preferred			
Per Covered Person	\$2	200	20%	40%			
Per Family	\$	400					

⁽¹⁾ per benefit period

This is a generalization of the coverage, specific exceptions are available in the Health Benefits manual.

The County continues to monitor health care costs closely and is prepared to take steps as is deemed necessary if a deficit occurs.

A reconciliation of claims payable follows:

	Fiscal Year	Fiscal Year
	2014	2013
Claims payable, July 1	\$ 346,225	\$ -
Claims incurred	(3,123,458)	(2,966,163)
Claims paid	2,961,704	3,312,388
Claims payable, June 30	\$ 184,471	\$ 346,225

The County pays the premium for a \$25,000 life insurance policy for all employees enrolled in the Health Benefits Plan. The premiums were paid to an insurance carrier during the fiscal year ended June 30, 2014.

The County also operates an Internal Revenue Code Section 125 plan for medical and day care expenses. Employees could contribute pretax dollars up to \$2,500 per year for medical expenses and up to \$5,000 per year for day care expenses.

Other Post Employment Benefits (OPEB)

As required by state law, the County provides employees who retire an option to continue to participate in the County's group health insurance plan. The County also allows terminated employees to continue their health care coverage for 18 months past the date of termination as required by the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA). June 30, 2014, the County had seven enrollees under the Retiree division, plus one spouse, no child dependants and three employees under COBRA insurance coverage, plus two enrollees previously enrolled as dependents, but post dependent eligibility. There were also one spouse and two child dependents covered under County Cobra participants. To continue coverage, employees are required to pay the full cost of the benefits. The County will pay the first six months of insurance for retirees with 20 years or more with the County. As of June 30, 2014, the County was paying insurance for three retirees.

As required by Governmental Accounting Standards Board (GASB) Statement No. 45 Other Post Employment Benefits, the County has calculated and included a post employment benefit liability in 2014.

Plan Description

Lewis and Clark County Employee Group Benefit Plan maintain a single-employer self-insured medical plan that is administered by Allegiance Benefit Plan Management, Inc. The plan currently provides defined medical, dental and vision insurance benefits for eligible employees, retirees, spouses and dependants. Participation is elected by the retiree at the time of retirement. Benefit provisions are set annually by the Board of County Commissioners and may be revoked or altered at any time.

Funding Policy

The County provides no direct subsidy to the health insurance premiums for retirees. Retirees pay for the entire cost of the health insurance premium. Eligible retired employees include former fulltime and certain other employees. As of June 30, 2014 there are seven enrollees participating in retiree division of the employer's sponsored health plan. In fiscal year 2014, retirees contributed \$46,268 towards the cost of the County's annual premium, with premiums per month being \$725 for retiree only and \$1,125 for retiree and spouse, less amounts earned toward wellness credits. Premiums for retirees covering children add \$70 per child per month, with a limit of \$280 per month to the above options.

Annual OPEB Cost Obligation.

The County's other postemployment benefit (OPEB) cost (expense) is calculated based on the projected unit credit cost method. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total benefit to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credit service. Typically, when this method is introduced, there will be an initial liability for benefits credited for service prior to that date, and to the extent that the liability is not covered by assets of the plan, there is an unfunded liability to be funded over a stipulated period in accordance with an amortization schedule.

	2014		2013		 2012
Annual required contribution	\$	95,470	\$	95,695	\$ 100,355
Interest on net OPEB obligation		10,162		8,406	7,604
Adjustment to annual required contribution		(7,970)		(6,593)	 (5,964)
Annual OPEB cost (expense)		97,662		97,508	101,995
Contributions made		(31,437)		(56,186)	(28,275)
Decrease in Obligation (1)					 (54,846)
Increase/(Decrease) in net OPEB obligation		66,225		41,322	18,874
Net OPEB obligation - beginning of year		239,102		197,780	 178,906
Net OPEB obligation - end of year	\$	305,327	\$	239,102	\$ 197,780
Percentage of Annual OPEB Cost Contributed		32.19%		57.62%	27.72%

⁽¹⁾ The decrease is due to the county selling the Cooney Home and not having the obligation of their employees.

