# Lewis and Clark County, Montana

## LEWIS AND CLARK COUNTY

---

Consolidated Office of Treasurer/Clerk and Recorder

---

March 12, 2026

To the Board of County Commissioners and the Citizens of Lewis and Clark County, Montana:

State law requires that all general-purpose local governments publish, within six months of the close of each fiscal year, a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of Lewis and Clark County (County) for the fiscal year ended June 30, 2025.

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed to protect the government's assets from loss, theft, or misuse, to compile sufficient reliable information for the preparation of the County's financial statements and comply with laws and regulations in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The financial statements of the County have been audited by Eide Bailly, LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2025, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded based upon the audit that there was a reasonable basis for rendering unmodified opinions over the County's basic financial statement opinion units, as listed in the accompanying table of contents for the fiscal year ended June 30, 2025. The independent auditor's report is presented at the front of the financial section of this report.

Management is required to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

The independent audit of the financial statements of the County was part of a broader, federally mandated “Single Audit” designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government’s internal controls and compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters, with special emphasis on internal controls and render an opinion on compliance involving the administration of major federal awards.

The County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, as amended in 1996, and the United States Office of Management and Budget (OMB) Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Information related to this single audit, including the schedule of expenditures of federal awards and the auditor’s reports on internal control over financial reporting and compliance and other matters under Government Auditing Standards and in accordance with Uniform Guidance are included in the single audit section of this report.

### **Profile of Lewis and Clark County**

The County, established as a commission form of government in 1915, is located in the southwestern part of the state. The County government is comprised of a three-member commission that is elected at large, each member serving a staggered six-year term. There are ten elected officials that serve four-year terms. The main County offices are located in Helena, the state capital and county seat, which is located in the southern portion of the County. The County currently has a land area of approximately 3,513 square miles and a population of approximately 75,129. The population of the County is predominately urban with the majority of the residents within a twenty-mile radius of Helena. The County is empowered to levy a property tax on both real and personal property located within its boundaries.

The County provides a full range of services. General government functions include judicial and legal services, public records administration, election services, financial services, planning services and public-school administration. Public safety functions include law enforcement (sheriff), fire protection, coroner services, and detention services. The County provides the following public works functions: road and bridge maintenances, weed control, building maintenances, solid waste services, and cemetery services, along with various public health services and animal, insect, and pest control. Other social and economic functions provided are those related to welfare, senior citizens, and extension services. The County also provides recreational opportunities associated with the fairgrounds and local parks.

The annual budget serves as the foundation for the County’s financial planning and control. All agencies of the County are required to submit requests for appropriation to the Clerk and Recorder before June 10th of each year, or on a date designated by the Board of County Commissioners (BOCC). The Budget Officer for the BOCC uses these requests for appropriation as the starting point for developing a proposed budget. The BOCC is required to hold public hearings on the proposed budget and to adopt a final budget through resolution. The appropriated budget is prepared by fund, function (e.g., public safety), and department (e.g., sheriff). The BOCC must approve any transfer of appropriations during the course of the year. The objective of the County’s budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the BOCC. Activities of the general fund, all special revenue funds (except the Forestvale Endowment fund), and the debt service funds, have budgets adopted annually. These budgets, adopted by resolution, delineate the total amount of expenditures budgeted by fund total with the exception of the general fund, which includes department totals. Budgetary comparisons have been presented in at least this much detail.

## Factors Affecting Economic Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates.

The County experienced steady growth in recent years, reflected in modest and consistent increases in property tax revenues of approximately two percent annually. In the most recent periods, construction activity and demand for development-related services, including subdivision applications, have leveled off.

The County has the authority to enter into property tax abatement agreements on an individual basis with certain business and individuals, under state statute. These agreements are based on the benefits that a business or individual may bring to the County, such as job creation in new or expanding industries or restoration and/or expansion of historic properties. A business or individual must apply for a tax abatement through a public process heard by the BOCC. Tax abatements are generally granted for upcoming tax years and are included in the approved budget for the fiscal year following the approval. Agreements are monitored by the County's finance and property tax departments to ensure compliance.

The County has seen a lower unemployment rate than the state and national rate for several years. Helena has a stable economy due to an estimated one-third of jobs being held by federal, state, county, or city government workers. The current unadjusted unemployment figure for the County is 2.9 percent. This is higher than one year ago. The increase can be attributed to the County experiencing an influx of job seekers in the workforce, coinciding with a slower tourist season in 2025, which has posed challenges for local businesses. While interest rates and inflation have been steadily declining, the persistence of elevated rates continues to affect our community on a broader scale. The current unadjusted unemployment figure for Montana is 3.0 percent and the nation is 4.4 percent.

The County conducts various planning processes (long-term, mid-term, and short-term), to help guide the government and to ensure that decisions are made in the context of the organization as a whole and with a long-term perspective. Diligent efforts are made to ensure each of these component planning processes are in concert with one another. This so called "Linkage" is paramount to ensure short-term decisions are consistent with the overriding values embodied in the mid-term and long-term planning processes adopted by the BOCC.

Each element of the County's planning process has a different purpose and timeframe. The County's Mission, Core Values Statement, and Growth Policy are the most far-reaching in nature—20 to 25 years. The Capital Improvement Program and the Five-Year Financial Forecast are mid-term in nature—5 years. The Annual Budget and the Capital Budget are short-term—covering a 1-year timeframe. The most important requisite is that they are coordinated efforts.

Mid-term financial planning for the County included the creation of a Capital Improvement Plan (CIP). Each department is asked to develop and prioritize future needs and identify funding for those needs. Additionally, each department is required to develop a replacement schedule for existing assets that identifies the replacement cost, the number of years until replacement, and the annual reserves needed to replace the equipment at the end of its useful life. The CIP is presented to the BOCC as a separate document for review and approval and will be incorporated into future budgets. The development of the CIP provides an essential tool for managing capital improvements and replacements in the future. For fiscal year 2025, \$4.4 million was set aside for future replacement of capital assets.

Financial policies are guidelines for operational and strategic decision making related to financial matters, as they identify acceptable and unacceptable courses of action, establish parameters in which the government can operate, and provide a standard against which the government's fiscal performance can be judged.

The County's annual budget is developed in accordance with the policies and priorities set forth in the five-year strategic financial plan, BOCC goals, the needs of the County, and state and federal laws. Program/project priorities and service levels will be established by the aforementioned plans.

The County will seek to maintain a diversified and stable revenue base to protect it from short-term fluctuations in any one revenue source. The County will pursue an aggressive policy of collecting revenues. An aggressive policy of collecting revenues will help to ensure revenue estimates are met, all taxpayers are treated fairly and consistently, and delinquencies are kept to a minimum. The County will aggressively pursue opportunities for Federal or State grant funding. An aggressive policy of pursuing opportunities for Federal or State grant funding provides citizens assurance that the County is striving to obtain all state and federal funds to which it is entitled — thereby reducing dependence upon local taxpayers for the support of local public services.

The County will make all current expenditures with current revenues, avoiding procedures that balance current budgets by postponing needed expenditures, accruing future revenues, or rolling over short-term debt. The County will set fees and rates at levels which fully recover the total direct and indirect costs—including operations, capital outlay, and debt service. The County recognizes that accounting principles generally accepted for state and local governments discourage the "earmarking" of General Fund revenues, and accordingly, the practice of designating General Fund revenues for specific programs should be minimized in the County's management of its fiscal affairs.

The County will estimate revenues in a realistic and conservative manner. Aggressive revenue estimates significantly increase the chances of budgetary shortfalls occurring during the year— resulting in either deficit spending or required spending reductions. Realistic and conservative revenue estimates, on the other hand, will serve to minimize the adverse impact of revenue shortfalls and will also reduce the need for mid-year spending reductions.

The County will give highest priority in the use of one-time revenues to the funding of capital assets or other non-recurring expenditures. Utilizing one-time revenues to fund on-going expenditures may result in incurring annual expenditure obligations which may be unfunded in future years. Using one-time revenues to fund capital assets or other non-recurring expenditures better enables future administrations and commissions to cope with the financial problems when these revenue sources are discontinued, since these types of expenditures can more easily be eliminated.

The County operates an investment pool for idle cash belonging to the County, school districts, fire districts, and other small local agencies. The investments of the County are managed through an investment committee. The County has formally adopted an investment policy established by the committee, which outlines the investment goals and strategies. It has been the intent of the County to add additional stability for the overall portfolio by creating a laddering process using treasury notes, agency notes, and certificates of deposit.

The Montana legislature has enacted significant reforms to enhance local government funding in response to rising service demand due to development outpacing existing revenues. Notably, the 2001 House Bill 124 introduced an entitlement share from the state, replacing the previous reliance on motor vehicle and gaming revenues, thus providing a more stable funding source that grows annually with population and consumer price index increases. Additionally, Senate Bill 176 enables the state to cover District Court costs (excluding Clerk of Court and Public Defender expenses) and allows local governments to increase mills to manage rising health insurance premiums for employees. While recent major reforms impacting county finances have been limited, the legislature meets biannually and usually considers potential funding reforms.

The County's top priority continues to be addressing the economic pressures arising from inflation and the ongoing challenge of recruiting essential positions. The County is navigating a unique landscape, as American Rescue Plan Act funding provides substantial revenue for one-time expenditures. Meanwhile, operating budgets grapple with the effects of persistent inflation. Entering the fiscal year with robust reserves has enabled the County to maintain all services. Finance staff actively monitor reserves, employ long-term planning strategies, explore grant opportunities, and keep certain positions vacant to realize savings. Although the County anticipates the next few years to be fiscally challenging, it remains well-equipped to uphold its current level of service.

### **Awards and Acknowledgements**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Lewis and Clark County for its annual comprehensive financial report for the fiscal year ended June 30, 2024. This was the twenty eighth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance and administration departments. We would like to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report. Credit must also be given to the BOCC for their unfailing support for maintaining the highest standards of professionalism in the management of Lewis and Clark County's finances.

Respectfully submitted,

Amy Reeves  
Treasurer/Clerk and Recorder

## Independent Auditor's Report

To the Board of County Commissioners  
Lewis and Clark County, Montana  
Helena, Montana

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lewis and Clark County ("the County"), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lewis and Clark County, as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Adoption of New Accounting Standard*

As discussed in Note 1 to the financial statements, the County has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*, for the year ended June 30, 2025. There was not a significant effect on the County's financial statements as a result of the implementation of this standard. As a result of implementing this standard, there was no effect on the governmental activities, the business-type activities, each major fund, and the aggregate remaining funds beginning balance or net position as of July 1, 2024. Our opinions are not modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in total OPEB liability and related ratios, schedules of employer's share of net pension liability, and schedules of employer's contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements, and schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual fund financial statements, the accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and other schedules listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated March 12, 2026, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The image shows a handwritten signature in cursive script that reads "Eide Bailly LLP".

Billings, Montana  
March 12, 2026

As management of the County, we offer readers of the County's basic financial statements this comparative narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2025 and 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal. The focus of the information herein is on the primary government.

## **FINANCIAL HIGHLIGHTS**

The County's primary government assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources as of June 30, 2025, by \$109.5 million (reported as net position) compared with \$93.4 million as of June 30, 2024. Of this amount, \$38.3 million (reported as unrestricted net position) may be used to meet the government's general obligations to citizens and creditors.

The total net position increased by approximately \$16.2 million. The increase is a result of a sharp increase in interest rates resulting in a large increase in investment income, along with the continual savings of resources by departments for future capital purchases and improvements being more than amounts being spent.

As of June 30, 2025, the County's governmental funds reported combined ending fund balances of \$60.7 million, compared with \$56.7 million on June 30, 2024. Of this amount, \$52.6 million is available for spending at the government's discretion (committed, assigned, and unassigned fund balances).

The County made principal payments for the general obligation bonds, contracts and loans payable, special assessments debt, leases payable, and subscription-based IT arrangements of \$1.8 million during the fiscal year.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. One of the most important questions asked about the County's finances is, "Is the County as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the County as a whole and about its activities in a way that helps answer this question. These statements include all assets, deferred outflow of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All the current year's revenues and expenses are considered regardless of when cash is received or paid.

These two statements report the County's net positions and changes in them. The County's net position - the difference between assets plus deferred outflow of resources and liabilities plus deferred inflows of resources - is one way to measure the financial position of the County. Over time, increases or decreases in the County's net position are indicators of whether the financial health is improving or deteriorating. Non-financial factors such as changes in the County's property tax base, or the conditions of the County roads also need to be considered in assessing the financial position of the County.

The Statement of Net Position and the Statement of Activities distinguishes between the following activities:

- **Governmental Activities** - most of the County's basic services are reported here, including public safety, public works, public health, and general administration. Property taxes, local option taxes, vehicle taxes, and state and federal grants finance most of these activities.
- **Business-type Activities** - the County charges a fee to customers to recover the cost of certain services provided. The County's landfill and transfer stations and the operations of the fairgrounds are reported here.

### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The fund financial statements provide detailed information about the most significant funds, not the County as a whole. Some funds are required to be established by State law and/or by bond covenants. Also, the Board of County Commissioners (BOCC) establishes funds to help control and manage money for particular purposes or to meet legal responsibilities for using certain taxes, grants, and other money. For example, the County maintains separate funds for on-going federal grants in order to track specific expenditures to the grant.

The County maintains three types of funds – governmental, proprietary, and fiduciary – which use different accounting approaches.

*Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. These funds focus on how money flows in and out of the funds, and the balances left at year-end that are available for spending. These funds use the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services it provides. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the general fund, public safety fund, other grants, special assessment districts fund, rural special improvement district debt fund, capital development fund, RID projects fund, and road/bridge infrastructure projects fund, which are considered to be major funds. Data from the other 50 non-major governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the combining statements elsewhere in this report.

The County maintains two different types of *proprietary funds*: enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its landfill and transfer station sites, and fairgrounds operations. Internal Service funds are used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its building and vehicle maintenance services, information technology services and property, and liability and health insurance services. Because these services predominantly benefit governmental services rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position, but provide more detail and additional information, such as cash flows.

The County uses *fiduciary funds* to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### **Supplemental Information**

The basic financial statements are preceded by management's discussion and analysis and followed by pension and other post-employment benefits information. All required supplementary information other than GASB 68 and 75, Other Postemployment Benefit (OPEB), and Pensions schedules, respectively, precedes the basic financial statements or is included in the basic financial statements and accompanying notes. Therefore, the only information presented in the section for required supplementary information is information demonstrating funding of OPEB and Pension liabilities.

The combining statements referred to earlier in connection with nonmajor governmental funds, nonmajor enterprise funds, internal service funds, and custodial funds are presented immediately following the required supplementary information section.

**THE COUNTY AS A WHOLE**

**Net Position**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, the net position was \$109.5 million at the close of the most recent fiscal year.

The largest portion of the County's net position, approximately 57.8 percent, reflects its net investment in capital assets (e.g., land, building, machinery, equipment, and infrastructure, less any related debt used to acquire those assets that is still outstanding). The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the County's net position, 7.2 percent, represents resources that are subject to external restrictions on how they may be used. The remaining 35.0 percent of net position is unrestricted net position that may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the County is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

The following table presents condensed financial information on the County's net position for the fiscal years ending June 30, 2025 and 2024.

**Governmental Activities**

Governmental activities increased the County's net position by \$16.0 million, thereby accounting for 98.8 percent of the total growth in the net position of the County. Total revenues increased by \$7.8 million, or 10.9 percent, while total expenses decreased by \$5.1 million or 7.4 percent. Elements that contributed to the increase in net position are as follows:

- The Capital Development fund shows a positive change in fund balance of \$2.1 million, as the fund continues to save for future capital outlay.
- Expenses were up from previous years, primarily resulting from the BOCC's approval of cost-of-living increases. The County operates a self-funded health plan administered by a major health insurance company and has experienced increases in both health insurance premiums and self-funded plan costs.

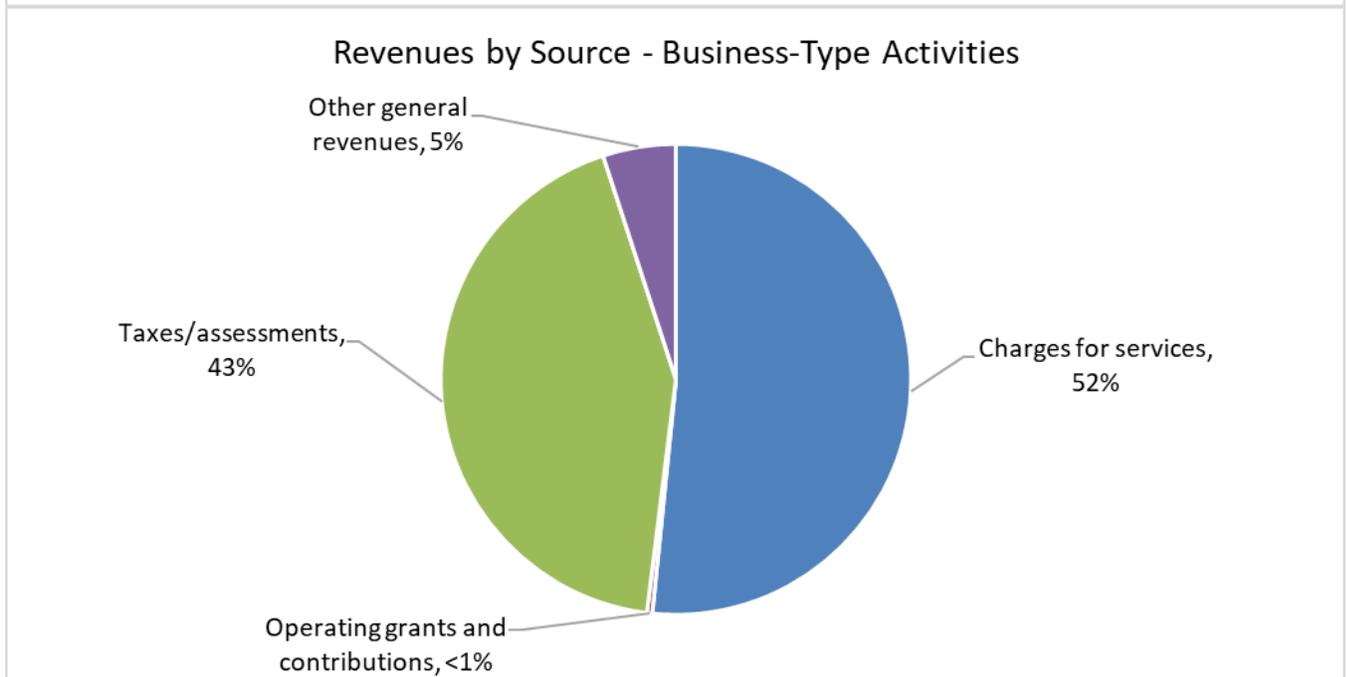

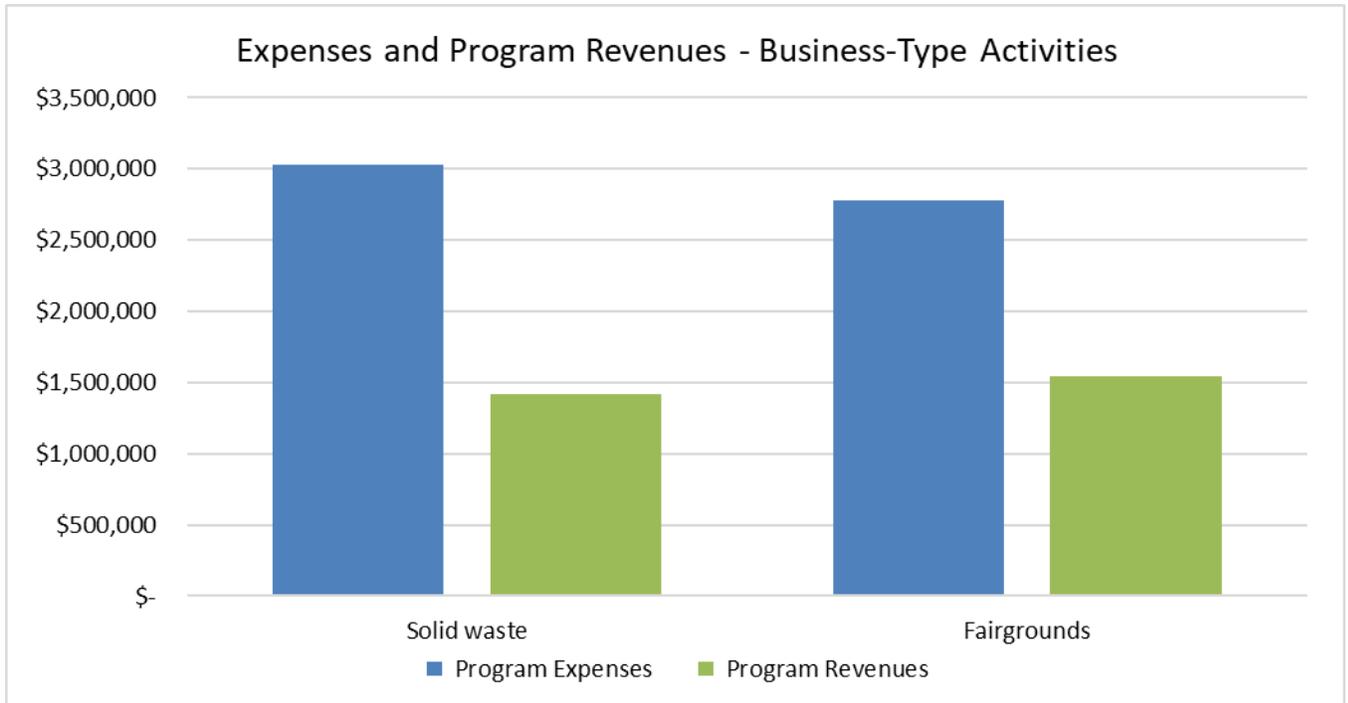

### Business-Type Activities

Business-type activities increased the County's net position by approximately \$188,000. Key elements of this increase are as follows:

- At the fairgrounds, operations resulted in a decrease in net position of approximately \$314,000, primarily a result of inflationary increases in purchased services.
- Operations relating to solid waste disposal showed an increase in net position of \$501,000.

