7 Generations Early Childhood Intervention FY 22 Quarter 4 Summary

Activities	Brief Program Updates
Coordination and collaboration between Lewis and Clark County Criminal Justice Service Department, Lewis and Clark Public Health and Lewis and Clark Detention Center	LCPH home visitor has been able to have more of a presence in LCDC and referrals continue to increase. In the fourth quarter of FY22, we have seen our largest increase of referrals since the inception of the program.
Identifying Target Populations	Referrals have been received via secure email this quarter. LCPH has received 20 referrals in total. Some of those referrals did not have complete information, however, making it difficult for the home visitor to contact caregivers.
Establishing and Providing Services	Circle of Security classes have continued via Zoom to reduce exposure to COVID.
Comprehensive Data Sets	Created spreadsheets to capture required data sets. See below for Quarter 3 Data Sets.
Long Range Plans and Transferability	LCPH staff attend and participate in the Early Childhood Coalition Leadership Team of the Greater Helena Area. LCPH Home Visiting Program Supervisor chairs and is working to restructure the Home Visiting Task Force. LCPH Home Visiting will continue to provide services via virtual platform as recommended by the CDC and Lewis and Clark Public Health. LCPH worked with an intern from the University of Utah on a plan for long term evaluation. Discussions have happened with scholarly entities including UM, MSU, and Duke University on long range evaluation of the program.
Program Challenges	Long term research and evaluation is a challenge considering the difficulties in tracking the children and families over a period time. Incarcerated parents are referred to the program but the children under three years of age are to be tracked over time. Logistically, this is a challenge we need to overcome.
Outcomes	LCPH is actively working to develop long range research and evaluation of the 7 Generations Program.

7 Generations Early Childhood Intervention FY 22 Quarter 4 Summary

	April	May	June		
Total number of clients (incarcerated parents)		42	34