Funded Status and Funding Progress

As of June 30, 2014, the actuarial accrued liability (AAL) for benefits was \$1,017,210 all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$23,756,062 and the ratio of unfunded actuarial accrued liability to the covered payroll was 4.28 percent. There are no assets set aside to fund these benefits as the County funds post-retirement health insurance benefits on a pay-as-you-go basis.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the note to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. As required by GASB 45, fiscal year 2009 was the first year an actuarial had been completed for other postemployment benefits. Additional information can be found in the Required Supplementary Information section.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The following assumptions were made:

Mortality- Healthy, for PERS and SRS, mortality is assumed to follow RP 2000 Healthy Combined Mortality Tables projected to 2015 using Scale AA with no collar adjustments for males and females. For TRS, mortality is assumed to follow the RP 2000 Combined Mortality Table set back three years for males, set back two years for females, with mortality improvements projected by Scale AA to 2008.

Mortality - Disabled, for PERS and SRS, disabled mortality is assumed to follow RP 2000 Disabled Mortality Tables with no projections and no collar adjustments for males and females. For TRS, disabled mortality is based on RP 2000 Disabled Mortality Table, set back three years for males, set forward three years for females, with mortality improvements projected by Scale AA to 2008.

Turnover rates were based on specific gender age data assigning active members a probability of remaining employed until the assumed retirement age and for developing an expected future working lifetime assumption for purposes of allocating to periods the present value of total benefits to be paid. The

amortization factors are for a 30-year, level percent of pay amortization on an open basis, using a 4.25 percent investment rate and a 2.5 percent payroll inflation rate.

Healthcare cost trend rate (HCCTR) was based on projections from historical rates of the County.

<u>Insurance Plan</u>						
Plan Year	Medical, Dental, Vision	Prescription Drugs				
2012	10.0%	10.0%				
2013	9.0%	9.0%				
2014	8.5%	8.0%				
2015	8.0%	7.0%				
2016	7.5%	6.0%				
2017	7.0%	5.0%				
2018	6.5%	5.0%				
2019	6.0%	5.0%				
2020	5.5%	5.0%				
2021+	5.0%	5.0%				

The "annual age 65" per capita claims cost for the period July 1, 2013 to June 30, 2014 are as follows:

<u>Coverage</u>	Surviving Spouse	Spous e
Before Medicare Eligibility	\$9,871	\$3,337
After Medicare Eligibility	\$1,974	\$3,337

The following retiree contributions are a weighted average of all retiree contributions for the period July 1, 2013 to June 30, 2014:

Medical, Dental, Vision	Retiree/	
Prescription Drugs	Surviving Spouse	Spouse .
Before Medicare Eligibility	\$8,400	\$4,800
After Medicare Eligibility	\$8,400	\$4,800

The following are the retiree contribution increases for Medical, Dental, Vision, and Prescription Drugs:

Retiree/					
Plan Year	Surviving Spouse	<u>Spouse</u>			
2012	10.0%	10.0%			
2013	9.0%	9.0%			
2014	8.4%	8.4%			
2015	7.8%	7.8%			
2016	7.2%	7.2%			
2017	6.6%	6.6%			
2018	6.2%	6.2%			
2019	5.8%	5.8%			
2020	5.4%	5.4%			
2021	5.0%	5.0%			

Health insurance premiums for 2012 retirees were used as the basis for calculation of the present value of total benefits to be paid.

Deferred Compensation

Lewis and Clark County offers employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is available to all County employees and permits them to defer a portion of their salary until future years. In fiscal year 2007, Lewis and Clark County changed the plan provider to Great-West Retirement Services, hereafter referred to as Great-West. Employees had previously participated in a plan provided by PEBSCO, a division of Nationwide Retirement Solutions. Upon the

change, employees who had invested in PEBSCO had a choice to transfer it to Great-West or leave it with PEBSCO. Contributions must now be deposited with Great West.

The deferred compensation is not available to employees until termination, retirement, death or an unforeseen emergency. The plans operate according to the requirements set forth under Internal Revenue Code Section 457. Under those requirements, all amounts of compensation deferred under the plan, all property rights purchased with those amounts, and all income attributable to those amounts, property, or rights are held in trust for the exclusive benefit of the participants and their beneficiaries, rather than for the County. A fiduciary relationship does not exist between the County and PEBSCO or Great-West, therefore the County has elected to not report the balances and activities of the plans in its financial statements.