## Governmental Funds

The focus of the County's governmental funds is to provide information on current year revenues, expenditures, and balances of spendable resources. Such information is useful in assessing the County's near-term financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$60.7 million, an increase of \$4.0 million in comparison with the prior year increase of \$2.0 million. Of the total fund balance amount, \$1.5 million (2.4%) is classified as non-spendable. The spendable fund balance is further classified as restricted, \$6.7 million (11.0%); committed, \$44.3 million (73.0%); assigned, \$0.2 million (0.3%); and unassigned, \$8.1 million (13.4%). The preceding fund balance ratios are calculated based on their relation to total fund balances. Further details of fund balances can be found in Note 15.

The general fund is the main operating fund of the County. At the end of the current fiscal year, total fund balance was \$9.5 million, of which \$0.2 million is nonspendable and the remaining \$9.3 million is unassigned.

The fund balance of the County's general fund decreased by \$0.8 million during the current fiscal year. Revenues were up marginally. Expenditures increased from the prior fiscal year in the general fund, due to inflationary raises and costs.

The Public Safety Fund had a total fund balance of \$5.6 million, an increase of \$0.8 million from the prior year. Public Safety continues to transfer funds to support its future capital needs. Tax revenue increased by \$638,558 due primarily to taxable property added to the tax rolls and assessment changes in fiscal year 2025. Expenditures increased due to inflationary raises and costs.

The Other Grants Fund had a deficit fund balance of approximately \$562,000, a decrease in fund balance of approximately \$41,000. This decrease was due to an increase in capital costs and the transfers of monies to other funds for expending on uses associated with ARPA.

The Special Assessment Districts Fund had a total fund balance of \$6.8 million, which is a decrease of \$0.5 million from the prior fiscal year. Most current revenues and expenditures increased as more districts are added in the County.

The Rural Special Improvement District Debt Fund had a total fund balance of approximately \$231,000, which is an increase of approximately \$97,000. Current revenues and expenditures increased slightly over the prior fiscal year. The fund balance is restricted and can only be used for payments of principal and interest on the loans.

The Capital Development Fund had a total fund balance of \$20.5 million which is an increase of \$2.1 million from the prior year. The increase in fund balance was due to planned savings by departments during the fiscal year for future capital expenditures.

The RID Projects Fund had a deficit fund balance of approximately \$647,000, which is a decrease of approximately \$422,000 from the prior year. The decrease is due to ongoing work on various RID projects.

### **Proprietary Funds**

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the County landfill was \$2.9 million and \$0.8 million for the Fairgrounds.

### **General Fund Budgetary Highlights**

Actual revenues for the General Fund were more than the original and final budget, by \$488,226. Payments in lieu of taxes of \$2,898,402 were \$623,402 more than budget, and \$99,834 more than what had been received in the previous year. Interest earnings far exceeded the budgeted amount, with earnings of \$1,428,243.

Actual expenditures from the General Fund were \$2,724,173 less than budgeted. Most departments contributed by spending less than they were budgeted, including general governmental and public works departments that had unspent budgets of \$1,518,650 and \$271,078, respectively.

### **CAPITAL ASSET AND DEBT ADMINISTRATION**

#### **Capital Assets**

At the end of fiscal year 2025, the County had \$73.5 million invested in a broad range of capital assets, including land, buildings, improvements other than buildings, infrastructure, machinery, equipment, leases, and subscription-based IT assets (SBITAs). This amount represents a net increase of roughly \$8.0 million or 12.3% from the prior year.

Major capital asset events during the fiscal year included the following:

#### Governmental Activities

- Work was completed on the Dalton Mountain Bridge with an asset addition totaling \$5.3 million including a donation of \$4.8 million from the State of Montana.
- Four new snow plows were placed into service for the County's Public Works totaling \$935,000.
- Two large pieces of equipment were purchased for the County's Public Works – a Caterpillar backhoe for \$168,000 and a Caterpillar wheel loader for \$234,000.
- Depreciation/amortization expense of \$3,343,076 was recognized in the governmental activities.

#### Business-type Activities

- Work was continued on paving the Fairgrounds parking lot with additional CIP of \$664,000 incurred during the year, with the work projected to be completed in January 2026
- Depreciation expense of \$571,601 was recognized in the business-type activities.

The following table presents a summary of capital assets, net of accumulated depreciation/amortization as of June 30, 2025 and 2024.

	Governmental Activities		Business-Type Activities		Total	
	2025	2024	2025	2024	2025	2024
Capital assets (net of accumulated depreciation/amortization where applicable)

Right-of-use lease assets	90,968	196,981	-	-	90,968	196,981
Subscription-based IT assets	567,634	966,545	-	-	567,634	966,545
<b>Total capital assets</b>	<b>\$ 61,689,039</b>	<b>\$ 53,089,620</b>	<b>\$ 11,763,796</b>	<b>\$ 12,328,141</b>	<b>\$ 73,452,835</b>	<b>\$ 65,417,761</b>

Additional information on the County's capital assets can be found in Note 6 to the financial statements.

### Long Term Liabilities

At fiscal year-end, the County had \$43.5 million of long-term debt outstanding. Of this amount, \$8,635,000 is general obligation bonds, and \$301,258 is special assessment debt for which the government is liable in the event of default by the property owners subject to the assessment. The remaining \$34,585,938 includes contract/loan debt (backed by the full faith and credit of the government), landfill closure/postclosure liability, net pension liability, and other obligations.

The County's total debt decreased by \$3.4 million, due to an increase in the total OPEB liability offset by decreases in compensated absences, general obligation bonds payable, special assessments debt, leases payable, net pension liability, and subscription-based IT arrangements. The County made principal payments totaling approximately \$1.8 million for general obligation bonds, contracts and loans payable, special assessment debt, leases, and SBITAs during the current fiscal year. The County issued approximately \$0.2 million of new debt in the form of contracts and loans, special assessment debt, leases payable, and SBITAs during the current fiscal year. The County has not had a recent change in its credit rating.

The following table presents a summary of long term debts as of June 30, 2025 and 2024.

	Governmental Activities		Business-Type Activities		Total	
	2025	2024	2025	2024	2025	2024
General obligation bonds	\$ 8,635,000	\$ 9,835,000	\$ -	\$ -	\$ 8,635,000	\$ 9,835,000
Contracts and loans payable	944,572	1,084,816	-	-	944,572	1,084,816
Special assessments debt	301,258	324,476	-	-	301,258	324,476

Total OPEB liability	1,131,141	847,142	-	-	1,131,141	847,142
Net pension liability	27,082,266	29,995,090	-	-	27,082,266	29,995,090
<b>Total long-term liabilities</b>	<b>\$ 42,260,043</b>	<b>\$ 45,731,777</b>	<b>\$ 1,262,153</b>	<b>\$ 1,223,317</b>	<b>\$ 43,522,196</b>	<b>\$ 46,955,094</b>

Additional detailed information on the County's long-term liabilities can be found in notes 7 through 12 to the financial statements.

### **Economic Factors and Next Year's Budgets and Rates**

The County places a strong emphasis on maintaining a healthy fiscal position. The BOCC focuses on maintaining adequate cash balances while continuing to provide the current level of services. The County is anticipating budgeted cash balances to decrease by \$26.3 million for all County funds. This represents a reserve of 36.9 percent of budgeted expenditures. This is a healthy reserve and will allow the BOCC the flexibility and time to respond in the event of decreasing revenues in an orderly fashion. County departments are also required to budget an annual transfer to a capital improvement fund for capital purchases. At June 30, 2025, the Capital Development Fund had a cash and investment balance of \$21.1 million. This fund allows the County to upgrade equipment and vehicles as needed without incurring debt or incurring budget spikes when a large capital project or purchase is needed.

Lewis & Clark County continues to manage financial pressures common to Montana local governments, including elevated inflation in operating and maintenance costs, rising construction and contracted service prices, and challenges recruiting and retaining qualified professional staff. While American Rescue Plan Act (ARPA) funding temporarily supplemented County resources for one-time investments, these revenues do not address the structural impacts of inflation on ongoing operations; all ARPA funds have been fully obligated and are scheduled to be expended by December 31, 2026. The County entered fiscal year 2025 with strong fund balance and reserves exceeding adopted policy minimums, providing capacity to manage short-term volatility and uncertainty related to state property tax legislation. Financial management continues to emphasize conservative budgeting, close monitoring of fund balance trends, and targeted cost-containment measures, including selective position vacancies where feasible, positioning the County to maintain current service levels despite ongoing fiscal challenges.

### **Contacting the County's Financial Management**

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have questions concerning this report or need additional financial information, contact the Finance Department at the County.

Reconciliation of the Governmental Funds  
Balance Sheet to the Statement of Net Position  
June 30, 2025

---

Total Fund Balances - Governmental Funds	\$ 60,706,412
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	60,617,771
Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in the governmental activities in the statement of net position.	7,350,112
Other assets are not available to pay for current-period expenditures and, therefore, are either not recognized as a receivable or are unearned in the funds.	2,030,530
Deferred outflows and inflows of resources related to pensions and other postemployment benefits are applicable to future periods and, therefore, are not reported in the funds.	3,459,269
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.	<u>(41,832,689)</u>
Net Position of Governmental Activities	<u>\$ 92,331,405</u>

 Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of  
 Governmental Funds to the Statement of Activities  
 Year Ended June 30, 2025

---

Net Change in Fund Balances - Total Governmental Funds	\$ 4,017,314
<p>Amounts reported for governmental activities in the statement of activities are different because:</p>	
<p>Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities the cost of capital assets is allocated over their estimated useful lives as depreciation/amortization expense. When capital assets are disposed, the net effect is to reduce net position.</p>	8,661,614
<p>Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.</p>	730,804
<p>Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue (expense) of the internal service funds is reported in the governmental activities.</p>	844,416
<p>In the statement of activities compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used.</p>	(734,873)
<p>In the statement of activities OPEB is measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used.</p>	(215,976)
<p>In the statement of activities the cost of pension benefits earned net of employee contributions is reported as pension expense. In the governmental funds, however, the contributions are reported as expense.</p>	1,031,730
<p>In the statement of activities interest expense is recognized as it accrues. In the governmental funds, however, the expenditure is measured by the amount of financial resources used.</p>	5,922
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>	<u>1,652,565</u>
Change in Net Position of Governmental Activities	<u><u>\$ 15,993,516</u></u>

**Note 1 - Summary of Significant Accounting Policies**

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of the County's significant accounting policies:

**Reporting Entity**

The County's financial statements include all funds for which the County is financially accountable. Additionally, the County is not included in any other governmental reporting entity.

Lewis and Clark County is a political subdivision of the State of Montana. The county seat is Helena, which also serves as the state capital. The population of the County is predominantly urban with the majority of the residents within a twenty-mile radius of Helena.

The County government includes a three (3) member commission, members elected at large and serving three staggered six (6) year terms. Ten (10) additional elected officials serve four (4) year terms.

Component units are legally separate organizations for which elected officials of the primary government are financially accountable. The County is financially accountable if it appoints a voting majority of the organization's governing body and is either:

1. Able to impose its will on that organization or
2. There is potential for the organization to provide specific financial benefits to or impose financial burdens on the County. The County may be financially accountable if an organization is fiscally dependent on the County.

There are no component units reported within these financial statements.

For financial reporting purposes, the County has included all funds which comprise the County government.

**Basis of Accounting/Measurement Focus**

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. Certain amounts presented in the prior year data in these notes have been reclassified to be consistent with the current year's presentation.

### **Government-Wide Financial Statements**

The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Interfund services provided and used are not eliminated in the process of consolidation. These statements distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Certain indirect costs are included in the program expense reported for the individual functions and activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

### **Fund Financial Statements**

The fund financial statements provide information about the County's funds, including its fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented.

The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation/amortization on capital assets. All other expenses not meeting this definition are reported as non-operating.

Fiduciary funds account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs.

The County reports the following major governmental funds:

*General Fund* – This is the County's main operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

*Public Safety Special Revenue Fund* – This fund accounts for the receipt of revenues from mill levies, grants, and fees, along with the expenditures related to public safety, including law enforcement, detention, drug task force, and patrol.

*Other Grants Special Revenue Fund* – This fund accounts for the receipt of revenues from several grants including funding received under the American Rescue Plan Act (ARPA) along with expenditures related to both.

*Special Assessments Districts Special Revenue Fund* – This fund is used to account for the receipt of property tax assessments and related expenditures dedicated for the maintenance of specific roads, parks, lighting districts, and fire service areas.

*Rural Special Improvement Districts Debt Fund* – This fund is used to accumulate revenues from assessments collected on the property tax bills. It is used for periodic payments of principal and interest of special improvement districts debt.

*Capital Development Capital Projects Fund* – This fund accounts for the County's transfers from other funds and resources relating to expenditures dedicated to the acquisition and replacement of major capital assets.

*RID Projects* – Used to account for the transfer of funding for the expenditures related to improvements or construction of the roads and parks.

The County reports the following major proprietary funds:

*Fairgrounds Enterprise Fund* – This fund is used to account for the receipt of user charges and other resources and related expenses for the operation of the County fairgrounds.

*County Landfill Enterprise Fund* – This fund is used to account for the receipt of user charges and other resources and related expenses for the operation, maintenance, and construction of new cells, and related closure and post-closure costs associated with the landfill.

Additionally, the County reports the following fund types:

*Internal Service Funds* – These funds account for the financing of goods and services provided by one department or agency to other departments or agencies on a cost reimbursement basis, such as maintenance on County buildings and vehicles; gasoline; information technology and services; liability insurance claims; major medical, dental, life, vision insurance claims; and flexible benefits claims. These funds are aggregated and presented as a single column in the proprietary fund financial statements.

*Fiduciary Funds* – These funds account for monies held on behalf of school districts, special districts, and other governments and agencies that use the County as a depository; property taxes collected on behalf of other governments; and surety bonds and performance deposits. The County reports the following fiduciary funds:

- Individual Investment Fund – This fund accounts for the local government investment pool operated by the Montana Board of Investments. These funds are invested entirely in the Montana Short Term Investment Program (STIP). These funds belong to legally separate entities such as school districts and other special purpose districts.
- Custodial Funds – These funds include assets held by the County as a custodian for purposes such as inmate commissary funds, estate administration, and taxes collected on behalf of other governments.

**Measurement Focus and Basis of Accounting**

The government-wide, proprietary fund, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after fiscal year-end. Property taxes, excluding motor vehicle taxes, licenses, and interest on investments are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources.

Under the terms of grant agreements, the County finances certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted funds available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then general revenues.

**Cash, Cash Equivalents, and Investments**

The County's investment pool is governed by Title 7, Chapter 6, and Part 2 of the MCA and County's Investment Pool Policy. An investment committee, formed by the BOCC, is responsible for overall policy guidance and reviewing and monitoring investments. Responsibility for conducting investment transactions reside with the County Treasurer. The pool is not registered with the Securities and Exchange Commission (SEC).

Deposits and investments may include demand, time, and savings deposits, direct obligations of the United States Government, securities issued by agencies of the United States, investments in the STIP, repurchase agreements, and registered warrants.

Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash and have maturities at purchase date of three months or less. The County's cash and cash equivalents (including restricted assets) are considered to be cash on hand, demand, savings and time deposits, STIP, and all short-term investments with original maturity dates of three months or less from the date of acquisition. Investments with STIP are deemed to be a cash equivalent since they are sufficiently liquid as to permit withdrawal of cash at any time without prior notice or penalty. STIP portfolio is reported using Net Asset Value (NAV).

Investments are reported at fair value, with the following limited exceptions: 1) investments in nonparticipating certificates of deposit are reported at cost and 2) money market investments, including U.S. Treasury and Agency obligations, which mature within one year of acquisition, are reported at amortized cost. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is determined annually at fiscal year-end and requires the use of valuation techniques, a specific method or combination of methods using one or more of three approaches: market, cost, or income approach.

The County maintains an investment pool consisting of funds belonging to the County and also of funds held by the County Treasurer belonging to legally separate entities such as school districts and special purpose districts. These districts can elect to participate in the County's investment pool or can self-direct investment of their funds in individual investment accounts but will not participate in pool gains or losses. Any self-directed individual investment accounts are included in the balances of the External Investment Pool Fund in the fiduciary fund financial statements.

The Treasurer's investment pool, hereafter called investment pool, is comprised of two components: 1) internal pooled deposits and investments and 2) external pooled deposits and investments. On June 30, 2025, the percentage share of the investment pool that relates to the external investments is 47 percent.

The County has not provided or obtained any legally binding guarantees to support the value of the investments. Investments and withdrawals from the pool are based on the underlying value of deposits and investments of each participant. Investment income earned on pooled investments is allocated to the County and participating external entities using a formula based on the average daily balance of cash and investments in each fund in relation to total pooled investments, with distribution monthly. All parties involved share in gains or loss equitably, based on their average daily balances. Although the fair value of investments is reviewed monthly, changes in the fair value of investments are recognized as gains or lost revenue at the fiscal year-end, if the changes are material.

The County issues warrants in payment of its obligations. When the warrants are presented to the treasury, the County's demand account is automatically charged to pay the warrants.

### **Restricted Cash and Investments**

Certain proceeds of enterprise fund and internal service fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted on the statement of net position because their use is limited by applicable bond covenants. The "bond reserve" account is used to report resources set aside to make up potential future deficiencies in the revenue bond debt service account. The "bond debt service" account is used to segregate resources accumulated for debt service payments over the next twelve months. The "perpetual care – nonexpendable" account is used to legally restrict the principal of a program to the extent that only earnings may be used for purposes that support the County's program.

### **Investments Fair Value**

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets (these investments are valued using prices quoted in active markets); Level 2 inputs are significant other observable inputs (these investments are valued using matrix pricing); Level 3 inputs are significant unobservable inputs (these investments are valued using consensus pricing).

### **Property Taxes and Special Assessments**

All property tax receivables are shown net of an allowance for uncollectible taxes receivable. The property tax receivable allowance is equal to 2 percent of the outstanding property taxes at fiscal year- end. At June 30, 2025, the allowance amounted to \$40,694 for the primary government and \$88,134 for custodial funds.

Property tax levies are set on or before the second Monday in August, in connection with the budget process. Real property (and certain attached personal property) taxes are billed within ten days after the third Monday in October and are due in equal installments on November 30 and the following May 31. After those dates, they become delinquent (and a lien is placed upon the property). After three years, the County may exercise the lien and take title to the property. Special assessments are either billed in one installment due November 30 or two installments due November 30 and the following May 31. Personal property taxes (other than those billed with real estate) are generally billed no later than the second Monday in July (normally in May and June), based on the prior November's levies. Personal property taxes, other than mobile homes, are due thirty days after billing. Mobile home taxes are billed in two halves, the first due May 31 and the second due the following November 30. The tax billings are considered past due after the respective due date and are subject to a penalty (2 percent of the tax charge) and monthly interest (10 percent annually of the tax charge).

### **Interfund Receivables and Payables**

Activity between individual funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are classified as "due from other funds" or "due to other funds" on the balance sheet.

Noncurrent portions of long-term interfund loan receivables in governmental type funds are reported as advances and are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available financial resources, therefore, are not available for appropriation.

### **Lease Receivables**

Lease receivables are recorded by the County as the present value of future lease payments expected to be received from the lessee during the lease term, reduced by any provision for estimated uncollectible amounts. Lease receivables are subsequently reduced over the life of the lease as cash is received in the applicable reporting period. The present value of future lease payments to be received are discounted based on the interest rate the County charges the lessee.

**Inventories**

Inventories are valued at cost using the first-in/first-out expenditures method. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as deferred outflows of resources in both government-wide and fund financial statements.

**Capital Assets**

The County’s works of art, exhibits, and books are not being capitalized. The County has a policy that states these items are protected and preserved.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets’ lives are not capitalized.

Purchased or constructed capital assets are recorded at cost or estimated historical cost. Donated capital assets are recorded at acquisition value (entry price) at the date of donation.

When capital assets are disposed of, the cost and accumulated depreciation or amortization are removed from the accounts and any resulting gain or loss is recognized in the government-wide and proprietary fund financial statements.

The County’s capitalization thresholds and useful lives are as follows:

Capital Asset Class	Threshold*	Useful Lives
Land	All	N/A
Construction in Progress		
Buildings	\$ 250,000	N/A
Improvements	\$ 250,000	N/A
Infrastructure	\$ 500,000	N/A
Buildings		
Buildings	\$ 250,000	15-40 years
Building Improvements	\$ 250,000	7-25 years
Improvements other than Buildings	\$ 250,000	15-55 years
Machinery and equipment		
Machinery and equipment	\$ 100,000	5-15 years
Vehicles	\$ 100,000	5-15 years
Computer Equipment	\$ 100,000	3-7 years
Infrastructure	\$ 250,000	15-50 years

\* The federal capitalization threshold for equipment increased from \$5,000 to \$10,000 due to revisions in 2 CFR 200 (Uniform Guidance), with the updated rule becoming effective for new federal awards on or after October 1, 2024.

Right-of-use lease assets are recognized at the lease commencement date and represent the County's right to use an underlying asset for the lease term. Right-of-use lease assets are measured at the initial value of the lease liability plus any payments made to the lessor before commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term, plus any initial direct costs necessary to place the lease asset into service. Right-of-use lease assets are amortized over the shorter of the lease term or useful life of the underlying asset using the straight-line method. The amortization period varies from 3 to 5 years.

Subscription-based IT assets are recognized at the subscription commencement date and represent the County's right to use the underlying IT asset for the subscription term. Subscription-based IT assets are measured at the initial value of the subscription liability plus any payments made to the vendor at the commencement of the subscription term, less any subscription incentives received from the vendor at or before the commencement of the subscription term, plus any capitalizable initial implementation costs necessary to place the subscription asset into service. Subscription-based IT -based IT assets are amortized over the shorter of the subscription term or useful life of the underlying asset using the straight-line method. The amortization period varies from 2 to 5 years.

### **Long-Term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Lease liabilities represent the County's obligation to make lease payments arising from the lease. Lease liabilities are recognized at the lease commencement date based on the present value of future lease payments expected to be made during the lease term. The present value of lease payments is discounted based on a borrowing rate determined by the County.

Subscription liabilities represent the County's obligation to make subscription payments arising from the subscription contract. Subscription liabilities are recognized at the subscription commencement date based on the present value of future subscription payments expected to be made during the subscription term. The present value of subscription payments is discounted based on a borrowing rate determined by the County.

### **Compensated Absences**

The County recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (for example paid in cash to the employee or payment to an employee flex spending account) during or upon separation from employment. Based on the criteria listed, three types of leave qualify for liability recognition for compensated absences – vacation, compensatory time, and sick leave. The liability for compensated absences is reported as incurred in the government-wide and proprietary fund financial statements. A liability for compensated absences is recorded in the governmental funds only if the liability has matured because of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

#### *Vacation*

The County's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment at the employee's current pay rate upon separation from employment. Employees are allowed to accumulate and carry over a maximum of two times their annual accumulation of vacation, but no more than 90 days into the new calendar year.

