Clothing voucher	OP Staff	Available all month				101	N/A

Narrative (please describe any additional services provided, updates to services planned or delivered, etc. that do not fit the table format above):

July was a hot month! We gave out a lot of water bottles that were donated to us by 180 Water. We have had the PureView Mobile clinic here every Thursday. This has been super helpful to reduce hospital visits or crisis with our peers. We had 19 peers participate in the mobile clinic. We lost a few volunteers this week and are working on getting more volunteers in. Groups have been doing really good; we have a lot of participation. We were able to get two peers into treatment this month and 1 housed as well as one of our peers that needed an assisted living facility was accepted on the 31st to Renaissance on Saddle drive. This was so amazing because he really needed care that we could not provide him.

Plans for our new facility are underway, and we should have some construction starting soon on our remodel of the back warehouse.

Our Place Drop-In Center Advisory Board

Date of monthly Peer and Client Advisory Meeting: 7/28/2026

Number of Peers and Clients in attendance: 5

Number of Peers and Clients for which transportation was coordinated for Advisory Board attendance, if needed: 0

Narrative (please describe meeting or attach meeting agenda and minutes):

Advisory Board Members: Mikayla, Zepha, Angel

Meeting narrative:

We started the meeting by going over some guidelines as usual. There being no camping on the property. We have had a lot of people trying to do this and with our neighbors we can not have this. We just reminded everyone of this rule. We also spoke about cleaning up after yourselves and helping out around here. We also talked about the use of the Van that street outreach uses. That we offer rides from Gods Love at 8 am and drop people back off at 3pm. We want to be able to give all those that need a ride and we cannot haul carts and wagons on the van. If you are getting a ride and cannot store your belonging under your feet or on your lap or if it cannot fit on the back storage part of the van it cannot come in the van. We understand that you want to bring all your things with you but that is why we offer safe storage so you do not need to carry all your belongings with you.

We updated our peers on the new facility remodeling and what that would look like. We also asked peers if they had any ideas for groups or things they wanted us to look into doing. No one had anything. We did a quick check-in with the peers and then closed out the group.

Participant Information

Number of participants served:

- Total group participants (#): 175
- Total sign-ins (#): 366

Referral Sources (where were they referred?): PureView, St Peters, Many Rivers, HVAS, Pre Trial

Military Status (# Active and # Former): 2

Criminal Justice system involvement (# Pretrial): 11

Co-occurring disorder status (#):6

Crisis interventions and outcomes (short narratives): 2- Mikayla called CRT for one of our female peers she was seen outside looking into cars and was yelling around about dead bodies. When we spoke with her to check in on her she thought that she had bugs in her eyes and under her skin. She said that she had a dead body in her car and blood all over. Mikayla and another staff went to her car with her to see what was going on and she insisted there was blood but we did not see any. We were very concerned for her safety and the safety of others so we called non emergency line and they sent CRT. She refused to talk to them so they left.

The second one we had a peer come in the office while ST Peters Health peer support was here and he spoke about how he was not doing good and felt suicidal. We asked him a few more questions and he told us he thought about hurting himself all the time and thought he needed to go to the BHU. We call the non-emergency line and asked for CRT to come here and speak with him. We waited with him until they arrived and they ended up taking him to BHU.

Number of Community partner education hours: 15 hours , 5 visits from PureView mobile clinic and they come for 2 hours at a time, and 5 one hours groups with Helena Indian Alliance.

Outcomes from Satisfaction surveys:

Hours of Operation:

Monday- Friday 8:30am – 3:00 pm