NOTE 15 – RISK MANAGEMENT

The County faces a considerable number of risks of loss, including (a) damage to and loss of property and contents; (b) employees' torts; (c) professional liability, i.e., employee injuries; and (d) medical insurance costs of employees. Commercial policies transferring all risks of loss, except for relatively small deductible amounts are purchased for property and content damage, employee torts, and professional liabilities. The County participates in two state-wide public risk pools operated by the Montana Association of Counties, for workers' compensation and for tort liability coverage. Employee medical insurance is provided through a privately administered, partially self-insured plan. Given the lack of coverage available, the County has no coverage for potential losses from environmental damages. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Lewis and Clark County has joined with other Montana counties to form a self-insurance pool offering workers' compensation coverage. This pool, named the Montana Association of Counties Workers' Compensation Trust, provides claim administrative services. Premiums paid to the Trust for fiscal year 2014 amounted to \$466,972. Audited financial statements for fiscal year ended June 30, 2014, are available from the Montana Association of Counties Workers' Compensation Trust.

The County has joined with other Montana counties to form a self-insurance pool offering liability and general insurance coverage. This pool, named the Montana Association of Counties Joint Powers Insurance Authority Trust, provides for property, liability, public officials' errors and omissions, and crime coverage. The county has a \$10,000 deductable per occurrence. Claims over \$10,000 are covered by the pool. The Trust also provides for additional coverage for the above areas through excess insurance lines for varying amounts. Premiums paid to the Trust for fiscal year 2014 amounted to \$468,152.

Audited financial statements for the fiscal year ended June 30, 2014, are available from the Montana Association of Counties Joint Powers Insurance Authority.

Members of the public risk pools may be subject to supplemental assessments in the event of deficiencies. They are also responsible for their own claim liabilities in the event the pool fails.

NOTE 16 - ON-BEHALF PAYMENTS FOR SALARIES AND BENEFITS

GASB Statement No. 24 Accounting and Financial Reporting for Certain Grants and Other Financial Assistance requires the County to report in the financial statements on-behalf salary and fringe benefit payments. The State of Montana makes salary payments directly to the County Attorney. The State of Montana does not contribute to fringe benefits, as the county pays the full cost. The basis for recognizing the revenue and expenditure payments is the actual contribution made by the State. For fiscal year 2014, the State contributed \$63,393 toward the annual salary of \$112,020 to the County Attorney. These amounts are reflected in the general fund of the County.

NOTE 17 – COMMITMENTS AND CONTINGENCIES

Construction Contract Commitments

At June 30, 2014, there were uncompleted construction contracts as follows:

	Construction		Fund		Encumbered	
Project Title	Project Title Committed		Type		Amount

Grant Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

Legal Contingencies

The County is party to many legal proceedings. The legal proceedings are not, in the opinion of the County's legal counsel, likely to have a material adverse impact (more than a \$25,000) on the County's financial position or liquidity, except as listed below.

	Damages	Potential				
Case	Requested	ofLoss	Status			
CDV-08-5 81	\$ 500,000	Remote	Supreme Court remands to Dist Court			
Various	\$ 20,000	Possible	In litigation or asseted claim			
Various	\$ 3,815,000	Very likely	In litigation			
Various	\$ 90,000	Remote	In litigation or asseted claim			

At this time, the County accrued a contingent liability for \$3,815,000 for the above cases that show a potential loss status as very likely. The above amounts are an estimate.

The County has an unasserted claim that has not been filed in court for \$10,000 that has a possibility of a possible unfavorable outcome.

NOTE 18 – SUBSEQUENT EVENTS

Subsequent to year-end, the County entered into the following agreements:

On July 15, 2014, the County entered into a contract of \$782,059 for chip sealing on County and RID roads.

On August 5, 2014 the County entered into a contract of \$171,700 for a CTEP sidewalk project on 11th Avenue.