#### *Compensatory Time*

The County's policy permits all nonexempt employees are allowed to accumulate compensatory time at time and one-half, which is eligible for payment at the employee's current pay rate upon separation from employment. Union contracts set the limit of compensatory time allowed.

#### *Sick Leave*

The County's policy permits employees to accumulate earned but unused sick leave. All sick leave lapses when employees leave the employ of the County and, upon separation from service, employees will receive payment for 25 percent of accumulated sick leave. However, a liability for estimated value of sick leave that will be used by employees as time off is included in the liability for compensated absences. There is no restriction on the amount of sick leave that may be accumulated.

### **Postemployment Benefits Other Than Pensions (OPEB)**

Under the provisions of the various employee and union contracts, the County provides certain postemployment benefits other than pensions to eligible retirees. These OPEB obligations are funded on a pay-as-you-go basis. The total OPEB liability, deferred outflows/inflows of resources, and OPEB expense were actuarially determined in accordance with GASB Statement No. 75. Additional information can be found in Note 11.

## Pensions

The Teachers' Retirement System (TRS) and the Montana Public Employee Retirement Administration (MPERA), which administers the Public Employee Retirement System (PERS) and the Sheriffs' Retirement System (SRS), prepare their financial statements using the accrual basis of accounting. For the purposes of measuring the Net Pension Liability (NPL), deferred inflows of resources and deferred outflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from fiduciary net position have been determined on the same accrual basis as they are reported by TRS and MPERA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Expenses are recognized in the accounting period incurred. Investments are reported at fair value. TRS and MPERA adhere to all applicable GASB statements.

### Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The County has three items that qualify for reporting in this category. They are the contributions made to pension plans after the measurement date and prior to the fiscal year-end, changes in the net pension liability not included in pension expense, and changes in the total other post employment benefits liability not included in OPEB expense, reported in the government-wide statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The County has four types of items that qualify for reporting in this category.

The County reports unavailable revenues from property taxes on the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The second item is deferred inflows related to leases where the County is the lessor and is reported in the government-wide statement of net position and proprietary funds statement of net position. The deferred inflows of resources related to leases are recognized as an inflow of resources (revenue) on the straight-line basis over the term of the lease. The other items are changes in the net pension liability not included in pension expense and changes in the total other post-employment benefits liability not included in OPEB expense reported in the government-wide statement of net position.

**Net Position**

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources in the County's financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization, and unspent bond proceeds for capital purposes reduced by the outstanding balances of any long-term debt or lease attributable to the acquisition, construction, or improvement of those assets, retainage payable, and accounts payable related to capital asset construction. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislation or through external restrictions imposed by creditors, grantors, or laws and regulations of other governments. Unrestricted net position is the net amount of assets and liabilities that are not included in the determination of net investment in capital assets or the restricted component of net position.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the County's policy is to apply restricted net position first.

**Fund Balance**

In accordance with GASB Statement 54, the County reports fund balance for governmental funds in two general classifications, nonspendable and spendable. Spendable fund balance is further categorized as restricted, committed, assigned, and unassigned.

*Nonspendable Fund Balance* – represents the portion of fund balance that the resources are not in spendable form such as inventory. Also considered non-spendable are resources that are legally required to be maintained intact (i.e., principal portion of permanent trusts).

*Restricted Fund Balance* – Constraint is externally imposed by third party (grantor, contributor, etc.), state constitution, or by enabling legislation by the legislature.

*Committed Fund Balance* – Constraint is internally imposed by the BOCC by resolution by the end of the reporting period.

*Assigned Fund Balance* – Constraint is internally expressed intent by the government body or authorized official(s) through budget approval process by the reporting date.

*Unassigned Fund Balance* – the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it is not appropriate to report a positive unassigned fund balance amount. In governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

The County adopted a spending policy for restricted and unrestricted fund balances with the following order of spending: restricted, assigned, committed, and lastly unassigned. When expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When expenditures are incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of assigned funds, then committed funds and finally unassigned funds, as needed, unless the County has provided otherwise in its commitment or assignment actions. The BOCC is the highest body in the County. Any constraints on funds set by them through public meeting and commission vote must be reported as committed if action is taken by fiscal year-end. Once the BOCC has established the commitment, it can only be modified or rescinded by similar public meeting and BOCC vote. The County's Chief Administrative Officer or the County Finance Officer is generally the only other persons that can impose constraints that would cause amounts to be assigned. These constraints generally relate to carrying over budget authority from prior years for projects that have been budgeted for by the BOCC but were not complete as of the prior fiscal year-end.

The County does not maintain a stabilization fund or have a minimum fund balance policy.

#### **Grant Revenue**

The County recognizes grant income on government-mandated and voluntary non-exchange transactions when all eligibility requirements have been met. Cash or other assets provided in advance are reported as advances and as unearned revenues.

#### **Interfund Transactions**

Interfund services provided and used are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except interfund services provided/used are reported as transfers.

#### **Adoption of New Accounting Standards**

As of July 1, 2024, the County adopted GASB Statement No. 101, *Compensated Absences*. The provisions of this standard modernize the types of leave that are considered a compensated absence and provides guidance for a consistent recognition and measurement of the compensated absence liability. There was no effect of the implementation of this standard on disclosures during the year.

As of July 1, 2024, the County adopted GASB Statement No. 102, *Certain Risk Disclosures*, which requires management to evaluate whether there are risks related to a government's vulnerabilities due to certain concentrations or constraints that require disclosure. There was no effect of the implementation of this standard on disclosures during the year.

**Note 2 - Reconciliation of Government-Wide and Fund Financial Statements**

**Explanation of Certain Differences between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position**

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government – wide statement of net position. One element of that reconciliation explains that “long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.”

The details of this difference are as follows:

General obligation bonds	\$	8,635,000
Contracts and loans payable		944,572
Special assessments debt		301,258
Leases payable		79,555
Subscription IT arrangements		445,461
Compensated absences		3,640,790
Accrued interest		26,863
Total OPEB liability		1,131,141
Net pension liability		<u>27,082,266</u>
		42,286,906
Less long-term liabilities recorded in internal service funds		<u>(454,217)</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	\$	<u><u>41,832,689</u></u>

**Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities**

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that “Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities the cost of capital assets is allocated over their estimated useful lives and reported as depreciation/amortization expense.”

The details of this difference are as follows:

Capital outlay reported in fund financial statements	\$	7,039,692
Plus: donated/contributed assets		4,829,213
Plus: assets purchased by internal service funds		364,391
Plus: prior year construction in progress added as asset in current year		<u>3,614,656</u>
Capital asset increases per Note 6		\$ 15,847,952
Less: assets disposed		(1,358,070)
Less: prior year construction in progress added as asset in current year		<u>(3,614,656)</u>
Capital asset decreases per Note 6		(4,972,726)
Accumulated depreciation/amortization increases per Note 6		(3,343,076)
Accumulated depreciation/amortization decreases per Note 6		1,067,269
Capital assets purchased by internal service funds		(364,391)
Depreciation/amortization expense included in net expense of internal service funds		159,944
Capital assets disposed by internal service funds		393,885
Accumulated depreciation/amortization on capital assets disposed by internal service funds		<u>(127,243)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities		<u><u>\$ 8,661,614</u></u>

Another element of that reconciliation states that “The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.”

The details of this difference are as follows:

Principal payments on bonded debt	\$	1,200,000
Principal payments on contracts and loans payable		140,244
Issuance of special assessments		(54,019)
Principal payments on special assessments		77,237
Principal payments on leases payable		104,838
Issuance of SBITAs		(172,835)
Principal payments on SBITAs		267,354
Issuance of debt recorded in internal service funds		172,835
Principal payments recorded in internal service funds		<u>(83,089)</u>
Net adjustment to net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities		<u><u>\$ 1,652,565</u></u>

**Note 3 - Stewardship, Compliance, and Accountability****General Budget Policies**

An annual appropriated operating budget is adopted each fiscal year for County funds in accordance with State statutes. Levied funds that have an annual appropriated operating budget include the County's General Fund; Library-Custodial Fund; and the following Special Revenue Funds: Craig Mosquito, Mosquito Control, Water Quality, Mental Health, Road, Predatory Animal Control, Cattle Protection Program, District Court, Search & Rescue Operations, Park, Permissive Medical, Forestvale Cemetery, Planning, Emergency Disaster, County Health, Senior Citizens, County Extension, and Public Safety. Others funds that have budgets adopted include Health-Related Grants, Detention & Diversion Services, Public Safety Radio Project, Inmate Programs, Parks Development, Lincoln Parks, Record Preservation, DUI Programs, City/County Drug, Missouri River Drug Task Force, MRDTF Federal Sharing, Hard Rock Mine Reserve, Metal Mines Tax Reserve, Wolf Creek Wastewater Facility Maintenance, Craig Wastewater Facility Maintenance, Craig Training Center Maintenance, Septic Maintenance Revolving Loans, Open Space, Road Improvement – Subdivision, Alcoholism, Gas Tax, Gas Tax Special Road Program, HIDTA, Justice Assistance Grant, National Fire Plan, Noxious Weed Grant, Homeland Security Grant, Other Grants, Special Assessment Districts, City/County Building Debt, Open Space Debt, RSID Revolving Debt, Search and Rescue Building Debt, Detention Center Debt, Rural Special Improvement District Debt, Capital Development, RID Projects, and Road/Bridge Infrastructure Projects.

**Budget Process**

As provided by State law, the County follows these procedures to develop the budget information:

1. A proposed operating budget is submitted to the BOCC for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. The final budget is adopted by the County after public hearings have been conducted.
4. By the later of the second Monday in August or within 45 calendar days after receiving certified taxable values, the County shall set the tax levy for each taxing jurisdiction within the County or municipality.

Spending control is legally established by an annual resolution adopted by the BOCC. This resolution delineates the total amount of expenditures budgeted by fund total with the exception of the general fund which includes department totals. Budgetary comparisons have been presented in at least this much detail. Budget appropriation transfers may be made between the general classifications of salaries and wages, operation and maintenance, and capital outlay upon a resolution adopted by the BOCC. Reported budget amounts represent the original adopted budget, as amended by resolution of the BOCC. It is management's responsibility to see that the budget is followed to the budgetary line-item level.

The BOCC may amend a final budget when shortfalls in budgeted revenues require reductions in approved appropriations to avert deficit spending, when savings result from unanticipated adjustments in projected expenditures, when unanticipated state or federal monies are received, or when a public emergency occurs which could not have been foreseen at the time of adoption. The procedure to amend the budget in total can be made only after the County prepares a resolution, notice is published of a public hearing, and a public hearing is held in accordance with state law.

**Budget/GAAP Reconciliation**

Legally required budgets are adopted on the cash basis of accounting consistent with the budget laws of the State of Montana, which is a basis of accounting not in accordance with generally accepted accounting principles (GAAP). Under the budget basis of the County, certain revenues and the related assets are recognized when received rather than when susceptible to accrual or when earned, and certain expenditures are recognized when disbursed as determined by the date of the warrant rather than when the obligation was incurred. In addition, inventories are recorded as expenditures when purchased. GAAP requires that material balances of inventory at year-end be reported on the balance sheet. Accordingly, a fund balance reserve is reflected. Annual appropriated budgets are legally adopted for the County’s General Fund, all Special Revenue Funds (except the Forestvale Endowment), Debt Service Funds, and the Capital Projects Funds. No formal budget is adopted for the Permanent Fund (Forestvale Perpetual Care Fund). Formal budgetary policies are employed for the Special Revenue and Debt Service Funds. For many funds, effective budgetary controls are also achieved through (1) Rural Special Improvement District (RSID) bond provisions, (2) InterCap Loan provisions, (3) federal and state grant contracts/agreements, and (4) bond provisions. Also, the Rural Revolving (RSID Revolving) fund is no longer deemed budgetary but continues to receive delinquent tax collections.

Individual fund budgetary amounts equal appropriation amounts. All annual appropriations lapse at fiscal year-end. Encumbrances are appropriated in the subsequent fiscal year.

Accounting principles used in developing data on a budgetary basis differ from those used in preparing financial statements in conformity with GAAP. The following schedule reconciles the amounts on the basic governmental fund – Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual (which is prepared on a non-GAAP budgetary basis) to the amounts in the basic governmental fund – Statement of Revenues, Expenditures, and Changes in Fund Balance (which is prepared on a GAAP basis) for the major funds.

	General	Public Safety	Other Grants	Special Assessment Districts
Fund Balance, Budgetary Basis	\$ 9,623,984	\$ 5,349,848	\$ (42,218)	\$ 6,719,642
Inventory	219,699	-	-	-
Accrual of tax revenue	225,223	270,981	-	55,643
Accrual of intergovernmental revenue	-	-	42,218	-
Accrual of interest income	32,699	19,530	5,498	24,536
Accrual of expenditures	(581,347)	-	(567,065)	-
Fund Balance, GAAP Basis	<u>\$ 9,520,258</u>	<u>\$ 5,640,359</u>	<u>\$ (561,567)</u>	<u>\$ 6,799,821</u>

In addition, the major debt service fund, the major capital projects fund, forty-four nonmajor special revenue, five nonmajor debt service, and two nonmajor capital project funds have legally required budgets and are included as other supplementary information. The following schedule also reconciles the actual amounts for those nonmajor funds budgeted and not budgeted to the total shown on the Combining Statement of Revenues, Expenditures, and Changes in Fund Balance - Nonmajor Governmental Funds.

	Major Debt Service Fund - Rural Special Improvement Districts Debt	Major Capital Projects Fund - Capital Development	Major Capital Projects Fund - RID Projects	Other Governmental Funds
Fund Balance, Budgetary Basis	\$ 230,908	\$ 20,435,857	\$ (647,219)	\$ 17,792,630
Inventory	-	-	-	319,209
Accrual of tax revenue	-	-	-	394,122
Accrual of intergovernmental revenue	-	-	-	599,506
Accrual of interest income	-	72,777	-	67,131
Accrual of expenditures	-	-	-	(903,612)
Nonmajor funds for which no budget is adopted	-	-	-	946,232
	<u>\$ 230,908</u>	<u>\$ 20,508,634</u>	<u>\$ (647,219)</u>	<u>\$ 19,215,218</u>
Fund Balance, GAAP Basis	<u>\$ 230,908</u>	<u>\$ 20,508,634</u>	<u>\$ (647,219)</u>	<u>\$ 19,215,218</u>

**Deficit Fund Balance/Net Position**

The following funds had a deficit fund balance/net position at June 30, 2025:

Governmental Funds	
Other Grants	\$ 561,567
RID Projects	647,219
Internal Service Funds	
Health Insurance	859,788

The Other Grants fund deficit will be reduced when grant proceeds are received.

The RID Projects fund deficit will be reduced when proceeds from an InterCap Loan are received.

The Health Insurance fund deficit net position will be reduced by a transfer in from other funds after year-end.

**Note 4 - Cash and Investments**

Following is a reconciliation of the County's deposit and investment balances as of June 30, 2025:

	<u>Pooled Cash and Investments</u>	<u>Other</u>	<u>Total Reporting Entity</u>	<u>Individual Investments</u>	<u>Total</u>
Bank Deposits	\$ 6,608,693	\$ 15,557	\$ 6,624,250	\$ -	\$ 6,624,250
Investments	<u>142,640,978</u>	<u>930,675</u>	<u>143,571,653</u>	<u>9,305,041</u>	<u>152,876,694</u>
	<u>\$ 149,249,671</u>	<u>\$ 946,232</u>	<u>\$ 150,195,903</u>	<u>\$ 9,305,041</u>	<u>\$ 159,500,944</u>
			<u>Statement of Net Position</u>	<u>Statement of Fiduciary Net Position</u>	<u>Total</u>
Cash and Cash Equivalents			\$ 56,523,983	\$ 62,062,346	\$ 118,586,329
Investments			19,069,481	20,898,902	39,968,383
Restricted Cash and Cash Equivalents			15,557	-	15,557
Restricted Investments			<u>930,675</u>	<u>-</u>	<u>930,675</u>
			<u>\$ 76,539,696</u>	<u>\$ 82,961,248</u>	<u>\$ 159,500,944</u>

**Bank Deposits**

The composition of bank deposits on June 30, 2025, was as follows:

Petty Cash	\$ 66,670
Time Deposits	6,542,023
Money Market Account	<u>15,557</u>
Total Reporting Entity	<u>\$ 6,624,250</u>

At June 30, 2025, the carrying amount of the County's deposits in local banks and investments was \$6,624,250, and the bank balance was \$6,869,876. Interest bearing account balances are covered by the Federal Depository Insurance Corporation (FDIC) up to \$250,000 per bank, per depositor. In addition, all noninterest bearing transaction account balances are fully insured by FDIC coverage. Interest bearing account balances not insured by FDIC coverage is \$6,619,876. This remaining balance is covered by collateral held by the pledging bank's agent in the County's name.

Custodial Credit Risk – The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover pledged (collateral) securities that are in the possession of an outside party.

The County minimizes custodial credit risk by restrictions set forth in County policy and state law. Custodial credit risk for deposits is the risk that in the event of a financial institution failure, the County's deposits may not be returned, or the County will not be able to recover the collateral securities in the possession of the outside party. The County's policy requires deposits to be 102 percent secured by collateral valued at fair value. The Treasurer's Office maintains a listing of financial institutions, which are approved for investment purposes. Types of securities that may be pledged as collateral are detailed in Section 17-6-103, MCA. County policy requires that specific safeguards, against risk of loss, be evidenced when the County does not physically hold securities.

At fiscal year-end, the County's carrying amount of deposits was \$6,624,250 and the bank balance was \$6,869,876. Of the bank balance, \$250,000 was covered by FDIC, and \$10,000,000 will be covered by a letter of credit.

Fiscal agent deposits consist of deposits with trustees related to the issuance of bonds by the County. These funds are invested in accordance with bond covenants and are pledged for payment of principal, interest and specified capital improvements. The pledging financial institution's trust department or agent in the County's name holds the invested funds. At the end of this fiscal year, the County did not have any fiscal agent deposits.

At fiscal year-end, the County did not have any certificates of deposit. Certificates of deposit must be 100 percent collateralized by securities held by the pledging financial institution's trust department or agent in the County's name. Both Forestvale Perpetual Care Fund and Forestvale Endowment Fund had money market balances at fiscal year-end, of \$7,804 and \$7,753, respectively. The pledging financial institution's trust department or agent in the County's name holds the invested funds. In the following disclosures, the values are included, but information related to credit ratings should be obtained from the trust departments.

State of Montana statute requires that the County have pledged securities equal to 50 percent of its total deposits and investments, which are not insured or guaranteed, if the institution in which the deposit is made has a net worth to total assets ratio of 6 percent or more. At June 30, 2025, the County was in compliance with this statute.

**Investments**

The composition of investments on June 30, 2025, was as follows:

	Total	Level 1	Level 2	Level 3
Primary Government				
Treasury Notes	\$ 998,591	\$ -	\$ 998,591	\$ -
Agency Notes	38,969,792	-	38,969,792	-
Equity Funds	590,859	-	590,859	-
Fixed Income Taxable Bonds	314,466	-	314,466	-
Other	25,350	-	25,350	-
Total investments by fair value level	\$ 40,899,058	\$ -	\$ 40,899,058	\$ -
Investments measured at NAV				
STIP - Internal	\$ 102,645,706			
STIP - External	9,305,041			
Total investments measured at NAV	\$ 111,950,747			
Total Investments measured at fair value	\$ 152,849,805			

**Fair Value** – The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the County has the ability to access.

Level 2 – Inputs to the valuation methodology include:

1. Quoted prices for similar assets or liabilities in active markets;
2. Quoted prices for identical or similar assets or liabilities in active markets;
3. Inputs other than quoted prices that are observable for the asset or liability;
4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology that are unobservable and significant to the fair value measurement.

On June 30, 2025, the reporting entity had cost or amortized cost values that approximated the fair value of the investments; therefore, no unrealized gain or loss was recorded for the year. The cost or amortized cost amount of the County's investments are \$151,935,301, whereas the fair value amount was \$151,919,126. Of the amount, none were uninsured and unregistered with the pledging financial institution's trust department or agent holding the invested funds in the County's name.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table presents the assets measure at fair value on a recurring basis, except those measured at net asset value (NAV) and cost as identified below, at June 30, 2025:

Individual Investments – At fiscal year-end, the reported amount of the individual investments belonging to legally separate entities such as school districts and special purpose districts was \$9,305,041. Of the amount, none was uninsured and unregistered with the pledging financial institution's trust department or agent holding the invested funds in the legally separate entities' names.

The County voluntarily participates in STIP administered by the Montana Board of Investments (MBOI). A local government's STIP ownership is represented by shares, the prices of which are fixed at \$1.00 per share, and participants may buy or sell shares with one business days' notice. STIP administrative expenses are charged daily against the STIP income, which is distributed on the first calendar day of each month. Shareholders have the option to automatically reinvest their distribution income in additional shares. STIP is not registered with the Securities and Exchange Commission. STIP is not covered by Federal Deposit Insurance Corporation (FDIC) - insured or otherwise insured or guaranteed by the federal government, the State of Montana, the MBOI or any other entity against investment losses, and there is no guaranteed rate of return on funds invested in STIP shares. The MBOI maintains a reserve fund to offset possible losses and limit fluctuations in STIP's valuation. Information on investments held in the STIP can be found in the Annual Report on the MBOI website at <http://investmentmt.com/AnnualReportsAudits>.

The STIP investments are purchased in accordance with the statutorily mandated "Prudent Expert Principle". The portfolio may include asset-backed securities, commercial paper, corporate, U.S. Government direct obligations, U.S. Government agency securities, institutional government money market funds, certificates of deposit and variable rate (floating-rate) instruments. The STIP investments must have a maximum maturity of 397 days or less, unless they are a variable rate security. The County has reported these investments as cash equivalents for financial reporting purposes. Per GASB 3 for disclosure of credit risk, STIP amounts are required in the investment footnote schedules.

MBOI approved that for financial reporting purposes the STIP portfolio be reported on a NAV or "fair value" basis beginning with the fiscal year ended June 30, 2016. MBOI provides a NAV factor to calculate fair value. The County deems the difference between the reported amortized cost and the NAV calculated fair value to be immaterial, therefore are using the amortized cost amount on the financial reports.

GASB Technical Bulletin No. 94-1, effective for periods ending after December 31, 1994, requires governmental entities participating in an investment pool to disclose certain types of securities held in the pool. As noted above, the County invests in STIP. This pool contains two types of investments requiring disclosure, which are asset-backed securities and variable rate (floating-rate) securities.

Further information concerning deposit and investment policies and risks may be found in the MBOI's Annual Report: <http://investmentmt.com/AnnualReportsAudits>.

STIP formal investment policy is located at [www.investmentmt.com/STIP](http://www.investmentmt.com/STIP).

Credit Risk – Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County securities have credit risk as measured by major credit rating services. This risk is that the issuer of a county security may default in making timely principal and interest payments. The County has addressed the issue of credit risk in its formal investment policy by requiring safekeeping and collateralization of its investments. The County primarily invests in State of Montana short-term investment pool and obligations of the U.S. government. The Forestvale Perpetual Care Fund and Forestvale Endowment Fund are authorized to invest in stocks, bonds, and mutual funds.

Credit risk is further minimized by compliance with State law, which limits local governments to certain investment types. Obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk and do not require disclosure of credit risk quality per GASB 40. The agency notes of \$38,969,790 and treasury notes of \$998,590, meet this requirement.

The credit ratings presented in the following tables are provided by Standard and Poor’s Corporation (S & P) rating service. If no rating is available from S & P, then a Moody’s Investment Services, Inc. rating will be used. The County does not have policies regarding credit ratings of investments.

	<u>Fair Value</u>	<u>Credit Rating</u>
Investments		
STIP		
Treasuries	\$ 44,987,219	A-1+
Agency or Government Related	8,401,181	A-1+
Corporate Commercial Paper	9,621,210	A-1+
Corporate Notes	21,153,700	A-1+
Certificates of Deposit	27,787,437	A-1+
Forestvale Investments	<u>930,675</u>	not available
Total Primary Government	<u><u>\$ 112,881,422</u></u>	

Custodial Credit Risk –The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either a) the counterparty or b) the counterparty’s trust department or agent, but not in the name of the County.

Both Forestvale Perpetual Care Fund and Forestvale Endowment Fund have investments at fiscal year-end, of \$465,664 and \$465,011, respectively. The pledging financial institution’s trust department or agent in the County’s name holds the invested funds. In the disclosures, the values are included, but information related to credit ratings should be obtained from the trust departments.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Interest rate risk is minimized by compliance with state law which limit local governments to certain investment types. Additionally, under state law, an investment may not have a maturity date exceeding 5 years, except when the investment is used in an escrow account for an advance refunding of an outstanding bond issue, or for investments of local government group self-insurance programs. In accordance with its investment policy, the County manages its exposure to declining fair values by limiting the maturity of its investment portfolio to no more than three years.

Although the County has no formal policy relating to interest rate risks, the following table illustrates the specific identification method used to disclose interest rate risks related with the County’s investments. The specific identification method does not compute a disclosure measure, but presents a list of each investment, its amount, its maturity date, and any call options. The investments include certain short-term cash equivalents, various long-term items and restricted assets by maturity in years. The County uses a laddering technique in which it purchases investments in which one or two may mature each month. The investments have maturity ranges from nine to thirty-six months. As a long-term investment matures, a new one may be purchased to replace it or the County may wait to replace it, meanwhile investing short-term until an appropriate replacement is found. The STIP has an investment policy that they will maintain a weighted average maturity of 60 days or less. The laddering allows for diversity in the portfolio to minimize interest rate risk.

As of June 30, 2025, the County had the following investments and maturities (at fair value):

Investment Type	Fair Value	Maturities (in Years)			
		Not Applicable	< 1	1-3	4-10
Primary Government					
Treasury Notes	\$ 998,591	\$ -	\$ 998,591	\$ -	\$ -
Agency Notes	38,969,792	-	999,281	25,980,481	11,990,030
Equity Funds	590,859	590,859	-	-	-
Fixed Income Taxable Bonds	314,466	314,466	-	-	-
Other	25,350	25,350	-	-	-
State of Montana Short Term Investment Pool (STIP)	111,950,747	-	111,950,747	-	-
	<u>\$ 152,849,805</u>	<u>\$ 930,675</u>	<u>\$ 113,948,619</u>	<u>\$ 25,980,481</u>	<u>\$ 11,990,030</u>

Concentration of Credit Risk – Concentration of credit risk is the risk of loss attributed to the magnitude of a government’s investment in a single issuer. The County's investment policy does not specifically address concentration of credit risk to allow for an investment in any one issuer not to be in excess of a specific threshold percentage of the government's total investments.

**Note 5 - Receivables**

Receivables as of June 30, 2025, were as follows:

	Governmental Funds			
	General	Public Safety	Other Grants	Special Assessment Districts
Receivables

	<u>\$ 1,223,317</u>	<u>\$ 38,836</u>	<u>\$ -</u>	<u>\$ 1,262,153</u>	<u>\$ 42,012</u>

\*Change in compensated absences is presented as the net change.

**Bonds Payable**

At June 30, 2025, the County had the following bond issuances outstanding:

	Final Maturity	Interest Rate	Original Issue	Principal Outstanding
<b>Governmental Activities:</b>				
<b>General obligation bonds</b>				
Open Space, Series 2017	7/1/2027	2.00 - 2.75%	\$ 4,000,000	\$ 880,000
Series 2018	7/1/2034	2.75 - 5.00%	6,500,000	4,530,000
Open Space, Series 2020	7/1/2030	2.00 - 3.00%	1,620,000	865,000
Open Space, Series 2022	7/1/2034	4.00%	3,000,000	2,360,000
Total general obligation bonds			<u>\$ 15,120,000</u>	<u>\$ 8,635,000</u>

There are a number of limitations and restrictions contained in the various bond indentures. The County is in compliance with all significant limitations and restrictions.

**General Obligation Bonds** – The County issues general obligation bonds to provide funds for the acquisition and construction of major capital assets. General obligation bonds are direct obligations of the County and are backed by the full faith and credit of the County. General obligation bonds are recorded in the governmental activities in the government-wide statement. Principal and interest on these bonds are payable from the Open Space Debt Service Fund, Search and Rescue Building Debt Service Fund, and the Detention Center Debt Service Fund.

The annual requirements to amortize the bonded debt outstanding for the governmental activities as of June 30, 2025, are as follows:

<u>Years Ending June 30,</u>	<u>General Obligation Bonds</u>	
	<u>Principal</u>	<u>Interest</u>
2026	\$ 1,240,000	\$ 357,856
2027	1,275,000	321,088
2028	870,000	273,050
2029	905,000	238,055
2030	940,000	171,100
2031-2035	3,405,000	434,350
	<u>\$ 8,635,000</u>	<u>\$ 1,795,499</u>

**Contracts and Loans Payable**

At June 30, 2025, the County had the following contracts and loans payable outstanding:

	<u>Final Maturity</u>	<u>Interest Rate</u>	<u>Original Issue</u>	<u>Principal Outstanding</u>
Governmental Activities:				
Contracts and Loans Payable				
City/County Building Air Conditioning System	8/15/2030	5.75%*	\$ 750,000	\$ 435,118
Law & Justice Building Improvements	8/15/2031	5.75%*	650,000	509,454
Total governmental activities			<u>\$ 1,400,000</u>	<u>\$ 944,572</u>

\*Interest rate is variable. For fiscal year 2025, the rate was 5.75 percent.

Principal and interest payments on contracts and loans payable are made from the City/County Building Debt Service Fund.

Future payments on contracts and loans payable are as follows:

<u>Years Ending June 30,</u>	<u>Governmental Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2026	\$ 144,814	\$ 52,376
2027	149,513	43,833
2028	154,402	35,167
2029	159,459	26,257
2030	164,786	17,025
2031-2032	171,598	8,706
	<u>\$ 944,572</u>	<u>\$ 183,364</u>

**Special Assessments Debt**

The following loans represent borrowings from the MBOI InterCap Loan Program.

Special assessment debts at June 30, 2025, are as follows:

	<u>Final Maturity</u>	<u>Interest Rate</u>	<u>Original Issue</u>	<u>Principal Outstanding</u>
Governmental Activities:				
Special Assessments				
Lake Home Road Rural Improvement District	2/15/2032	5.75%*	\$ 22,244	\$ 4,816
Settler's Cove Rural Improvement District	2/15/2030	5.75%*	105,507	10,157
South Forestvale Rural Improvement District	2/15/2031	5.75%*	133,642	26,794
Wild Wind Road and Half Fast Drive Rural Improvement District	8/15/2036	5.75%*	16,122	11,326
Augusta Rural Improvement District	2/15/2030	5.75%*	28,081	19,556
Lincoln Rural Improvement District	2/15/2030	5.75%*	74,969	54,173
Lambkins Rural Improvement District	2/15/2030	5.75%*	40,325	28,348
Country Side Rural Improvement District	2/15/2039	5.75%*	70,646	57,260
Long Gulch Rural Improvement District	8/15/2039	5.75%*	10,409	6,585
Jeanne Road Rural Improvement District	8/15/2039	5.75%*	43,610	39,243
Woodland Rural Improvement District - Water	7/1/2028	2.75%*	319,516	43,000
Total governmental activities			<u>\$ 865,071</u>	<u>\$ 301,258</u>

\* MBOI InterCap loans have a variable interest rate that is adjusted annually. For fiscal year 2025, the rate was 5.75 percent.

The loans are special assessment debt issued for the construction and maintenance of capital improvements within defined special improvement districts. The loans are payable from special assessments levied against the properties in the respective districts. The County has a secondary responsibility on the debt issued for the various districts. State law obligates the County to pay the debt service on these loans even if the assessments on the property owners are in default. At fiscal year-end 2025, funds with special assessment debt had an immaterial amount of delinquent tax receivables. State law provides for, and the County uses a "Special Improvement District Revolving Fund" to accumulate resources for such debt service payment, and payment is made from the Rural Special Improvements District Debt Service Fund. Statutes allow for a special property tax levy as long as the balance in this fund is less than 5 percent of total outstanding special assessment debt with government commitment. This fiscal year, the County did not levy for the fund.

Future payments on special assessments payable are as follows:

Years Ending June 30,	Governmental Activities	
	Principal	Interest
2026	\$ 45,809	\$ 14,726
2027	47,380	12,436
2028	49,036	10,080
2029	44,492	7,614
2030	35,346	5,436
2031-2035	46,812	14,614
2036-2040	32,383	2,898
	\$ 301,258	\$ 67,804

### Leases Payable

Leases payable consists of long-term leases as described in Note 8. Leases payable of the governmental activities are liquidated by the HIDTA Fund, Mental Health Fund, and Building Maintenance Fund.

### Subscription IT Arrangements

Subscription IT arrangements consists of long-term software contracts as described in Note 9. Subscriptions payable of the governmental activities are liquidated by the General Fund, Public Safety Fund, and Information Technology & Services Fund.

### Landfill Closure/Postclosure

Landfill Closure/Postclosure liability consists of expected future obligations relating to the municipal landfill. See Note 10 for additional information.

### Compensated Absences

Compensated absences payable consists of estimated future use of sick leave and accumulated vacation and compensatory time as discussed in Note 1.

## Note 8 - Leases

### Lessor Activities

The County has accrued a receivable for the use of PureView Health Center, which occupies approximately 16,000 square feet of the County-owned Murray Building. The remaining receivable for this lease was \$1,155,075 for the year ended June 30, 2025. Deferred inflows related to these leases were \$1,138,050 as of June 30, 2025. Interest revenue recognized on these leases was \$8,572 for the year ended June 30, 2025. Principal receipts of \$249,640 were recognized during the fiscal year. The interest rate used to value the lease was 1.55%. Final receipt is expected in fiscal year 2030.

The future principal and interest lease receipts as of June 30, 2025, are as follows:

Years Ending June 30,	Governmental Activities	
	Principal	Interest
2026	\$ 240,537	\$ 16,203
2027	244,292	12,448
2028	248,095	8,645
2029	251,987	4,753
2030	170,164	995
	\$ 1,155,075	\$ 43,044

**Lessee Activities**

The County has entered into various lease agreements for office space and vehicles. The County is required to make principal and interest payments through February 2028. The lease liabilities were valued using a discount rate of 1.55% based on the County's incremental borrowing rate at the inception of the leases.

The future principal and interest lease payments as of June 30, 2025, are as follows:

Years Ending June 30,	Governmental Activities	
	Principal	Interest
2026	\$ 26,111	\$ 1,233
2027	26,516	828
2028	26,928	417
	\$ 79,555	\$ 2,478

**Note 9 - Subscription-Based Information Technology Arrangements (SBITAs)**

The County has entered into SBITA contracts for various operating software. The County is required to make principal and interest payments through January 2029. The SBITA contracts were valued using a discount rate of 1.55% based on the County’s incremental borrowing rate at the inception of the subscriptions.

The future principal and interest payments as of June 30, 2025, are as follows:

Years Ending June 30,	Governmental Activities	
	Principal	Interest
2026	\$ 173,862	\$ 6,904
2027	176,556	4,210
2028	95,043	1,473
	\$ 445,461	\$ 12,587

**Note 10 - Landfill Closure and Post-Closure Care Costs**

State and Federal laws and regulations require that the County place a final cover on its landfill when closed and to perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. The amount of the related closure and post-closure care costs recognized in each period is based on the relative amount of waste received during the period, even though some of the closure and post-closure care costs will be paid after the landfill is closed. The County is required by state and federal regulations to provide financial assurance for landfill closure, post-closure and remediation (if applicable). The County qualifies and has chosen to provide assurance by using the Local Government financial test.

**County Landfill**

The County Landfill began accepting waste in the Class II area on October 11, 1994. The Class II area encompasses a total of 80 acres. In the Class II area, individual cells will be opened, filled, and closed over time. These cells are named Phase 1, Phase 2, etc. The final construction of the first cell to be opened, Phase 1, was completed in December 1994. The Phase 2 cell began accepting waste in December of 2002. The closures of the Phase 1 and Phase 2 cells were completed during fiscal years 2004 and 2019, respectively. Also in fiscal year 2004, a new area was opened called Class IV that will be used only for construction waste.

Although the estimated closure costs of the remaining open 68.4 acres is estimated to be \$3.5 million, when phases 4 and 5 are opened, the landfill will have 41.1 acres open in the Class II landfill area and 7.1 acres of Class IV area which will be required to be closed over the remaining life of the site.

The fiscal year-end liability that represents the financial insurance amount is \$1,152,421, which is comprised of estimated costs for Class II area closures, Class IV area closure, and post-closure monitoring of \$911,690, \$97,050, and \$143,680, respectively. The yearly increase in liability for closure for Class II cells and the Class IV cell is \$13,763 and \$2,587, respectively. The yearly increase in liability for post-closure is \$9,176.

In March 2023, a new engineer's report was completed, and it provided, among others, three significant changes from the March 2020 engineer's report. 1) Annual tonnage increased from 45,000 tons per year to 47,000 tons per year. 2) The closure and post-closure estimates were updated. The new cost estimates and new remaining useful life(s) associated with the March 2023 engineer's report, resulted in the following changes to the reported amounts:

- Montana financial assurance regulations require that the landfill financially assure for the largest planned open area during the life of the landfill. One of two financial assurance approaches shall be used when building financial assurance. The County uses the approach to financially assure the largest area that will ever be open during the life of the site. When Phases 4 and 5 are open, the landfill will have 41.1 acres open in the Class II landfill area and 7.1 acres of Class IV area which will be required to be closed over the remaining life of the site.
- The estimated total cost for landfill closure and post-closure care is \$3,373,130. The total closure cost for the Class II and Class IV areas, associated with the largest open areas as noted above, are \$2,109,046 and \$322,084, respectively. In the Class II area, Phase 2 is nearing the end of its useful life and is currently being closed. The total post-closure liability is \$942,000.
- The amounts reported to date are based on what it would cost to perform all closure and post-closure care at year-end; however, actual costs may be higher due to inflation. This calculation will be updated with each engineer's report.

It is anticipated that future inflation costs at the County Landfill will be in part financed from earnings on investments. The remaining portion of anticipated future inflation costs (including inadequate earnings on investments, if any) and additional costs that might arise from changes in post-closure requirements (due to changes in technology or more rigorous environmental regulations, for example), may need to be covered by charges to future landfill users, taxpayers, or both.

### **Scratch Gravel Landfill**

The Scratch Gravel Landfill was closed on October 8, 1994. Based on the new engineer's report, as of March 2023, the remaining estimated costs for landfill post-closure changed from \$42,075 to \$34,200. The total post-closure liability has been satisfied as fiscal year-end for the Scratch Gravel Landfill.

### **Note 11 - Other Post-Employment Benefits Plan**

As required by state law, the County provides employees who retire an option to continue to participate in the County's group health insurance plan. The County also allows terminated employees to continue their health care coverage for 18 months past the date of termination as required by the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA). To continue coverage, employees are required to pay the full cost of the benefits. The County will pay the first six months of insurance for retirees with 20 years or more with the County.

The plan does not issue a publicly available financial report. No assets are accumulated in a trust. Medical coverage is administered by Allegiance, a Cigna Company.

As required by GASB 75, the County has calculated and included an OPEB liability for fiscal year 2025.

**Plan Description**

The Lewis and Clark County Employee Group Benefit Plan maintains a single employer self-insured medical plan that is administered by Allegiance Benefit Plan Management, Inc. The plan currently provides defined medical, dental, and vision insurance benefits for eligible employees, retirees, spouses, and dependents. Participation is elected by the retiree at the time of retirement. Benefit provisions are set annually by the BOCC and may be revoked or altered at any time.

**Funding Policy**

The County provides no direct subsidy to the health insurance premiums for retirees, except for those with twenty years or more of continuous service, as noted above. Retirees pay for the entire cost of the health insurance premium. Eligible retired employees include former fulltime and certain other employees. Monthly retiree premiums for the Traditional Option as of the June 30, 2025 valuation date were \$1,025 for retiree only, \$1,425 for retiree two party. Premiums for retirees covering children add \$80 per child per month, with a limit of \$320 per month to the Traditional Option. Monthly retiree premiums for the HDHP Option as of the June 30, 2025 valuation date were \$975 for retiree only and \$1,175 for retiree two party. Premiums for retirees covering children add \$40 per child per month, with a limit of \$160 per month to the HDHP Option.

**Employees Covered by Benefit Terms**

At June 30, 2025, the census valuation date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	7
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	307
	314

**Contributions**

Benefit contributions are paid by the County as they come due.

**Total OPEB Liability (TOL)**

The County's total OPEB liability of \$1,131,141 for the June 30, 2025, reporting date was measured as of June 30, 2025, and was determined by an actuarial valuation as of June 30, 2025.

Changes in the TOL for the year ended June 30, 2025, are as follows:

Balance at July 1, 2024	\$	847,142
Changes from the Prior Year:		
Service cost		49,846
Interest cost		38,145
Assumption changes		342,442
Differences between expected and actual experience		(109,901)
Benefit payments		<u>(36,533)</u>
Net Change		<u>283,999</u>
Balance at June 30, 2025	\$	<u>1,131,141</u>

There is sensitivity of the TOL to changes in the discount rate. The TOL of the County as well as what the County's TOL would be if it were calculated using a discount rate that is one percentage point lower (3.93%) or one percentage point higher (5.93%) follows:

	<u>1% Decrease in Discount Rate</u>	<u>Discount Rate</u>	<u>1% Increase in Discount Rate</u>
Discount rate	3.93%	4.93%	5.93%
Total OPEB Liability	\$ 1,256,290	\$ 1,131,141	\$ 1,021,898

There is also sensitivity of the TOL to changes in the healthcare cost rates. The TOL of the County as well as what the County's TOL would be if it were recalculated using healthcare cost trend rates that are one percentage point lower or one percentage point higher than the current healthcare cost trend rate follows:

	<u>1% Decrease in Trend Rates</u>	<u>Trend Rates</u>	<u>1% Increase in Trend Rates</u>
Trend rate	18.50%, grading to 3.00% over 50 years	19.50%, grading to 4.00% over 50 years	20.50%, grading to 5.00% over 50 years
Total OPEB Liability	\$ 1,008,600	\$ 1,131,141	\$ 1,275,591

For the year ended June 30, 2025, the County recognized OPEB expense of \$281,180. At June 30, 2025, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between actual and expected experience	\$ -	\$ 1,237,713
Assumption changes	<u>1,051,042</u>	<u>-</u>
	<u>\$ 1,051,042</u>	<u>\$ 1,237,713</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

<u>Years Ended June 30,</u>	<u>OPEB Expense Amount</u>
2026	\$ 1,803
2027	1,803
2028	1,803
2029	1,803
2030	1,803
Thereafter	(195,686)

**Actuarial Methods and Assumptions**

The County’s actuarial valuation is completed on a biennial frequency, provided no significant events have occurred warranting new measurement. The County completed the valuation for fiscal year 2025. As of June 30, 2025, the most recent valuation date, the County’s total OPEB liability was determined using the following actuarial assumptions:

- Discount Rate: 4.93% for determining fiscal 2025 liability and expense.
- Inflation Rate: 3.5% long-term.
- Expected Real Rate of Return on Assets: N/A
- Health Care Claim and Contribution Trend Rates: 19.50% initial in fiscal 2025 and 4.00% ultimate in fiscal 2076.
- Average Salary Increase: 3.50%.
- Retirement Rates: Based on actuarial valuation for statewide retirement systems per the October 2024 MPERA Actuarial Reports
- Retiree Participation Rate: 20% of future eligible retirees are assumed to participate in the Plan upon retirement.
- Lapse Rate: 90% for those reaching age 65 or older
- Marriage Assumption: 70% of all future eligible retired employees are assumed to be married at retirement and elect spousal coverage.

The discount rate was based on a yield or index rate for a 20-year, tax-exempt, general obligation municipal bond with an average rating of AA/Aa or higher. Rates were based on the average of multiple June 30, 2025, municipal bond rate sources.

Mortality rates for active members are as follows: For TRS employees, mortality follows the Pub-2010 Teacher table, projected generationally using MP-2021; for general MPERA members, mortality follows the Pub-2010 General Employee table, projected generationally using MP-2021; and for SRS members, mortality follows the Pub-2010 Safety table, projected generationally using MP-2021.

Mortality rates for retired members are as follows: For TRS retirees, mortality follows the Pub-2010 Retired Teacher table adjusted 102% for males and 103% for females, projected generationally using MP-2021; for general MPERA retirees, mortality follows the Pub-2010 General Retiree table set forward 1 year and adjusted 104% for males, or adjusted 103% for females, projected generationally using MP-2021; and for SRS retirees, mortality follows the Pub-2010 Safety Retiree table set forward 1 year and adjusted 105% for males, or adjusted 100% for females, projected generationally using MP-2021.