On August 14, 2014 the County entered into a contract of \$43,239 for a TSEP bridge project on Flat Creek.

NOTE 19 – RECENT ACCOUNTING PRONOUNCEMENTS

The GASB has recently issued several statements. The county will be evaluating them for future impact on these financial statements.

The Government Accounting Standards Board (GASB) has issued Statement No. 68, *Accounting and Financial Reporting for Pensions*, which is effective for the County beginning in fiscal year 2015. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities.

The Government Accounting Standards Board (GASB) has issued Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68, with the provisions to be applied simultaneously with the provisions of Statement 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68.

The County has not assessed the impact of these statement on its financial position and results of operations, but has acknowledged the adoption of these statement will have a material effect on its basic financial statements.

NOTE 20 – DISCONTINUED OPERATIONS

In June 2012, the County sold the Cooney Home to exit the nursing home business. The County accounted for the nursing home business as a discontinued operation. The Cooney Home signed two contracts for a long-term notes receivable of \$2,262,201. The County did not receive a payment in the current fiscal year, therefore leaving a balance on the notes of \$2,045,273. Interest in the amount of \$4,704 accumulated during the fiscal year. On May 30, 2014, the contracts were amended with the new total of \$2,049,977, including the accrued interest. Payments are now being made monthly. The County sold all assets of the nursing home, except for accounts receivable as of June 1, 2012, thus in fiscal year 2014, the County is reporting revenue and expenses that are associated with those receivables, along with the additional recognition of uncollectable amount of \$26,678.

As of June 30, 2014, the County had a net receivable balance of \$18,627. All asset and liability balances shown in the Statement of Net Position - Proprietary Funds on page 28 in the Cooney Home major fund are related to the discontinued operation, and have been valued at their net realizable value.

For the year ending June 30, 2014, a summary of the results of operations of the discontinued nursing home business unit follows:

Revenue	\$ 2,382
Costs and expenses	 (35,301)
Loss from discontinued operations	\$ (32,919)

NOTE 21 – JOINT VENTURES

Lewis and Clark Library

In 1974, the County entered into an interlocal Library contract with the City of Helena to create the Lewis and Clark Library located within the City of Helena. The five-member Board of Trustees consists of two members appointed by each government and one member appointed jointly. Upon dissolution, the County has a 50% share in the net assets of the Library. The most current summary financial information as of, and for, the fiscal year ended June 30 is:

		<u>2014</u>		<u>2013</u>
Cash and investments	\$	4,301,697	\$	3,802,950

LEWIS AND CLARK COUNTY, MONTANA

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies on a cost reimbursement basis.

<u>Building Maintenance Services</u> - Used to account for all maintenance on County buildings. Each department is billed on a per unit basis to recover operating costs.

<u>Health Care Facilities</u> - Used to account for all rental revenue and maintenance expense on the County Health Building.

<u>County Shop Fund</u> - Used to account for the County shop, which maintains all County vehicles and bills each department based upon vehicle part and equipment charges and the number of maintenance hours spent on each vehicle.

<u>Fuel Revolving Funds</u> - Used to account for the purchase and maintenance of gasoline. Each department is billed on a per unit basis to recover operating costs.

<u>Information Technology and Services</u> - Used to account for the purchase, maintenance and operation of all information technology services, such as network, geographical information systems, the AS-400 system and technology training for the County and the City of Helena. The source of funding for this department is based upon a fee for service charged to the various departments.

<u>Liability Insurance</u> - Used to account for liability insurance claims.

<u>Health Insurance</u> - Used to account for the major medical coverage, dental, vision, life insurance and employee assistance claims. Each department is charged on a per employee basis to recover the costs.

Flexible Benefits Administration - Used to account for the cost of flexible benefits for County employees.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the Lewis and Clark County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents Page Financial Trends 191-195 These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time. Revenue Capacity 196-199 These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax. **Debt Capacity** 200-204 These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt, along with the government's ability to issue additional debt in the future. Demographic and Economic Information 205-206 These schedules offer demographic and economic indicators to help the reader understand how the information in the government's financial activities take place. Operating Information 207-209 These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report related to the services the government provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant years. The county implemented GASB 34 in fiscal year 2002, therefore schedules presenting government-wide information include information beginning with fiscal year 2002.