Mortality rates for surviving beneficiaries are as follows: For TRS survivors, mortality follows the Pub-2010 Contingent Survivor table, projected generationally using MP-2021; for general MPERA survivors, mortality follows the Pub-2010 Contingent Survivor table set forward 1 year for males and females, projected generationally using MP-2021; and for SRS survivors, mortality follows the Pub-2010 Contingent Survivor table set forward 1 year for males, projected generationally using MP-2021.

Mortality rates for disabled members are as follows: For disabled TRS members, mortality follows the Pub-2010 General Disabled table, projected generationally using MP-2021; for disabled MPERA members, mortality follows the Pub-2010 General Disabled table set forward 1 year for males and females, projected generationally using MP-2021; and for SRS retirees, mortality follows the Pub-2010 Safety Disabled table set forward 1 year for males, projected generationally using MP-2021.

The medical trend rate table was reset in fiscal 2025.

This report constitutes the only analysis and presentation of the County's post-employment benefit plan. There is no separate, audited GAAP-basis post-employment benefit plan report.

#### **Note 12 - Defined Benefit Pension Plans**

With a few exceptions, all the County's employees must participate in one of three state administered cost-sharing multiple-employer defined benefit pension plans. The exceptions are employees that work less than 960 hours, and elected officials of the County. These two groups have the option of participating in PERS. One employee is covered by the TRS. Sheriff's employees are covered by the SRS, and substantially all other County employees are covered by PERS. Based on GASB Codification 1500.12, the amounts that would normally be allocated to the enterprise funds have been reported as part of the governmental activities since the County does not expect the liability to be paid directly from those funds.

For the year ended June 30, 2025 the County reported its proportionate share of net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the plans as follows:

	Deferred Outflows of Resources	Net Pension Liability	Deferred Inflows of Resources	Pension Expense
PERS	\$ 2,511,742	\$ 18,721,634	\$ 1,088,805	\$ 1,196,322
SRS	2,735,795	8,243,929	522,654	2,203,742
TRS	15,993	116,703	6,131	7,270
Total all plans	<u>\$ 5,263,530</u>	<u>\$ 27,082,266</u>	<u>\$ 1,617,590</u>	<u>\$ 3,407,334</u>

**Public Employees’ Retirement System (PERS)**

In accordance with GASB Statement 68, *Accounting and Financial Reporting for Pensions*, employers and the non-employer contributing entity are required to recognize and report certain amounts associated with participation in the Public Employees’ Retirement System Defined Benefit Retirement Plan (the Plan). This includes the proportionate share of the collective Net Pension Liability; Pension Expense; and Deferred Outflows and Deferred Inflows of Resources associated with pensions. Employers are provided guidance in GASB Statement 68, paragraph 74, where pension amounts must be combined as a total or aggregate for reporting, whether provided through cost-sharing, single-employer, or agent plans.

**Summary of Significant Accounting Policies**

The Montana Public Employee Retirement Administration (MPERA) prepared financial statements using the accrual basis of accounting. The same accrual basis was used by MPERA for the purposes of determining the Net Pension Liability (NPL); Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions; Pension Expense; the Fiduciary Net Position; and Additions to or Deductions from Fiduciary Net Position. Member contributions are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Revenues are recognized in the accounting period they are earned and become measurable. Benefit payments and refunds are recognized in the accounting period in which they are due and payable in accordance with the benefit terms. Expenses are recognized in the period incurred. Investments are reported at fair value. MPERA adhered to all accounting principles generally accepted by the United States of America. MPERA applied all applicable pronouncements of the Governmental Accounting Standards Board (GASB).

**General Information about the Pension Plan**

**Plan Description**

The PERS-Defined Benefit Retirement Plan (DBRP), administered by the Montana Public Employee Retirement Administration (MPERA), is a multiple-employer, cost-sharing plan established July 1, 1945, and governed by Title 19, chapters 2 & 3, Montana Code Annotated (MCA). This plan provides retirement benefits to covered employees of the State, and local governments, and certain employees of the Montana University System, and school districts. Benefits are established by state law and can only be amended by the Legislature.

All new members are initially members of the PERS-DBRP and have a 12-month window during which they choose to remain in the PERS-DBRP or join the PERS-DCRP by filing an irrevocable election. Members may not be participants of both the *defined benefit* and *defined contribution* retirement plans. All new members from the universities also have a third option to join the university system's Montana University System Retirement Program (MUS-RP).

### **Benefits Provided**

The PERS-DBRP provides retirement, disability, and death benefits to plan members and their beneficiaries. Benefits are based on eligibility, years of service, and highest average compensation (HAC). Member rights are vested after five years of service.

Retirement benefits are as follows:

#### *Service retirement:*

- Hired prior to July 1, 2011:
  - Age 60, 5 years of membership service
  - Age 65, regardless of membership service
  - Any age, 30 years of membership service
- Hired on or after July 1, 2011:
  - Age 65, 5 years of membership service
  - Age 70, regardless of membership service

#### *Early Retirement:*

- Hired prior to July 1, 2011:
  - Age 50, 5 years of membership service
  - Any age, 25 years of membership service
- Hired on or after July 1, 2011:
  - Age 55, 5 years of membership service

#### *Second Retirement* (requires returning to PERS-covered employer or PERS service):

- Retired before January 1, 2016, and accumulate less than 2 years additional service credit or retired on or after January 1, 2016, and accumulate less than 5 years additional service credit:
  - A refund of member's contributions plus return interest (currently 2.02% effective July 1, 2018).
  - No service credit for second employment.
  - Start the same benefit amount the month following termination; and
  - Guaranteed Annual Benefit Adjustment (GABA) starts again in the January immediately following the second retirement.
- Retired before January 1, 2016, and accumulate at least 2 years of additional service credit:
  - A recalculated retirement benefit based on provisions in effect after the initial retirement; and
  - GABA starts on the recalculated benefit in the January after receiving the new benefit for 12 months.
- Retired on or after January 1, 2016, and accumulate 5 or more years of service credit:
  - The same retirement as prior to the return to service.
  - A second retirement benefit as prior to the second period of service based on laws in effect upon the rehire date; and
  - GABA starts on both benefits in the January after receiving the original and the new benefit for 12 months.

*Member's highest average compensation (HAC)*

- Hired prior to July 1, 2011, highest average compensation during any consecutive 36 months.
- Hired on or after July 1, 2011 – highest average compensation during any consecutive 60 months.

*Compensation Cap*

- Hired on or after July 1, 2013 – 110% annual cap on compensation considered as a part of a member's highest average compensation.

*Monthly benefit formula*

- Members hired prior to July 1, 2011
  - Less than 25 years of membership service: 1.785% of HAC per year of service credit;
  - 25 years of membership service or more: 2% of HAC per year of service credit.
- Members hired on or after July 1, 2011
  - Less than 10 years of membership service: 1.5% of HAC per year of service credit;
  - 10 years or more, but less than 30 years of membership service: 1.785% of HAC per year of service credit;
  - 30 years or more of membership service: 2% of HAC per year of service credit.

*Guaranteed Annual Benefit Adjustment (GABA)* – After the member has completed 12 full months of retirement, the member's benefit increases by the applicable percentage (provided below) each January, inclusive of all other adjustments to the member's benefit.

- 3.0% for members hired prior to July 1, 2007
- 1.5% for members hired between July 1, 2007, and June 30, 2013
- Members hired on or after July 1, 2013:
  - 1.5% for each year PERS is funded at or above 90%;
  - 1.5% reduced by 0.1% for each 2.0% PERS is funded below 90%; and
  - 0% whenever the amortization period for PERS is 40 years or more.

**Contributions**

The State Legislature has the authority to establish and amend contribution rates. Member and employer contribution rates are specified by Montana Statute and are a percentage of the member's compensation. Contributions are deducted from each member's salary and remitted by participating employers.

*Special Funding:* The State of Montana, as the non-employer contributing entity, paid to the Plan, additional contributions that qualify as special funding. Those employers who received special funding are all participating employers.

*Not Special Funding:* Per Montana law, state agencies and universities paid their own additional contributions. The employer paid contributions are not accounted for as special funding for state agencies and universities but are reported as employer contributions.

Member and employer contribution rates are shown in the table below.

Fiscal Year	Member		State & University	Local Government		School Districts	
	Hired <07/01/2011	Hired >07/01/2011	Employer	Employer	State	Employer	State
2025	7.900%	7.900%	9.170%	9.070%	0.100%	8.800%	0.370%
2024	7.900%	7.900%	9.170%	9.070%	0.100%	8.800%	0.370%
2023	7.900%	7.900%	9.070%	8.970%	0.100%	8.700%	0.370%
2022	7.900%	7.900%	8.970%	8.870%	0.100%	8.600%	0.370%
2021	7.900%	7.900%	8.870%	8.770%	0.100%	8.500%	0.370%
2020	7.900%	7.900%	8.770%	8.670%	0.100%	8.400%	0.370%
2019	7.900%	7.900%	8.670%	8.570%	0.100%	8.300%	0.370%
2018	7.900%	7.900%	8.570%	8.470%	0.100%	8.200%	0.370%
2017	7.900%	7.900%	8.470%	8.370%	0.100%	8.100%	0.370%
2016	7.900%	7.900%	8.370%	8.270%	0.100%	8.000%	0.370%
2015	7.900%	7.900%	8.270%	8.170%	0.100%	7.900%	0.370%
2014	7.900%	7.900%	8.170%	8.070%	0.100%	7.800%	0.370%
2012-2013	6.900%	7.900%	7.170%	7.070%	0.100%	6.800%	0.370%
2010-2011	6.900%	N/A	7.170%	7.070%	0.100%	6.800%	0.370%
2008-2009	6.900%	N/A	7.035%	6.935%	0.100%	6.800%	0.235%
2000-2007	6.900%	N/A	6.900%	6.800%	0.100%	6.800%	0.100%

Member contributions to the system of 7.9% are temporary and will be decreased to 6.9% on January 1 following actuary valuation results that show the amortization period has dropped below 25 years and would remain below 25 years following the reduction of both the additional employer and additional member contribution rates.

Employer contributions to the system:

- Effective July 1, 2014, following the 2013 Legislative session, PERS-employer contributions increase an additional 0.1% a year and will continue over 10 years through 2024. For fiscal years beginning after June 30, 2024, the additional contribution amount stays at 2.27%. The additional employer contributions including the 0.27% added in 2007 and 2009, will terminate on January 1 following actuary valuation results that show the amortization period has dropped below 25 years and would remain below the 25 years following the reduction of both the additional employer and additional member contributions rates.
- Effective July 1, 2013, employers are required to make contributions on working retirees' compensation. Member contributions for working retirees are not required.
- The portion of employer contributions allocated to the Plan Choice Rate (PCR) are included in the employers reporting. The PCR was paid off effective March 2016 and the contributions previously directed to the PCR are now directed to member accounts.

Non-Employer Contributions:

Special Funding

- The state contributed 0.1% of members' compensation on behalf of local government entities.
- The state contributed 0.37% of members' compensation on behalf of school district entities.
- The state contributed a Statutory Appropriation from the General Fund of \$35,329,705.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

GASB Statement 68 allows a measurement date of up to 12 months before the employer’s fiscal year-end. The basis for the Total Pension Liability (TPL) as of June 30, 2024, is on an actuarial valuation performed by the Plan’s actuary as of June 30, 2024.

The Total Pension Liability (TPL) minus the Fiduciary Net Position equals the Net Pension Liability (NPL). The proportionate shares of the County’s and the State of Montana’s NPL for June 30, 2025 and 2024 reporting dates, are displayed below. The County’s proportionate share equals the ratio of the County’s contributions to the sum of all employer and non-employer contributions during the measurement period. The state’s proportionate share for a particular employer equals the ratio of the contributions for the particular employer to the total state contributions paid. The County recorded a liability of \$18,721,634 and the County’s proportionate share was 0.765472 percent.

	Net Pension Liability as of		Percent of Collective NPL as of		Change in Percent of Collective NPL
	June 30, 2025 Reporting Date	June 30, 2024 Reporting Date	June 30, 2025 Reporting Date	June 30, 2024 Reporting Date	
County Proportionate Share State of Montana Proportionate Share Associated with the County	\$ 18,721,634	\$ 19,372,525	0.765472%	0.793841%	-0.028369%
	<u>\$ 4,862,288</u>	<u>\$ 5,350,737</u>	<u>0.198805%</u>	<u>0.219261%</u>	<u>-0.020456%</u>
Total	<u>\$ 23,583,922</u>	<u>\$ 24,723,262</u>	<u>0.964277%</u>	<u>1.013102%</u>	<u>-0.048825%</u>

*Changes in actuarial assumptions and methods:* There have been no changes to the assumptions or other inputs that affected the measurement of the TPL since the previous measurement date.

*Changes in benefit terms:* There have been no changes in benefit terms since the previous measurement date.

*Changes in proportionate share:* There were no changes to the Plan between the measurement date of the collective NPL and the County’s reporting date that are expected to have a significant effect on the County’s proportionate share of the collective NPL.

*Pension Expense:* At June 30, 2025, the reporting date, the County recognized a Pension Expense of \$1,196,322 for its proportionate share of the Plan’s pension expense. The County also recognized grant revenue of \$260,576 for the support provided by the State of Montana for its proportionate share of the pension expense associated with the County.

At June 30, 2025, the reporting date, the employer reported its proportionate share of the Plan's deferred outflows of resources and deferred inflows of resources from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Expected vs actual experience	\$ 946,089	\$ -
Projected investment earnings vs. actual investment earnings	-	416,318
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	672,487
County contributions subsequent to the measurement date	1,565,653	-
	\$ 2,511,742	\$ 1,088,805

The \$1,565,653 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For the Reporting Year Ended June 30,	Recognition of Deferred Outflows and Deferred Inflows in Future Years as an Increase (Decrease) to Pension Expense
2026	\$ (673,623)
2027	1,002,876
2028	(292,675)
2029	(179,294)

*Actuarial Assumptions:* The total pension liability measured as of June 30, 2024, for the June 30, 2025, reporting date, was determined on the results of an actuarial valuation date of June 30, 2024, using the following actuarial assumptions, applied to all periods included in the measurement. Among those assumptions were the following:

Investment return (net of pension plan investment expense, including inflation)	7.30%
General wage growth*	3.50%
*includes inflation at	2.75%
Merit increases	0% to 4.80%

## Postretirement Benefit Increases

## Guaranteed Annual Benefit Adjustment (GABA) each January

After the member has completed 12 full months of retirement, the member's benefit increases by the applicable percentage (below) each January, inclusive of all other adjustments to the member's benefit.

Members hired prior to July 1, 2007	3.00%
Members hired between July 1, 2007, and June 30, 2013	1.50%
Members hired on or after July 1, 2013	
For each year PERS is funded at or above 90%	1.50%
For each year PERS is funded below 90%	1.50%, reduced by 0.1% for each 2.0% PERS is funded below 90%
Whenever the amortization period for PERS is 40 years or more	0.00%

For active members, mortality rates were based on PUB-2010 General Amount Weighted Employee Mortality projected to 2021 for males and females, projected generationally using MP-2021. For disabled retirees, the mortality rates were based on PUB-2010 General Amount Weighted Disabled Retiree Mortality table, projected to 2021, set forward one year for both males and females. For contingent survivors, mortality rates were based on PUB-2010 General Amount Weighted Contingent Survivor Mortality projected to 2021 with ages set forward one year for males and females, projected generationally using MP-2021. For healthy retirees, mortality rates were based on PUB-2010 General Amount Weighted Healthy Retiree Mortality table projected to 2021, with ages set forward one year and adjusted 104% for males and 103% for females, projected generationally using MP-2021.

The actuarial assumptions and methods utilized in the June 30, 2024 valuation, were developed in the five-year experience study for the period ending 2021. However, the current long-term rate of return is based on analysis in the experience study, without consideration for the administrative expenses analysis shown in the experience study.

*Discount Rate:* The discount rate used to measure the TPL was 7.30%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members, employers, and non-employer contributing entities would be made based on the Board's funding policy, which established the contractually required rates under the Montana Code Annotated. The state contributed 0.10% of the salaries paid by local governments and 0.37% paid by school districts. In addition, the state contributed a statutory appropriation from the general fund. Based on those assumptions, the Plan's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2128. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL. A municipal bond rate was not incorporated in the discount rate.

*Target Allocations:* The long-term expected rate of return on pension plan investments is reviewed as part of regular experience studies prepared for the Plan about every five years. The long-term rate of return as of June 30, 2024, is based on analysis in the experience study report dated May 2, 2022, without consideration for the administrative expense analysis shown in the experience study. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and an analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation), along with estimates of variability and correlations for each asset class. These ranges were combined to develop the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption (30 to 50 years) and is not expected to change absent a significant change in the asset allocation, a change in the underlying inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of the most recent experience study, are summarized in the following table.

Asset Class	Target Asset Allocation	Long-Term Expected Real Rate of Return Arithmetic Basis
Cash	3.0%	-0.33%
Domestic Equity	30.0%	5.90%
International Equity	17.0%	7.14%
Private Investments	15.0%	9.13%
Real Assets	5.0%	4.03%
Real Estate	9.0%	5.41%
Core Fixed Income	15.0%	1.14%
Non-Core Fixed Income	6.0%	3.02%
Total	100.0%	

*Sensitivity of the proportionate share of the net pension liability to changes in the discount rate:* The following presents the County's sensitivity of the NPL to the discount rate in the table below. A small change in the discount rate can create a significant change in the liability. The NPL was calculated using the discount rate of 7.30%, as well as what the NPL would be if it were calculated using a discount rate 1.00% lower or 1.00% higher than the current rate.

	1% Decrease (6.30%)	Current Discount Rate (7.30%)	1% Increase (8.30%)
County's proportionate share of the net pension liability	\$ 27,292,083	\$ 18,721,634	\$ 11,534,892

### **PERS Disclosure for the Defined Contribution Plan**

The County contributed to the state of Montana Public Employee Retirement System Defined Contribution Retirement Plan (PERS-DCRP) for employees that have elected the DCRP. The PERS-DCRP is administered by the PERB and is reported as a multiple-employer plan established July 1, 2002, and governed by Title 19, chapters 2 & 3, MCA. All new PERS members are initially members of the PERS-DBRP and have a 12-month window during which they may choose to remain in the PERS-DBRP or join the PERS-DCRP by filing an irrevocable election. Members may not be participants of both the defined benefit and defined contribution retirement plans.

Member and employer contribution rates are specified by state law and are a percentage of the member's compensation. Contributions are deducted from each member's salary and remitted by participating employers. The state Legislature has the authority to establish and amend contribution rates.

Benefits are dependent upon eligibility and individual account balances. Participants are vested immediately in their own contributions and attributable income. Participants are vested after 5 years of membership service for the employer's contributions to individual accounts and the attributable income. Non-vested contributions are forfeited upon termination of employment per 19-3-2117(5), MCA. Such forfeitures are used to cover the administrative expenses of the PERS-DCRP.

At the plan level for the measurement period ended June 30, 2024, the PERS-DCRP employer did not recognize any net pension liability or pension expense for the defined contribution plan. Plan level non-vested forfeitures for the 351 employers that have participants in the PERS-DCRP totaled \$1,345,278.

### **Pension Plan Fiduciary Net Position**

The stand-alone financial statements of the Montana Public Employees Retirement Board (PERB) Annual Comprehensive Financial Report (ACFR) and the GASB 68 Report disclose the Plan's fiduciary net position. These reports, as well as the actuarial valuations and experience study, are available from the PERB at PO Box 200131, Helena MT 59620-0131, (406) 444-3154 or are available on the MPERA website at <https://mpera.mt.gov/about/annualreports1/annualreports>.

### **Sheriffs' Retirement System (SRS)**

In accordance with GASB Statement 68, *Accounting and Financial Reporting for Pensions*, employers are required to recognize and report certain amounts associated with participation in the Sheriffs' Retirement System (the Plan). This includes the proportionate share of the collective Net Pension Liability (NPL); Pension Expense; and Deferred Outflows and Deferred Inflows of Resources associated with pensions. Employers are provided guidance in GASB Statement 68, paragraph 74, where pension amounts must be combined as a total or aggregate for reporting, whether provided through cost-sharing, single-employer, or agent pension plans.

## Summary of Significant Accounting Policies

MPERA prepared financial statements using the accrual basis of accounting. The same accrual basis was used by MPERA for the purposes of determining the Net Pension Liability (NPL); Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions; Pension Expense; the Fiduciary Net Position; and Additions to or Deductions from Fiduciary Net Position. Member contributions are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Revenues are recognized in the accounting period they are earned and become measurable. Benefit payments and refunds are recognized in the accounting period in which they are due and payable in accordance with the benefit terms. Expenses are recognized in the period incurred. Investments are reported at fair value. MPERA adhered to all accounting principles generally accepted by the United States of America. MPERA applied all applicable pronouncements of the Governmental Accounting Standards Board (GASB).

## General Information about the Pension Plan

### Plan Description

The Sheriffs' Retirement System (SRS), administered by the Montana Public Employee Retirement Administration (MPERA), is a multiple-employer, cost-sharing defined benefit plan established July 1, 1974, and governed by Title 19, chapters 2 & 7, Montana Code Annotated (MCA). This plan provides retirement benefits to all Department of Justice criminal and gambling investigators hired after July 1, 1993, all detention officers hired after July 1, 2005, and all Montana sheriffs. Benefits are established by state law and can only be amended by the Legislature.

### Benefits Provided

SRS provides retirement, disability and death benefits to plan members and their beneficiaries. Benefits are based on eligibility, years of service, and highest average compensation (HAC). Member rights are vested after five years of service.

#### *Service retirement and monthly benefit formula:*

- Members hired prior to July 1, 2023: 20 years of membership service, regardless of age.
- Members hired on or after July 1, 2023: 20 years of membership service at age 50.
- 2.5% of HAC x years of service credit.

#### *Early Retirement*

- Age 50 with 5 years of membership service.
- This benefit calculated using HAC and service credit at early retirement and reduced to the actuarial equivalent commencing at the earliest of age 60 or the attainment of 20 years of service credit.

*Second retirement:*

Applies to retirement system members re-employed in an SRS position on or after July 1, 2017:

- If the member works more than 480 hours in a calendar year and accumulates less than 5 years of service credit before terminating again, the member:
  - is not awarded service credit for the period of reemployment;
  - is refunded the accumulated contributions associated with the period of reemployment;
  - starting the first month following termination of service, receives the same retirement benefit previously paid to the member; and
  - does not accrue post-retirement benefit adjustments during the term of reemployment but receives a Guaranteed Annual Benefit Adjustment (GABA) in January immediately following second retirement.
- If the member works more than 480 hours in a calendar year and accumulates at least 5 years of service credit before terminating again, the member:
  - is awarded service credit for the period of reemployment;
  - starting the first month following termination of service, receives:
    - the same retirement benefit previously paid to the member, and
    - a second retirement benefit for the period of reemployment calculated based on the laws in effect as of the members rehire date; and
  - does not accrue post-retirement benefit adjustments during the term of reemployment but receives a GABA:
    - on the initial retirement benefit in January immediately following second retirement, and
    - on the second retirement benefit starting in January after receiving that benefit for at least 12 months.
- A member who returns to covered service is not eligible for a disability benefit.

*Member's compensation period used in benefit calculation*

- HAC = Highest Average Compensation
- Hired prior to July 1, 2011: HAC is average of the highest 36 consecutive months of compensation paid to member.
- Hired on or after July 1, 2011: HAC is average of the highest 60 consecutive months of compensation paid to member..

*Compensation Cap*

- Hired on or after July 1, 2013: 110% annual cap on compensation considered as a part of a member's HAC.

*Guaranteed Annual Benefit Adjustment (GABA)*

After the member has completed 12 full months of retirement, a Guaranteed Annual Benefit Adjustment (GABA) will be made January 1 each year equal to:

- 3.0% for members hired prior to July 1, 2007
- 1.5% for members hired on or after July 1, 2007

*Contributions:* The State Legislature has the authority to establish and amend contribution rates to the plan. Member and employer contribution rates are specified by Montana Statute and are a percentage of the member’s compensation. Contributions are deducted from each member’s salary and remitted by participating employers. Member and employer contribution rates are shown in the table below.

<u>Fiscal Year</u>	<u>Member</u>	<u>Employer</u>
2018-2025	10.495%	13.115%
2010-2017	9.245%	10.115%
2008-2009	9.245%	9.825%
1998-2007	9.245%	9.535%

Upon passage and approval of House Bill 85 during the 2025 Legislative session, the modified layered amortization policy put in place for SRS during the 2023 Legislative session, was repealed and restores the employer contribution rate to the fiscal year 2024 employer rate that existed before HB 569 was passed. The 2025 employer contribution rate for SRS that was restored with the passing of HB 85 is 13.115% instead of the 12.074% for fiscal year 2025.

House Bill 569 also provides a one-time appropriation of State of Montana general fund dollars to the SRS of \$26.8 million. This is a non-special funding, non-contributing entity contribution. For GASB Statement 68 reporting, the employer would recognize grant revenue of \$1,801,342 for its proportionate share of support revenue from the State of Montana.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

GASB Statement 68 allows a measurement date of up to 12 months before the employer’s fiscal year-end. The basis for the Total Pension Liability (TPL) as of June 30, 2024, is on an actuarial valuation performed by the Plan’s actuary as of June 30, 2024.

The Total Pension Liability (TPL) minus the Fiduciary Net Position equals the Net Pension Liability (NPL). The proportionate shares of the employer’s and the State of Montana’s NPL for June 30, 2025 and 2024 reporting dates are displayed below. The employer’s proportionate share equals the ratio of the employer’s contributions to the sum of all employer and non-employer contributions during the measurement period. The employer recorded a liability of \$8,243,929 and the employer’s proportionate share was 6.7214 percent.

	<u>Net Pension Liability as of</u>		<u>Percent of Collective NPL as of</u>		<u>Change in Percent of Collective TPL</u>
	<u>June 30, 2025 Reporting Date</u>	<u>June 30, 2024 Reporting Date</u>	<u>June 30, 2025 Reporting Date</u>	<u>June 30, 2024 Reporting Date</u>	
County Proportionate Share	<u>\$ 8,243,929</u>	<u>\$ 10,505,639</u>	<u>6.7214%</u>	<u>7.1470%</u>	<u>-0.4256%</u>

*Changes in actuarial assumptions and methods:* There have been no changes to the actuarial assumptions or other inputs that affected the measurement of the TPL since the previous measurement date.

*Changes in benefit terms:* There have been no changes in benefit terms since the previous measurement date.

*Changes in proportionate share:* There were no changes to the Plan between the measurement date of the collective NPL and the employer’s reporting date that are expected to have a significant effect on the employer’s proportionate share of the collective NPL.

*Pension Expense:* At June 30, 2025, the reporting date, the employer recognized a pension expense of \$2,203,742 for its proportionate share of the Plan’s pension expense.

*Recognition of Deferred Inflows and Outflows:* At June 30, 2025, the reporting date, the employer reported its proportionate share of the Plan’s deferred outflows of resources and deferred inflows of resources from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Expected vs actual experience	\$ 1,431,179	\$ -
Projected investment earnings vs. actual investment earnings	-	294,463
Changes in assumptions	266,925	73,887
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	154,304
County contributions subsequent to the measurement date	1,037,691	-
	\$ 2,735,795	\$ 522,654

The \$1,037,691 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For the Reporting Year Ended June 30,	Recognition of Deferred Outflows and Deferred Inflows in Future Years as an Increase (Decrease) to Pension Expense
2026	\$ 787,540
2027	710,459
2028	(197,494)
2029	(125,055)

*Actuarial Assumptions:* The total pension liability measured as of June 30, 2024, for the June 30, 2025, reporting date, was determined by an actuarial valuation date of June 30, 2024, using the following actuarial assumptions, applied to all periods included in the measurement. Among those assumptions were the following:

Investment return (net of pension plan investment expense, including inflation)	7.3%
General wage growth*	3.5%
*includes inflation at	2.75%
Merit increases	1.00% to 6.40%
Postretirement Benefit Increases	
Guaranteed Annual Benefit Adjustment (GABA) (requires 12 full months of retirement before GABA will be made)	
Members hired prior to July 1, 2007	3.0%
Members hired on or after July , 2007	1.5%

For active members, mortality rates were based on PUB-2010 Safety Amount Weighted Employee Mortality projected to 2021 for males and females, projected generationally using MP-2021. For healthy retirees, mortality rates were based on PUB-2010 Safety Amount Weighted Healthy Retiree Mortality table projected to 2021 with ages set forward one year and adjusted 105% for males, projected generationally using MP-2021. For contingent survivors, mortality rates were based on PUB-2010 Safety Amount Weighted Contingent Survivor Mortality projected to 2021 with ages set forward one year for males, projected generationally using MP-2021. For disabled retirees, the mortality rates were based on PUB-2010 Safety Amount Weighted Disabled Retiree Mortality table, projected to 2021, set forward one year for males.

The actuarial assumptions and methods utilized in the June 30, 2024 valuation, were developed in the five-year experience study for the period ending June 30, 2021. However, the current long-term rate of return is based on analysis in the experience study, without consideration for the administrative expenses analysis shown in the experience study.

*Discount Rate:* The discount rate used to measure the TPL was 7.30%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members and employers, will be made based on the Board's funding policy, which established the contractually required rates under the Montana Code Annotated. Based on those assumptions, the Plan's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2127. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL. A municipal bond rate was not incorporated in the discount rate.

*Target Allocations:* The long-term expected rate of return on pension plan investments is reviewed as part of regular experience studies prepared for the Plan about every five years. The long-term rate of return as of June 30, 2024, is based on analysis in the experience study report dated May 2, 2022, without consideration for the administrative expense analysis shown in the experience study. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and an analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation), along with estimates of variability and correlations for each asset class. These ranges were combined to develop the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption (30 to 50 years) and is not expected to change absent a significant change in the asset allocation, a change in the underlying inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of the most recent experience study, are summarized in the following table.

Asset Class	Target Asset Allocation	Long-Term Expected Real Rate of Return Arithmetic Basis
Cash	3.0%	-0.33%
Domestic Equity	30.0%	5.90%
International Equity	17.0%	7.14%
Private Investments	15.0%	9.13%
Real Assets	5.0%	4.03%
Real Estate	9.0%	5.41%
Core Fixed Income	15.0%	1.14%
Non-Core Fixed Income	6.0%	3.02%
Total	100.0%	

*Sensitivity of the proportionate share of the net pension liability to changes in the discount rate:* The following presents the employer’s sensitivity of the NPL to the discount rate in the table below. A small change in the discount rate can create a significant change in the liability. The NPL was calculated using the discount rate of 7.30%, as well as what the NPL would be if it were calculated using a discount rate 1.00% lower or 1.00% higher than the current rate.

	1% Decrease (6.30%)	Current Discount Rate (7.30%)	1% Increase (8.30%)
County's proportionate share of the net pension liability	\$ 14,812,593	\$ 8,243,929	\$ 2,897,940

*Pension plan fiduciary net position:* The stand-alone financial statements of the Montana Public Employees Retirement Board (PERB) Annual Comprehensive Financial Report (ACFR) and the GASB 68 Report disclose the Plan’s fiduciary net position. These reports, as well as the actuarial valuations and experience study, are available from the PERB at PO Box 200131, Helena MT 59620-0131, (406) 444-3154 or are available on the MPERA website at <https://mpera.mt.gov/about/annualreports1/annualreports>.

**Teachers’ Retirement System (TRS)**

**Net Pension Liability**

In accordance with GASB Statement 68, *Accounting and Financial Reporting for Pensions*, employers are required to recognize and report certain amounts associated with their participation in the Montana Teachers’ Retirement System (TRS or the System). Statement 68 became effective June 30, 2015 and includes requirements to record and report their proportionate share of the collective Net Pension Liability. In accordance with Statement 68, the System has a special funding situation in which the State of Montana is legally responsible for making contributions directly to TRS that are used to provide pension benefits to the retired members of TRS. Due to the existence of a special funding situation, employers are also required to report the portion of the State of Montana’s proportionate share of the collective Net Pension Liability that is associated with the employer. The following table displays the amounts and the percentages of Net Pension Liability for the fiscal years ended June 30, 2025 and June 30, 2024 (reporting dates).

	Net Pension Liability as of		Percent of Collective NPL as of		Change in Percent of Collective TPL
	June 30, 2025 Reporting Date	June 30, 2024 Reporting Date	June 30, 2025 Reporting Date	June 30, 2024 Reporting Date	
County Proportionate Share	\$ 116,703	\$ 116,926	0.0062%	0.0060%	0.0002%
State of Montana Proportionate Share Associated with the County	\$ 61,821	\$ 61,564	0.0033%	0.0032%	0.0001%
Total	<u>\$ 178,524</u>	<u>\$ 178,490</u>	<u>0.0095%</u>	<u>0.0092%</u>	<u>0.0003%</u>

At June 30, 2025, the employer recorded a liability of \$116,703 for its proportionate share of the Net Pension Liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2024. Therefore, no update procedures were used to roll forward the total pension liability to the measurement date. The employer’s proportion of the net pension liability was based on the employer’s contributions received by TRS during the measurement period July 1, 2023 through June 30, 2024 relative to the total employer contributions received from all of TRS’ participating employers. At June 30, 2025, the employer’s proportionate share was 0.0062 percent.

*Changes in actuarial assumptions and other inputs:* There have been no changes in actuarial assumptions since the previous measurement date.

*Changes in benefit terms:* There have been no changes in benefit terms since the previous measurement date.

*Changes in proportionate share:* There were no changes between the measurement date of the collective net pension liability and the reporting date.

**Pension Expense**

At June 30, 2025, the employer recognized a expense of \$7,270 for its proportionate share of the TRS’ pension expense. The employer also recognized grant revenue of \$3,325 for the support provided by the State of Montana for its proportionate share of the pension expense that is associated with the employer.

**Deferred Inflows and Outflows**

At June 30, 2025, the employer reported its proportionate share of TRS’ deferred outflows of resources and deferred inflows of resources related to TRS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 2,953	\$ -
Changes in assumptions	-	3,879
Difference between projected and actual investment earnings	-	2,252
Changes in proportion and differences between actual and expected contributions	3,842	-
County contributions subsequent to the measurement date	9,198	-
	\$ 15,993	\$ 6,131

The \$9,198 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For the Reporting Year Ended June 30,	Recognition of Deferred Outflows and Deferred Inflows in Future Years as an Increase (Decrease) to Pension Expense
2026	\$ (6,082)
2027	7,112
2028	16
2029	(382)

**Plan Description**

Teachers’ Retirement System (TRS or the System) is a mandatory-participation multiple-employer cost-sharing defined-benefit public pension plan that provides retirement services to individuals employed as teachers, administrators, and in other professional and skilled positions employed in public education in Montana.

The TRS Board is the governing body of the System and the TRS staff administers the System in conformity with the laws set forth in Title 19, chapter 20 of the Montana Code Annotated, and administrative rules set forth in Title 2, chapter 44 of the Administrative Rules of Montana. Additional information pertaining to membership, benefit structure, and prior years' actuarial valuations, as well as links to applicable statutes and administrative rules, may be obtained by visiting the TRS web site at [trs.mt.gov](http://trs.mt.gov).

### Summary of Benefits

Through June 30, 2013, all members enrolled in TRS participated in a single-tiered plan ("Tier One"). Employees with a minimum of 25 years of service or who have reached age 60 with 5 years of service are eligible to receive an annual retirement benefit equal to creditable service years divided by 60 times the average final compensation. Average final compensation (AFC) is the average of the highest three consecutive years of earned compensation. Benefits fully vest after 5 years of creditable service. Vested employees may retire at or after age 50 and receive reduced retirement benefits. Beginning July 1, 2013, new members in TRS participate in a second benefit tier ("Tier Two"), which differs from Tier One as follows:

- Tier Two uses a 5-year average final compensation (as opposed to 3-year AFC in Tier One)
- Tier Two provides for unreduced service retirement benefits at age 60 with 5 years of creditable service or at age 55 with at least 30 years of creditable service (rather than at age 60 with 5 years of service or at any age with 25 years of service in Tier One)
- Tier Two provides for early retirement benefits with 5 years of creditable service at age 55 (rather than age 50 in Tier One)
- Tier Two has a one percent higher normal employee contribution rate (though a temporary 1% supplemental employee contribution rate is also now currently in place for Tier One members), and
- Tier Two provides for an enhanced benefit calculation -  $1.85\% \times \text{AFC} \times \text{years of creditable service}$  - for members retiring with at least 30 years of creditable service and at least 60 years of age (rather than  $1.6667\% \times \text{AFC} \times \text{years of creditable service}$ )

A guaranteed annual benefit adjustment (GABA) is payable on January 1st of each calendar year for each retiree who has received at least 36 monthly retirement benefit payments prior to that date. The GABA is applicable to both Tier One and Tier Two members. The GABA for Tier One members is 1.5% of the benefit payable as of January 1st. For Tier Two members the GABA each year may vary from 0.5% to 1.5% based on the retirement system's funding status and the period required to amortize any unfunded accrued actuarial liability as determined in the prior actuarial valuation.

### Overview of Contributions

The System receives a portion of the total required statutory contributions directly from the State for all employers. The employers are considered to be in a special funding situation as defined by GASB 68 and the State is treated as a non-employer contributing entity in TRS. The System receives 2.49% of reportable compensation from the State's general fund for School Districts and Other Employers. The System also receives 0.11% of reportable compensation from the State's general fund for all TRS Employers including State Agency and University System Employers. Finally, the State is also required to contribute \$25 million in perpetuity payable July 1st of each year.

The tables below show the legislated contribution rates for TRS members, employers, and the State.

School District and Other Employers

	<u>Members</u>	<u>Employers</u>	<u>General Fund</u>	<u>Total Employee &amp; Employer</u>
Prior to July 1, 2007	7.15%	7.47%	0.11%	14.73%
July 1, 2007 to June 30, 2009	7.15%	7.47%	2.11%	16.73%
July 1, 2009 to June 30, 2013	7.15%	7.47%	2.49%	17.11%
July 1, 2013 to June 30, 2014	8.15%	8.47%	2.49%	19.11%
July 1, 2014 to June 30, 2017	8.15%	8.57%	2.49%	19.21%
July 1, 2017 to June 30, 2017	8.15%	8.67%	2.49%	19.31%
July 1, 2017 to June 30, 2017	8.15%	8.77%	2.49%	19.41%
July 1, 2017 to June 30, 2018	8.15%	8.87%	2.49%	19.51%
July 1, 2018 to June 30, 2019	8.15%	8.97%	2.49%	19.61%
July 1, 2019 to June 30, 2020	8.15%	9.07%	2.49%	19.71%
July 1, 2020 to June 30, 2021	8.15%	9.17%	2.49%	19.81%
July 1, 2021 to June 30, 2022	8.15%	9.27%	2.49%	19.91%
July 1, 2022 to June 30, 2023	8.15%	9.37%	2.49%	20.01%
July 1, 2023 to June 30, 2024	8.15%	9.47%	2.49%	20.11%

State and University Employers

### TRS Stand-Alone Statements

TRS' stand-alone financial statements, actuarial valuations and experience studies can be found online at <https://trs.mt.gov/TrsInfo/NewsAnnualReports>.

### Actuarial Assumptions

The total pension liability measured as of June 30, 2024, for the June 30, 2025, reporting date, is based on the results of an actuarial valuation as of July 1, 2024. There were several significant assumptions and other inputs used to measure the total pension liability. The actuarial assumptions used in the July 1, 2024 valuation were based on the results of the last actuarial experience study, dated May 3, 2022. Among those assumptions were the following:

Total Wage Increases*	3.50-9.00% for Non-University Members and 4.25% for University Members
-----------------------	---

Investment return (net of pension plan)	7.30%
---	-------

Price Inflation	2.75%
-----------------	-------

#### Postretirement Benefit Increases

Tier One Members: If the retiree has received benefits for at least 3 years, the retirement allowance will be increased by 1.5% on January 1

Tier Two Members: The retirement allowance will be increased by an amount equal to or greater than 0.5% but no more than 1.5% if the most recent actuarial valuation shows the System to be at least 90% funded and the provision of the increase is not projected to cause the funded ratio to be less than 85%

#### Mortality among Contributing Members

PUBT-2010 General Employee mortality projected to 2021. Projected generationally using MP-2021.

#### Mortality among Service Retired Members

PUBT-2010 Retiree mortality projected to 2021 adjusted 102% for males and 103% for females. Projected generationally using MP-2021.

#### Mortality among Beneficiaries

PUB-2010 Contingent Survivor table projected to 2021. Projected generationally using MP-2021.

#### Mortality among Disabled Members

PUB-2010 Non-Safety Disabled Retiree mortality table projected to 2021.

\*Total Wage Increases include 3.50% general wage increase assumption

### Discount Rate

The discount rate used to measure the total pension liability was 7.30%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members, employers, and non-employer contributing entities will be made based on the Board's funding policy, which establishes the contractually required rates under Montana Code Annotated. In addition to the contributions, the State general fund will contribute \$25 million annually to the System payable July 1st of each year. Based on those assumptions, the System's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2134. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. No municipal bond rate was incorporated in the discount rate.

### Target Allocations

Asset Class	Target Asset Allocation	Long-Term Expected Real Rate of Return Arithmetic Basis
Domestic Equity	30.0%	5.90%
International Equity	17.0%	7.14%
Private Investments	15.0%	9.13%
Real Assets	5.0%	4.03%
Real Estate	9.0%	5.41%
Core Fixed Income	15.0%	1.14%
Non-Core Fixed Income	6.0%	3.02%
Cash	3.0%	-0.33%
Total	100.0%	

The long-term expected rate of return on pension plan investments of 7.30% is reviewed as part of regular experience studies prepared for the System about every five years. The current long-term rate of return is based on analysis in the experience study report dated May 3, 2022, without consideration for the administrative expense analysis shown. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and an analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation), along with estimates of variability and correlations, are developed for each asset class. These ranges were combined to develop the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption (30 to 50 years) and is not expected to change absent a significant change in the asset allocation, a change in the underlying inflation assumption, or a fundamental change in the market that alters expected returns in future years.

**Sensitivity Analysis**

	1% Decrease (6.30%)	Current Discount Rate (7.30%)	1% Increase (8.30%)
County's proportionate share of the net pension liability	\$ 167,731	\$ 116,703	\$ 74,068

In accordance with GASB 68 regarding the disclosure of the sensitivity of the net pension liability to changes in the discount rate, the above table presents the net pension liability calculated using the discount rate of 7.30%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1.00% lower (6.30%) or 1.00% higher (8.30%) than the current rate.

**Summary of Significant Accounting Policies**

The Teachers’ Retirement System prepares its financial statements using the accrual basis of accounting. For the purposes of measuring the Net Pension Liability, deferred inflows of resources and deferred outflows of resources related to pensions, pension expense, information about the fiduciary net position of the Teachers’ Retirement System (TRS) and additions to/deductions from TRS’s fiduciary net position have been determined on the same accrual basis as they are reported by TRS. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. TRS adheres to all applicable Governmental Accounting Standards Board (GASB) statements.

TRS’ stand-alone financial statements, actuarial valuations and experience studies can be found online at <https://trs.mt.gov/TrsInfo/NewsAnnualReports>

**Note 13 - Claims Payable**

The County provides medical insurance coverage for its employees via a self-funded plan administered by Allegiance Benefit Plan Management, Inc., of Missoula, Montana. The purpose of this plan is to pay medical, dental, prescription drug, and vision claims of County employees and their covered dependents, and to minimize the total cost of annual medical insurance to the County. Rates for the coming year are determined in consultation with the administrator based on past claim experience. Medical claims exceeding \$160,000 specific per claimant plus \$300,000 aggregate for the group are covered by a commercial “stop-loss” policy that the plan purchases. The County accrues, as liabilities, those claims that have been reported within ninety days of the date of the financial statements, but were identified by Allegiance Benefit Plan Management, Inc., as being incurred prior to the date of the financial statements. As of June 30, 2025, the County’s medical insurance fund had a cash balance of \$221,977. Employees are responsible to pay 30 percent of a claimant’s costs up to \$3,500 for individuals and \$7,000 per family after the deductible is met. After the \$3,500 out-of-pocket maximum is met, 100 percent of any eligible costs are covered by the health plan. The County offers a high deductible health plan (HDHP) with an individual deductible of \$5,000 and \$10,000 per family. Once the deductible is met, eligible costs are covered 100% for medical, dental, vision, and prescription drugs. Employees enrolled in HDHP also receive a \$50 contribution per semi-monthly pay period to their Health Savings Account (HSA), paid by the County.

The County continues to monitor health care costs closely and is prepared to take steps as is deemed necessary if a deficit occurs.