Source and other information:

(1) From Lewis & Clark County Finance Department budget documents - "Tax Revenues".

Note:

being placed on a property. The tax bills are recalculated on an on going basis. This changes the total taxable value for a certain tax year. Since the levy is calculated from the taxable value it is possible to collect more or less revenue for property taxes than the original levy was estimated. Thus it is possible to exceed 100% in collections of the levy. Total collections to date may be more or less than total tax levy, due to the recalculation of tax bills realated to the incorrect taxable value

SINGLE AUDIT SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of County Commissioners Lewis & Clark County, Montana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Lewis & Clark County, Montana, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Lewis & Clark County, Montana's basic financial statements, and have issued our report thereon dated November 25, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lewis & Clark County, Montana's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lewis & Clark County, Montana's internal control. Accordingly, we do not express an opinion on the effectiveness of Lewis & Clark County, Montana's internal control

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lewis & Clark County, Montana's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY **OMB CIRCULAR A-133**

To the Board of County Commissioners Lewis & Clark County, Montana

Report on Compliance for Each Major Federal Program

We have audited Lewis & Clark County, Montana's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of Lewis & Clark County, Montana's major federal programs for the year ended June 30, 2014. Lewis & Clark County, Montana's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Lewis & Clark County, Montana's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Lewis & Clark County, Montana's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Lewis & Clark County, Montana's compliance.

Opinion on Each Major Federal Program

In our opinion, Lewis & Clark County, Montana complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control over Compliance

Management of Lewis & Clark County, Montana is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Lewis & Clark County, Montana's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Lewis & Clark County, Montana's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

LEWIS AND CLARK COUNTY, MONTANA SCHEDULE OF PRIOR AUDIT FINDINGS

Year Ended June 30, 2014

Summary Schedule of Prior Audit Findings

#2013-01:

Information on the federal programs:

United States Department of Health and Human Services #10.557

Criteria:

The grant document for the above referenced grant requires timely reporting throughout the grant period.

Condition:

The grant agreement requires the reports to be filed by the 28th of the month following the prior month end. The reports were verified back to the books and records appropriately; however, they were not submitted timely as required by the grant. As of the audit date all subsequent reports have been filed timely.

Questioned costs:

None

Context:

In a sample of 12 monthly report submissions, 2 were not submitted timely.

Effect:

Noncompliance with grant requirements could result in a loss of funding.

Cause:

Management did not have appropriate controls in place to prevent non-compliance during staff turnover.

Recommendation:

We recommend management remind staff of the importance of complying with grant reporting requirements.

Planned corrective actions:

Management will work with staff to ensure that reports are being submitted on a timely basis.

Status:

This issue has been resolved.

See accompanying - Notes to the Schedule of Expenditures of Federal Awards

A few beginning balances have been changed due to some accounting adjustments. These adjustments do not affect expenditures.

LEWIS AND CLARK COUNTY, MONTANA

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Fiscal Year Ended June 30, 2014

Note 1 - Basis of Presentation

The accompanying schedule is presented on the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles and is a different basis of accounting than the general-purpose financial statements. Accordingly, revenues are recognized when received and expenditures are recognized when disbursed.

Note 2 – Subrecipients

Circular A-133 requires the schedule of expenditures of federal awards to include, to the extent practical, an identification of the total amount provided to subrecipients from each federal program. Of the federal expenditures presented in the schedule, Lewis and Clark County provided federal awards to subrecipients as follows:

	Federal CFDA	Amount Provided to
Program Title	Number	Subrecipients
Best Beginnings Community Councils	93.110	\$ 3,852
Best Beginnings Community Councils	93.600	\$ 2,236
ARRA - Best Beginnings Community Councils	93.708	\$ 28,308
River Rock	14.228	\$ 6,949

Note 3 - Other Information

U S Department of Agriculture

The \$426,684 reported, represents 66 2/3 percent of the total amount of \$639,706 received by the County. The remaining 33 1/3 percent was distributed directly to the countywide school levy funds as required by state statute, and was not recorded by Lewis and Clark County.