A reconciliation of claims payable follows:

	Fiscal Year 2025	Fiscal Year 2024
Claims Payable, July 1	\$ 1,410,181	\$ 482,991
Claims Incurred	(10,506,105)	(9,772,251)
Claims Paid	10,250,115	10,699,441
Claims Payable, June 30	\$ 1,154,191	\$ 1,410,181

**Note 14 - Interfund Activity**

**Due to/Due from Other Funds**

Interfund receivables/payables are used when a fund has a cash deficit, as well as for other short-term amounts owed between funds. Due to/due from other funds at June 30, 2025, are as follows:

	Due from:						
	Other Grants Fund	Special Assessment Districts Fund	RID Projects Fund	Nonmajor Governmental Funds	County Landfill Fund	Nonmajor Enterprise Funds	
Due to:							
General Fund	\$ 42,218	\$ -	\$ 647,219	\$ 602,610	\$ -	\$ -	\$ 1,292,047
Capital Development Fund	-	-	-	-	500,068	-	500,068
Nonmajor Governmental Funds	-	1,367	-	-	-	-	1,367
County Landfill	-	-	-	-	-	32,185	32,185
	\$ 42,218	\$ 1,367	\$ 647,219	\$ 602,610	\$ 500,068	\$ 32,185	\$ 1,825,667

**Advances to/from Other Funds**

The Capital Development Fund has provided an advance to the County Landfill Fund for the construction of a new cell at a fixed 2.00% interest rate, due in semiannual payments beginning July 2022 continuing through 2034. As of June 30, 2025, the balance of the advance to/from other funds is \$500,068. The amount paid related to this for the year ended June 30, 2025 was \$185,414.

**Interfund Transfers**

Transfers are used to (1) move revenues from the fund that statute or budgets requires to collect them to the fund that statute or budgets require to expend them, (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and (3) to support regular reoccurring internal charges, such as administration fees and insurance costs.

The following interfund transfers occurred during the year ended June 30, 2025

	Transfer In			
	General	Public Safety	Other Grants	Capital Development
Transfer out				
General Fund	\$ -	\$ 58,081	\$ -	\$ 943,371

## Note 15 - Net Position/Fund Balances

### Net Investment in Capital Assets

The amounts comprising the County's net investment in capital assets on the government-wide statement of net position are as follows:

	Governmental Activities	Business-Type Activities
Capital Assets, Net of Accumulated Depreciation/Amortization	\$ 61,689,039	\$ 11,763,796
Capital Related Debt	<u>(10,104,588)</u>	<u>-</u>
Net Investment in Capital Assets	<u>\$ 51,584,451</u>	<u>\$ 11,763,796</u>

The amounts comprising the County's net investment in capital assets in the enterprise funds statement of net position are as follows:

	Fairground	County Landfill	Nonmajor Enterprise Funds
Capital Assets, Net of Accumulated Depreciation/Amortization	\$ 6,469,746	\$ 5,117,198	\$ 176,852

### Fund Balances

The County classified fund balances within the governmental funds are as follows at June 30, 2025:

	General Fund	Public Safety	Other Grants	Special Assessment Districts	Rural Special Improvement Districts Debt	Capital Development	RID Projects	Other Governmental Funds	Total
<b>Fund Balances</b>									
<b>Nonspendable</b>									
Inventories	\$ 219,699	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 319,209	\$ 538,908

**Note 16 - Restatement**

**Change within the Reporting Entity**

During fiscal year 2025, there was a change within the financial reporting entity which resulted in the RID Projects Fund being reported as a major fund instead of as a nonmajor fund. As a result, deficit fund balance of the RID Projects Fund of \$225,254 which was previously reported in the nonmajor funds is now reported as a major fund with a beginning deficit fund balance of \$225,254. This resulted in adjustments to and restatements of beginning fund balance to nonmajor funds as follows:

	July 1, 2024, As Previously Reported	Change to or within the Financial Reporting Entity	July 1, 2024, As Restated
Governmental Funds			
Major Funds			
RID Projects	N/A	\$ (225,254)	\$ (225,254)
Nonmajor Funds	16,218,653	225,254	16,443,907

**Note 17 - Deferred Compensation Plan**

The County offers employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is available to all County employees and permits them to defer a portion of their salary until future years. In fiscal year 2007, the County changed the plan provider to Great-West Retirement Services, hereafter referred to as Great-West. Great-West was purchased by and is doing business under the name Empower Retirement Services.

The deferred compensation is not available to employees until termination, retirement, death or an unforeseen emergency. The plans operate according to the requirements set forth under Internal Revenue Code Section 457. Under those requirements, all amounts of compensation deferred under the plan, all property rights purchased with those amounts, and all income attributable to those amounts, property, or rights are held in trust for the exclusive benefit of the participants and their beneficiaries, rather than for the County. A fiduciary relationship does not exist between the County and Empower Retirement Services; therefore, the County has elected to not report the balances and activities of the plans in its financial statements.

**Note 18 - On-Behalf Payments for Salaries and Benefits**

GASB 24 *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance* requires the County to report in the financial statements on-behalf salary and fringe benefit payments. The State of Montana makes salary payments directly to the County Attorney. The State of Montana does not contribute to fringe benefits, as the County pays the full cost. The basis for recognizing the revenue and expenditure payments is the actual contribution made by the State. For fiscal year 2025, the State contributed \$80,860 toward the annual salary of \$153,437. These amounts are reflected in the general fund of the County.

**Note 19 - Risk Management**

The County faces a considerable number of risks of loss, including (a) damage to and loss of property and contents; (b) employees' torts; (c) professional liability, i.e., employee injuries; and (d) medical insurance costs of employees. Commercial policies transferring all risks of loss, except for relatively small deductible amounts are purchased for property and content damage, employee torts, and professional liabilities. The County participated in a state-wide public risk pool operated by the Montana Association of Counties for tort liability coverage. Employee medical insurance is provided through a privately administered, partially self-insured plan. Given the lack of coverage available, the County has no coverage for potential losses from environmental damages. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The County has joined with other Montana employers to form a self-insurance pool offering workers' compensation coverage. This pool, named Montana State Fund, provides claim administrative services. Premiums paid to Montana State Fund amounted to \$392,047 for the fiscal year.

The County has joined with other Montana counties to form a self-insurance pool offering liability and general insurance coverage. This pool, named the Montana Association of Counties Joint Powers Insurance Authority Trust, provides for property, liability, public officials' errors and omissions, and crime coverage. The county has a \$10,000 deductible per occurrence. Claims over \$10,000 are covered by the pool. The Trust also provides for additional coverage for the above areas through excess insurance lines for varying amounts. Premiums paid to the Trust for fiscal year 2025 amounted to \$1,399,679.

Audited financial statements for the fiscal year ended June 30, 2025, are available from the Montana Association of Counties Joint Powers Insurance Authority.

Members of the public risk pools may be subject to supplemental assessments in the event of deficiencies. They are also responsible for their own claim liabilities in the event the pool fails.

**Note 20 - Conduit Debt**

The County has authorized the issuance of certain bonds in its name to provide tax exempt status because it perceives a substantial public benefit will be achieved through the use of proceeds. The following describes the various types of such third-party debt.

Higher Education Revenue Note – These notes have been issued on behalf of Carroll College, to finance construction of various buildings and improvements, including installation of energy efficiency improvements to various buildings and facilities on the Carroll College campus.

Family Services Provider Revenue Bonds – These bonds have been issued on behalf of Montana Advocacy Program, Inc., to finance the acquisition and remodeling of a building to provide office space for the corporation.

As of June 30, 2025, the status of all third-party debt issued is:

	Balance July 1, 2024	Additions	Reductions	Balance June 30, 2025
Higher Education Revenue Bond - Carroll College	\$ 5,708,827	\$ -	\$ 616,134	\$ 5,092,693
Higher Education Revenue Bond - Carroll College	3,968,953	-	415,602	3,553,351
Family Services Provider Revenue Bonds	288,409	-	101,233	187,176
	<u>\$ 9,966,189</u>	<u>\$ -</u>	<u>\$ 1,132,969</u>	<u>\$ 8,833,220</u>

These bonds do not constitute an indebtedness of the County. The debt is payable solely from the funds and assets pledged by the ultimate borrower stipulated in the loan agreements. In the opinion of County officials, this debt is not payable from any revenues or assets of the County, and neither, the full faith and credit of the taxing authority of the County, the State or any political subdivision thereof is obligated to the payment of principal or interest on the bonds.

**Note 21 - Joint Venture Agreements**

Joint ventures are legal entities or other organizations that result in a contractual arrangement and that are owned, operated, or governed by two or more participants. Each participant retains both an ongoing financial interest and an ongoing financial responsibility. As of June 30, 2025, the County has entered into the following joint venture contractual arrangements:

**Lewis and Clark Library**

In 1974, the County entered into an interlocal Library contract with the City of Helena to create the Lewis and Clark Library located within the City of Helena. The five-member Board of Trustees consists of two members appointed by each government and one member appointed jointly. Upon dissolution, the County has a 50 percent share in the net position of the Library.

Financial statements of the Lewis and Clark Library are available from the Administrative Office, 120 South Last Chance Gulch Helena, Montana, 59601.

**Note 22 - Related Organizations**

The following fall into the category of “related organizations” as defined by the GASB.

- Helena Airport Authority – For this entity, the BOCC appoints the majority of the board of directors, but cannot impose their will on the organization, nor does the County derive any benefit or burden from this organization.
- Lewis and Clark Library (Library) – The Library was formed in 1974 by an Interlocal Library Contract executed by the County and the City of Helena. The County and the City each appoint two members to the Library Board of Trustees while the fifth member is jointly appointed by the City and County Commissions. The Library is funded through fees and tax levies collected by the County. The County cannot impose their will on the organization, nor does the County derive any benefit or burden from this organization.

**Note 23 - Commitments and Contingencies**

Various claims and lawsuits involving the County can be pending at any given time. These claims are either covered by insurance or are the types which are normal in County operations and do not present any material risk of financial disruption. County management believes that the total amount of liability, if any, which may arise from such claims and lawsuits beyond that which is covered by insurance would not have a material effect on the County's financial condition or its ability to carry out its activities.

**Construction Commitments**

The County has various active construction projects as of June 30, 2025. At year-end, the government’s commitments with contractors are as follows:

<u>Project Title</u>	<u>Construction Committed</u>	<u>Fund Type</u>
Public Works Road Maintenance	\$ 1,183,450	Major governmental
Public Works Road Maintenance	1,544,403	Non-major governmental
Public Works Various Projects	105,400	Major governmental
Public Works Truck Assembly	18,945	Major governmental
Public Works Weed/Pest Control	250,350	Non-major governmental
Public Works Buildings	457,596	Non-major governmental
Public Works Bridge Projects	677,279	Non-major governmental
Public Works Landfill Expansion	10,156	Major enterprise
	<u>\$ 4,247,579</u>	

**Grant Contingencies**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

Project Title	Contract Committed
CDBG - Public Facilities	\$ 396,160
EECBG - LED Upgrade	76,220
SHSP - Courthouse Security	121,350
Trinity School Water/Sewer Upgrades	75,000
Eastgate Well Replacement	253,579
La Casa Well Replacement	88,500
Total	\$ 1,010,809

**Legal Contingencies**

The County is party to many legal proceedings. The legal proceedings are not, in the opinion of the County's legal counsel, likely to have a material adverse impact (more than \$30,000) on the County's financial position or liquidity, except as listed below.

Case Number	Nature of Litigation	Progress to Date	Management Response	Chance of Unfavorable Outcome	Demand or Potential of Loss
DDV 2020-741	MACO Defense and/or Indemnity Coverage	In litigation	Defend	Unknown	\$ 5,200,000
DD 2020-739	Declaratory Judgment	In litigation	Defend	Unknown	\$ 5,200,000 (Consolidated with 2020-741)

#### **Note 24 - Tax Abatements**

The County enters into property tax abatement agreements on an individual basis with businesses and individuals under the MCA, Title 15, Taxation. Currently, the County has agreements to abate property taxes under the following sections of the code:

- 15-24-1402. New or expanding industry - Localities may grant property tax abatements to businesses with qualifying improvements or modernized processes that represent new industry or expansion of an existing industry. In the first 5 years after a construction permit is issued, a business' property is taxed at 50 percent of taxable value with equal percentage increases taxed until the full taxable value is attained in the 10th year. In subsequent years, the property is taxed at 100 percent of its taxable value (MCA 15-10-420).
- 15-24-1501. Remodeling of Buildings or Structures - Property tax abatements may be granted for remodeling, reconstruction, or expansion of commercial property where taxable value of the structure is increased by at least 2.5%. A property tax exemption may be received during the construction period, and for up to 5 years following completion of construction.
- 15-24-1502. Remodeling of Buildings or Structures - Property tax abatements may be granted for remodeling, reconstruction, or expansion of commercial property where taxable value of the structure is increased by at least 5%. A property tax exemption may be received during the construction period (not to exceed 12 months), and for up to 5 years following completion of construction. Buildings and structures may also receive a reduction for 4 years following the exemption period.
- 15-24-1603. Historic Properties - Property tax abatements may be granted to owners of historic property undergoing rehabilitation, restoration, or expansion that meets specific criteria as described in MCA 15-24-1605 or 15-24-1606. Abatements may apply during the construction period (not to exceed 12 months), and for up to 5 years following completion of the construction.

For the fiscal year ended June 30, 2025, the County abated property taxes totaling \$21,782 for qualifying businesses and individuals.

The County has not made any commitments as part of the agreements other than to reduce taxes and is not subject to any tax abatement agreements entered into by other governmental entities. The County has chosen to disclose information about its tax abatement agreements in the aggregate.

**Notes to the Schedule of Employer's Share of Net Pension Liability and Schedule of Employer's Contributions**

**PERS**

**2017 Legislative Changes**

*Working Retiree Limitations*

Effective July 1, 2017, if a PERS retiree returns as an independent contractor to what would otherwise be PERS-covered employment, general contractor overhead costs are excluded from PERS working retiree limitations.

*Refunds*

- 1) Terminating members eligible to retire may, in lieu of receiving a monthly retirement benefit, refund their accumulated contributions in a lump sum.
- 2) Terminating members with accumulated contributions between \$200 and \$1,000 who wish to rollover their refund must do so within 90 days of termination of service.
- 3) Trusts, estates, and charitable organizations listed as beneficiaries are entitled to receive only a lump-sum payment.

*Lump-Sum Payouts*

Effective July 1, 2017, lump-sum payouts in all systems are limited to the member's accumulated contributions rate than the present value of the member's benefit.

*Disabled PERS Defined Contribution (DC) Members*

PERS members hired after July 1, 2011 have a normal retirement age of 65. PERS DC members hired after July 1, 2011 who became disabled were previously only eligible for a disability benefit until age 65. Effective July 1, 2017, these individuals will be eligible for a disability benefit until they reach 70, thus ensuring the same 5-year time period available to PERS DC disabled members hired prior to July 1, 2011 who have a normal retirement age of 60 and are eligible for a disability benefit until age 65.

**SRS**

**2017 Legislative Changes**

*Increase in SRS Employee and Employer Contributions, effective July 1, 2017:*

- SRS employee contributions increase 1.25% from 9.245% to 10.495%.
- SRS employer additional contributions increase 3%, from 0.58% to 3.58%, for a total employer contributions rate of 13.115%.
- SRS employee contributions will return to 9.245% and SRS employer contributions will return to 9.535% when reducing the employee contribution and terminating the additional employer contributions will not cause the amortization period to exceed 25 years.

### *Second Retirement Benefit*

Applies to retirement system members who return on or after July 1, 2017 to active service covered by the system from which they retired.

- If the member works more than 480 hours in a calendar year and accumulates less than 5 years of service credit before terminating again, the member:
  - Is not awarded service credit for the period of reemployment;
  - Is refunded the accumulated contributions associated with the period of reemployment;
  - Starting the first month following termination of service, receives the same retirement benefit previously paid to the member; and
  - Does not accrue post-retirement benefit adjustments during the term of reemployment but receives a Guaranteed Annual Benefit Adjustment (GABA) in January immediately following second retirement.
- If the member works more than 480 hours in a calendar year and accumulates at least 5 years of service credit before terminating again, the member:
  - Is awarded service credit for the period of reemployment;
  - Starting the first month following termination of service, receives:
    - The same retirement benefit previously paid to the member, and
    - A second retirement benefit for the period of reemployment calculated based on the laws in effect as of the member's rehire date; and
  - Does not accrue post-retirement benefit adjustments during the term of reemployment but receives a GABA:
    - On the initial retirement benefit in January immediately following second retirement, and
    - On the second retirement benefit starting in January after receiving that benefit for at least 12 months.
- A member who returns to covered service is not eligible for a disability benefit

### *Refunds*

Terminating members eligible to retire may, in lieu of receiving a monthly retirement benefit, refund their accumulated contributions in a lump sum.

Terminating members with accumulated contributions between \$200 and \$1,000 who wish to rollover their refund must do so within 90 days of termination of service.

Trusts, estates, and charitable organizations listed as beneficiaries are entitled to receive only a lump-sum payment.

### *Lump-Sum Payouts*

Effective July 1, 2017, lump-sum payouts in all systems are limited to the member's accumulated contributions rate than the present value of the member's benefit.

**2023 Legislative Changes**

*Retirement Eligibility*

Effective July 1, 2023, the retirement eligibility criteria in SRS for new hires first entering the system changes from 20 years of service at any age to age 50 and 20 years of service. This change had no impact on the TPL.

**2024 Legislative Changes**

*Employer Contribution Rate*

Beginning July 1, 2024, contribution rates are actuarially determined based on the funding valuation one year prior.

**Method and Assumptions used in Calculations of Actuarially Determined Contributions**

Actuarially determined contributions are determined on the valuation date payable in the fiscal year beginning immediately following the valuation date. The following actuarial assumptions and methods were used to determine contribution rates reported for fiscal year ending June 30, 2023, which were based on the results of the June 30, 2022 actuarial valuation:

	PERS	SRS
General Wage Growth*	3.50%	3.50%
Investment Rate of Return*	7.30%, net of pension plan investment and administrative expenses	7.30%, net of pension plan investment and administrative expenses
*Includes inflation at	2.75%	2.75%
Merit salary increase	0% to 4.80%	0% to 6.40%
Asset valuation method	Four-year smoothed market	Four-year smoothed market
Actuarial cost method	Entry age Normal	Entry Age Normal
Amortization method	Level percentage of payroll, open	Level percentage of pay, open
Remaining amortization period	30 years	
Mortality (active participants)	PUB-2010 General Amount Weighted Employee Mortality projected to 2021 for males and females, projected generationally using MP-2021	PUB-2010 Safety Amount Weighted Employee Mortality projected to 2021 for males and females, projected generationally using MP-2021

Lewis and Clark County, Montana

Notes to the Schedule of Employer’s Share of Net Pension Liability and Schedule of Employer’s Contributions  
 Montana Public Employees Retirement System Pension Plan  
 June 30, 2025

	PERS	SRS
Mortality (Disabled retirees)	PUB-2010 General Amount Weighted Disabled Retiree mortality table, projected to 2021, set forward one year for both males and females	PUB-2010 Safety Amount Weighted Disabled Retiree Mortality table projected to 2021, set forward one year for males
Mortality (Contingent survivors)	PUB-2010 General Amount Weighted Contingent Survivor Mortality projected to 2021 with ages set forward one year for males and females, projected generationally using MP-2021	PUB-2010 Safety Amount Weighted Contingent Survivor Mortality projected to 2021, set forward one year for males, projected generationally using MP-2021
Mortality (healthy retirees)	PUB-2010 General Amount Weighted Healthy Retiree mortality table projected to 2021, with ages set forward one year and adjusted 104% for males and 103% for females, projected generationally using MP-2021	PUB-2010 Safety Amount Weighted Healthy Retiree Mortality table projected to 2021, set forward one year and adjusted 105% for males and 100% for females, projected generationally using MP-2021

The actuarial assumptions and methods utilized in the June 30, 2023 valuation, were developed in the five-year experience study for the period ending 2021.

**Notes to the Schedule of Employer's Share of Net Pension Liability and Schedule of Employer's Contributions****Changes of Benefit Terms**

There have been no material changes of benefit terms in the past ten years.

**Changes in actuarial assumptions and other inputs:**

The following changes to the actuarial assumptions were adopted in 2022:

- The discount rate was increased from 7.06% to 7.30%.
- The investment rate of return assumption was increased from 7.06% to 7.30%.
- The inflation rate was increased from 2.40% to 2.75%.
- Updated all mortality tables to the PUB-2010 tables for teachers.
- Updated the rates of retirement and termination.
- Updated the salary scale merit rates.

The following changes to the actuarial assumptions were adopted in 2021:

- The discount rate was lowered from 7.34% to 7.06%.
- The investment rate of return assumption was lowered from 7.34% to 7.06%.

The following changes to the actuarial assumptions were adopted in 2020:

- The discount rate was lowered from 7.50% to 7.34%.
- The investment rate of return assumption was lowered from 7.50% to 7.34%.
- The inflation rate was reduced from 2.50% to 2.40%.

The following changes to the actuarial assumptions were adopted in 2019:

- The Guaranteed Annual Benefit Adjustment (GABA) for Tier Two members is a variable rate between 0.50% and 1.50% as determined by the Board. Since an increase in the amount of the GABA is not automatic and must be approved by the Board, the assumed increase was lowered from 1.50% to the current rate of 0.50% per annum.

The following changes to the actuarial assumptions were adopted in 2018:

- Assumed rate of inflation was reduced from 3.25% to 2.50%.
- Payroll growth assumption was reduced from 4.00% to 3.25%.
- Investment return assumption was reduced from 7.75% to 7.50%.
- Wage growth assumption was reduced from 4.00% to 3.25%.
- Mortality among contributing members, service retired members, and beneficiaries was updated to the following:
  - For Males and Females: RP-2000 Healthy Combined Mortality Table projected to 2022 adjusted for partial credibility setback for two years.
  - The tables include margins for mortality improvement which is expected to occur in the future.

- Mortality among disabled members was updated to the following:
  - For Males: RP 2000 Disabled Mortality Table, set back three years, with mortality improvements projected by Scale BB to 2022.
  - For Females: RP 2000 Disabled Mortality Table, set forward two years, with mortality improvements projected by Scale BB to 2022.
- Retirement rates were updated.
- Termination rates were updated.
- Rates of salary increases were updated.

The following changes to the actuarial assumptions were adopted in 2016:

- The normal cost method has been updated to align the calculation of the projected compensation and the total present value of plan benefits so that the normal cost rate reflects the most appropriate allocation of plan costs over future compensation.

The following changes to the actuarial assumptions were adopted in 2015:

- Correctly reflect the proportion of members that are assumed to take a refund of contributions upon termination and appropriately reflect the three-year COLA deferral period for Tier 2 Members.
- The 0.63% load applied to the projected retirement benefits of the university members "to account for larger than average annual compensation increases observed in the years immediately preceding retirement" is not applied to benefits expected to be paid to university members on account of death, disability and termination (prior to retirement eligibility).
- The actuarial valuation was updated to reflect the assumed rate of retirement for university members at age 60 of 8.50% as stated in the actuarial valuation report.
- The actuarial valuation was updated to reflect the fact that vested terminations are only covered by the \$500 death benefit for the one year following their termination and once again when the terminated member commences their deferred retirement annuity (they are not covered during the deferral period). Additionally, only the portion of the terminated members that are assumed to "retain membership in the System" are covered by the \$500 death benefit after termination.

The following changes to the actuarial assumptions were adopted in 2014:

- Assumed rate of inflation was reduced from 3.50% to 3.25%.
- Payroll growth assumption was reduced from 4.50% to 4.00%.
- Assumed real wage growth was reduced from 1.00% to 0.75%.
- Investment return assumption was changed from net of investment and administrative expenses to net of investment expenses only.
- Mortality among contributing members, service retired members, and beneficiaries was updated to the following:
  - For Males: RP 2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP 2000 Combined Healthy Annuitant Mortality Table for ages below 50, set back four years, with mortality improvements projected by Scale BB to 2018.
  - For Females: RP 2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP 2000 Combined Healthy Annuitant Mortality Table for ages below 50, set back two years, with mortality improvements projected by Scale BB to 2018.

- Mortality among disabled members was updated to the following:
- For Males: RP 2000 Disabled Mortality Table for Males, set forward one year, with mortality improvements projected by Scale BB to 2018.
- For Females: RP 2000 Disabled Mortality Table for Females, set forward five years, with mortality improvements projected by Scale BB to 2018.

**Method and assumptions used in calculations of actuarially determined contributions:**

Actuarial cost method	Entry age
Amortization method	Level percentage of pay, open
Remaining amortization period	24 years
Asset valuation method	4-year smoothed market
Inflation	2.75 percent
Salary increase	3.50 to 9.00 percent, including inflation for Non-University Members and 4.25% for University Members
Investment rate of return	7.30 percent, net of pension plan investment expense, including inflation

### **Special Revenue Funds**

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

Health Related Grants – Used to account for the receipts and expenditures of federal grants and other revenues related to further the health of County residents, including the following programs: Lead Education and Abatement Grant, Resource Conservation & Recovery Act, Junk Vehicle Program, License Establishment Inspection, Lake Helena WRP, Upper Ten Mile Mining Area Superfund Cooperative Agreement, Water Quality PD Re-watering and Gage Donation Program, Asthma Home Visiting Program, Chronic Disease Prevention & Health Promotion, Consented Referral System, Early Childhood Intervention Services, WIC, MCH Block Grant, MIECHV Infrastructure Development Grant, WIC Peer Breastfeeding, EPA Air Quality, Healthy Montana Families, HIV Prevention Services, Case Management - Low Birth Weight, Emergency Preparedness, COVID Response, and COVID-19 Vaccination Outreach.

Craig Mosquito Control – Used to account for the receipt of property tax revenues and related expenditures to spray and control mosquitoes in the Craig area.

Mosquito Control – Used to account for the receipt of property tax revenues and related expenditures to spray and control mosquitoes.

Water Quality – Used to account for the receipt of property tax revenues and related expenditures for the testing and monitoring of wells and other water storage areas in the County.

Mental Health – Used to account for the receipt of property tax revenues and related expenditures to provide mental health services to County residents.

Road – Used to account for the receipt of property tax revenues and related expenditures for the maintenance of roads within the County.

Predatory Animal Control – Used to account for the receipt of a per license fee on sheep revenues and related expenditures for the purpose of paying bounties on predatory animals killed within the County.

Cattle Protection Program – Used to account for the receipt of a per license fee on cattle and related expenditures for the purpose of paying bounties on predatory animals killed within the County.

District Court – Used to account for the receipt of property tax revenues and related expenditures for the operation of the County District Court.

Search & Rescue Operations – Used to account for the receipt of property tax revenues and related expenditures for operating, equipping, and debt service funding related to new construction of a search & rescue facility.

Parks – Used to account for the receipt of property tax revenues and related expenditures for operating, equipping, and maintaining parks within the County.

Permissive Medical – Used to account for the receipt of property tax revenue to be used for the payment of health insurance.

Forestvale Cemetery – Used to account for the receipt of property tax revenues and related expenditures for the operation and maintenance of the Forestvale Cemetery.

Planning – Used to account for the receipt of property tax revenues and other resources and related expenditures for the purpose of reviewing land use proposals to ensure compliance with the County’s Comprehensive Plan, subdivision regulations and zoning regulations.

Emergency Disaster – Used to account for the expenditures and receipt of property tax assessments and federal revenues dedicated to the cost for reconstruction and flood mitigation.

County Health – Used to account for the receipt of property tax revenues and other resources and related expenditures for the administration of County health and environmental programs.

Senior Citizens – Used to account for the receipt of property tax revenues and related expenditures dedicated to the promotion of recreational, educational, and other activities for senior citizens.

County Extension – Used to account for the receipt of property tax revenues and related expenditures for the purpose of carrying on extension work in agriculture and home economics within the County in cooperation with Montana State University and the Department of Agriculture.

Detention & Diversion Services – Used to account for the receipt of property tax revenues and related expenditures for operations associated with Detention and Diversion Services.

Public Safety Radio Project – Used to account for the receipt of federal monies and related expenditures for the purpose of maintaining numerous radio tower sites within the County.

Inmate Programs – Used to account for the cost of medical care of County prisoners.

Parks Development – Used to account for the receipt of funds dedicated for the purpose of future development of specified parks.

Lincoln Parks – Used to account for the receipt of funds dedicated for the purpose of maintaining and improving the parks in Lincoln.

Records Preservation – Used to account for the receipt of fees and related expenditures dedicated to the preservation of records maintained in the County Clerk and Recorder’s Office.

DUI Programs – Used to account for the receipt of state funding and related expenditures for the purpose of processing DUI convictions and also used for educating the public on the dangers of driving under the influence.

City/County Drug – Used to account for the receipt of fines and forfeitures and related expenditures for the purpose of disrupting the illicit drug traffic in the City of Helena and the County.

Missouri River Drug Task Force – Used to account for the receipt of federal funding and related expenditures for the purpose of disrupting the illicit drug traffic in the participating jurisdictions by gathering and reporting intelligence data relating to trafficking in narcotics and dangerous drugs.

MRDTF Federal Sharing – Used to account for the receipt of federal funding and related expenditures of federal drug enforcement activities.

Hard Rock Mine Reserve – Used to account for the receipt of state license tax monies on metalliferous mines to mitigate the effects of the closure of mine operations.

Wolf Creek Wastewater Facilities Maintenance – Used to accumulate funds for the construction, maintenance, and operations of a wastewater treatment system for the Wolf Creek area.

Craig Wastewater Facilities Maintenance – Used to accumulate funds for the construction, maintenance, and operations of a wastewater treatment system for the Craig Resort area.

Craig Training Center Maintenance – Used to accumulate funds to be used for the maintenance of the Craig Training Center Facility.

Septic Maintenance Revolving Loans – Used to account for principal and interest repayments from loans to applicants to upgrade and/or fix their septic systems that were originally paid by a grant from the EPA. Expenses in this fund are disbursements for new loans to applicants.

Open Space – Used to account for the receipt of bond revenue to be used to acquire conservation easements in the County to provide open space access.

Road Improvement - Subdivision – Used to account for the receipt of revenue to be used to improve County roads impacted by specific new subdivisions.

Alcoholism – Used to account for the receipt of state monies and related expenditures for the treatment and prevention of alcoholism within the County.

Gas Tax – Used to account for the receipt of gas tax apportionment monies and related expenditures dedicated for the repair and construction of roads within the County.

Gas Tax Special Road Program – Used to account for the receipt of gas tax apportionment monies and related expenditures reported under the Bridge and Road Safety and Accountability Act.

HIDTA – Used to account for the receipt of federal funding and related expenditures for the purpose of federal drug investigation.

Justice Assistance Grant (JAG) – Used to account for the receipt of federal funding and related expenditures for the purpose of increasing law enforcement services.

Noxious Weed Grant – Used to account for the receipt of federal funding and related expenditures for the purpose of controlling and eliminating noxious weeds.

Homeland Security Grant – Used to account for the receipt of federal funding and related expenditures for the purpose of homeland security.

Forestvale Endowment Fund – Used to account for income and disbursements of donations made to the Forestvale Cemetery endowment account.

### **Debt Service Funds**

The Debt Service Funds account for the accumulation of property taxes and other revenues for the periodic payment of interest and principal of general obligation and certain special improvement district bonds or warrants and related servicing costs. The following is a list of non-major debt service funds.

City/County Building Debt – Used to account for the receipt of revenues to be used for the periodic payment of principal and interest on the State Board of Investment’s loan to finance construction and improvement projects for the City/County Building.

Open Space Debt – Used to account for the receipt of property tax revenues for the periodic payment of principal and interest on general obligation bonds issued to finance the Open Space Bonds.

RSID Revolving Debt – This fund is used to accumulate revenues from assessments collected on the property tax bills. It is used for periodic payments of principal and interest of special improvement districts debt.

Search & Rescue Building Debt – Used to account for the receipt of property tax revenues for the periodic payment of principal and interest on the State Board of Investment’s loan to finance the construction of the Search & Rescue Building.

Detention Center Debt – Used to account for the receipt of property tax revenues for the periodic payment of principal and interest on general obligation bonds issued to finance the Detention Center remodel.

### **Capital Project Funds**

Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed in proprietary fund types.

Road/Bridge Infrastructure Projects – Used to account for the expenditures associated with road/bridge infrastructure projects.

### **Permanent Funds**

Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for the purposes that support the reporting government’s programs.

Forestvale Perpetual Care - Used to account for principal trust amounts received and related to interest income. The interest portion of the trust can be used to maintain the County cemetery.

The enterprise funds account for the operations that are financed and operated in a manner similar to private business enterprises where the intent of the County is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges, or where the County has decided that periodic determination of the revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or for other purposes.

The County operates the following nonmajor enterprise funds:

Augusta Solid Waste District - Used to account for the receipt of property tax assessments and other resources and related expenses for the operation a solid waste district in Augusta.

Lincoln Solid Waste District - Used to account for the receipt of property tax assessments and other resources and related expenses for the operation of a solid waste district in Lincoln.

Scratchgravel Solid Waste District - Used to account for the receipt of property tax assessments, user charges and other resources and related expenses for the operation of the Scratchgravel Solid Waste District.

Marysville Solid Waste Sub-District - Used to account for the receipt of property tax assessments and other resources and related expenses for the operation of the solid waste sub-district in Marysville.

Internal Service Funds are used to account for the goods or services provided by one department to other departments of the County on a cost-reimbursement basis.

Building Maintenance Services - Used to account for all maintenance on County buildings. Each department is billed on a per unit basis to recover operating costs.

Health Care Facilities - Used to account for all rental revenue and maintenance expense on the County Health Building.

County Shop - Used to account for the County shop, which maintains all County vehicles and bills each department based upon vehicle part and equipment charges and the number of maintenance hours spent on each vehicle.

Fuel Revolving - Used to account for the purchase and maintenance of gasoline. Each department is billed on a per unit basis to recover operating costs.

Information Technology & Services - Used to account for the purchase, maintenance and operation of all information technology services, such as network, geographical information systems, the AS-400 system and technology training for the County and the City of Helena. The source of funding for this department is based upon a fee for service charged to the various departments.

Liability Insurance - Used to account for liability insurance claims.

Health Insurance - Used to account for the major medical coverage, dental, vision, life insurance and employee assistance claims. Each department is charged on a per employee basis to recover the costs.

Custodial funds are used to account for assets held by the County as an agent for individuals, private organizations, and other governments. Custodial funds are used to report fiduciary activities that are not required to be reported in pension (or other employee benefit) trust funds, investment trust funds, or private-purpose trust funds.

The County has the following custodial funds:

Specific

Lewis & Clark Library	Coroner Trust
Fairgrounds Users Foundation	Estate Administration
Sheriff's Commissary	Clerk of District Court
Sheriff's Civil Trust	Restitution
Tax Deed Land	Subdivision Improvement Agreement

Special Districts – consists of amounts collected on behalf of and remitted to the following special districts:

Augusta Fire District	Augusta Rural Fire Service Area
Eastgate Fire District	Montana City Fire
Baxendale Fire	Tri-Lakes Fire Service Area
East Helena Valley Fire	Helena Valley Irrigation
Birdseye Fire	Augusta Cemetery
Wolf Creek/Craig Fire	Conservation District
York Fire Service Area	LaCasa Grande Water District
Canyon Creek Fire	Wolf Creek Water/Sewer District
Dearborn Fire Service	Lincoln Hospital District
Lincoln Fire	Ten Mile/Pleasant Valley Sewer District
West Valley Fire Rescue	East Clark Street Sewer District
Marysville Fire District	Lincoln Cemetery

Schools – consists of amounts collected on behalf of and remitted to the following school districts:

Helena Elem. School District #1	Lincoln School District #38
Helena High School District #1	Augusta Elem. School District #45
Canyon Creek School District #4	Augusta High School District #45
Prickly Pear Cooperative	County-wide School Transportation
East Helena School District #9	County-wide Elementary Retirement
Wolf Creek School District #13	County-wide High Retirement
Auchard Creek School District #27	

Cities – consists of amounts collected on behalf of and remitted to the following cities:

City of Helena	City of East Helena

Statistical Section

Year Ended June 30, 2025

# Lewis and Clark County, Montana

This part of the County's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

Financial Trends – These schedules contain trend information to help the reader understand and assess how the government's financial position has changed over time.

Revenue Capacity– These schedules contain information to assist the reader in understanding and assessing the factors affecting the government's ability to generate its own-source revenues.

Debt Capacity– These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information – These schedules offer demographic and economic information to (1) assist the reader in understanding the socioeconomic environment within which a government operates and (2) provide information that facilitates comparisons of financial statement information over time and among governments.

Operating Information – These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

*Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.*

Property Tax Levy by Mills - Fiscal Year 2025

Note: Overlapping rates are those that apply to property owners within Lewis & Clark County. Not all overlapping rates apply to all County property owners (e.g., the rates for special districts apply only to the proportion of the government's property owners whose property is located within the boundaries of the special district).

Source and other information:

\* From Lewis & Clark County Finance Department budget documents - "Tax Revenues".

\*\* Removed Entitlement Levy Tax from totals, not part of governmental fund types.

\*\*\* 2020 implementation of GASB84 will cause variance from prior fiscal year.

Comparison of Total Tax Levy and Total Collections to Date

Note:

Total collections to date may be more or less than total tax levy, due to the recalculation of tax bills related to the incorrect taxable value being placed on a property. The tax bills are recalculated on an on going basis. This changes the total taxable value for a certain tax year. Since the levy is calculated from the taxable value it is possible to collect more or less revenue for property taxes than the original levy was estimated. Thus it is possible to exceed 100% in collections of the levy.

2020 implementation of GASB84 caused variance in total tax levy for fiscal year from prior years.

Lewis and Clark County, Montana  
 Taxable Value of Open Space  
 Last Ten Fiscal Years  
 (Amounts expressed in thousands)

---

Fiscal Year Ended June 30,	Open Space Taxable Valuation*
2025	\$ 209,562
2024	207,332
2023	164,365
2022	160,724
2021	148,442
2020	144,950
2019	135,533
2018	133,444
2017	125,988
2016	121,275

\* Taxable value represents the value after applicable tax rates are applied to assessed value. The applicable mill levy rates are then applied to the taxable value of taxable property to determine tax revenue. The taxable valuation presented excludes incremental valuations for tax increment financing districts with the County.

Federal Awards Reports in Accordance  
with the Uniform Guidance  
June 30, 2025

**Lewis and Clark County, Montana**

**Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

To the Board of County Commissioners  
Lewis and Clark County, Montana  
Helena, Montana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lewis and Clark County (“the County”), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the County’s basic financial statements and have issued our report thereon dated March 12, 2026.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County’s internal control. Accordingly, we do not express an opinion on the effectiveness of the County’s internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County’s financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We identified certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as items 2025-001 and 2025-002 that we consider to be material weaknesses.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **County's Response to Findings**

Government Auditing Standards requires the auditor to perform limited procedures on the County's response to the finding identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs. The County's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Billings, Montana  
March 12, 2026

**Independent Auditor’s Report on Compliance for the Major Federal Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

To the Board of County Commissioners  
Lewis and Clark County, Montana  
Helena, Montana

**Report on Compliance for the Major Federal Program**

***Opinion on the Major Federal Program***

We have audited Lewis and Clark County’s (“the County”) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the County’s major federal programs for the year ended June 30, 2025. The County’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

In our opinion, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

***Basis for Opinion on the Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the County’s compliance with the compliance requirements referred to above.

### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the County's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a significant deficiency.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2025-003 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

*Government Auditing Standards* requires the auditor to perform limited procedures on the County's response to the internal control over compliance finding identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Total Federal Financial Assistance				<u>\$ 8,335,554</u>
				<u>\$ 1,067,693</u>

**Note 1 - Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of the Lewis and Clark County, Montana, ("the County") under programs of the federal government for the year ended June 30, 2025. The information is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position or fund balance, or cash flows of the County.

**Note 2 - Significant Accounting Policies**

Expenditures reported in the Schedule are reported on the cash basis of accounting. When applicable, such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

**Note 3 - Indirect Cost Rate**

The County has not elected to use the 10% de minimus cost rate.

**Note 4 - Other Information**

The \$93,048 reported for Federal Financial Assistance Listing No. 10.665, Schools and Roads – Grants to States, represents 66 2/3 percent of the total amount of \$139,572 received by the County. The remaining 33 1/3 percent was distributed directly to the countywide school levy funds as required by state statute and was not recorded by the County.

**Section I – Summary of Auditor’s Results**

**FINANCIAL STATEMENTS**

Type of auditor's report issued:	Unmodified
Internal control over financial reporting:	
Material weaknesses identified	Yes
Significant deficiencies identified not considered to be material weaknesses	None reported
Noncompliance material to financial statements noted?	No

**FEDERAL AWARDS**

Internal control over major program:	
Material weaknesses identified	No
Significant deficiencies identified not considered to be material weaknesses	Yes
Type of auditor's report issued on compliance for major programs:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance 2 CFR 200.516:	Yes

**Identification of major programs:**

Name of Federal Program	Federal Financial Assistance Listing
COVID-19 Coronavirus State and Local Fiscal Recovery Funds	21.027
Dollar threshold used to distinguish between Type A and Type B programs:	\$ 750,000
Auditee qualified as low-risk auditee?	No

**Section II – Financial Statement Findings**

---

**2025-001      Preparation of Financial Statements, including Schedule of Expenditures of Federal Awards  
Material Weakness**

*Criteria:*            A good system of internal accounting control contemplates an adequate system for internally preparing the County’s financial statements, including the schedule of expenditures of federal awards.

*Condition:*        The County does not have an internal control system designed to provide for the preparation of the financial statements, including the schedule of expenditures of federal awards being audited. The auditors were requested to, and did, draft the financial statements, including the schedule of expenditures of federal awards and accompanying notes to the financial statements.

*Cause:*             The County does not have an internal control system designed to provide for the preparation of the financial statements being audited. Turnover of staff within the accounting department contributed to this situation.

*Effect:*             The disclosures in the financial statements could be incomplete.

*Recommendation:* It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations. A thorough review and reconciliation of accounts in each fund should take place prior to the beginning of the audit. This review should be done at both the accounting staff and accounting supervisor levels.

*Views of Responsible Officials:* Management agrees with the finding.

**2025-002**      **Material Journal Entries**  
**Material Weakness**

*Criteria:*            A good system of internal accounting control contemplates an adequate system for recording and processing entries material to the financial statements, including those related to grant revenue, capital assets, compensated absences, and the implementation of new accounting standards.

*Condition:*        During the course of our engagement, we proposed material audit adjustments that were not identified as a result of the County's existing internal controls, and therefore could have resulted in a material misstatement of the County's financial statements.

*Cause:*             The County does not have an internal control system designed to identify all necessary adjustments and implement new accounting standards.

*Effect:*            This deficiency could result in a misstatement to the financial statements that would not be prevented or detected.

*Recommendation:* A thorough review and reconciliation of accounts in each fund should take place prior to the beginning of the audit. This review should be done at both the accounting staff and accounting supervisor levels.

*Views of Responsible Officials:* There is no disagreement with the audit finding.

Section III – Federal Award Findings and Questioned Costs

---

**2025-003**      **U.S Department of Treasury**  
**Federal Financial Assistance Listing 21.027**  
**COVID-19 State and Local Fiscal Recovery Funds (SLFRF)**

**Reporting**  
**Significant Deficiency in Internal Control over Compliance**

*Criteria:*      The OMB Compliance Supplement states that Non-Federal entities may be required to submit performance and special reports at least annually but not more frequent than quarterly, using an authorized form or format authorized by the OMB. Specifically, the County is required to submit quarterly Project & Expenditure (P&E) reports (performance reports) on its Direct Award SLFRF funding.

*Condition:*      Inaccurate reporting procedures were noted in 2 quarter’s performance reports.

*Cause:*      The County’s controls surrounding the P&E reporting process failed to accurately report cumulative expenditures in 2 quarter’s performance reports due to a lack of reconciliation to their internal project tracking sheet and review before submission.

*Effect:*      A lack of review and subsequently reporting incorrect amounts on performance reports could result in material noncompliance and overreporting of expenditures to the Treasury.

*Questioned Costs:* None

*Context:*      A nonstatistical sample of 2 of the required 4 P&E reports were initially tested. Errors were noted in 1 project, in each report. The sample was expanded to include the other 2 reports, and we noted no additional errors in those reports.

*Report Finding from Prior Year(s):* No

*Recommendation:* We recommend the County improve controls surrounding the performance of reconciliation of project expenditures reported and internal records. Also, we recommend an improved overall review process by the Grants Manager to ensure proper amounts are being reported and correction and re-issuance of reports is not needed.

*Views of Responsible Officials:* Management agrees with the finding.
