

Lewis and Clark County Noxious Weed Control District *Five-Year Noxious Weed Management Plan*

Information and Application

Subdivision-Timber Harvest-Open Pit Mine-Special Projects-Private Lands/Compliance*
202__ – 202__

- **The Five-Year Noxious Weed Management Plan must be completed by the landowner and approved by the Lewis and Clark County Noxious Weed Control District prior to groundbreaking or soil disturbance on the project area(s).**
- ***There is no fee for Private Lands/Compliance Five-Year Noxious Weed Management Plans**
- **It is the responsibility of the landowner to contact the Lewis and Clark County Noxious Weed Control District for inspection.**
 - *Inspection occurs after this form has been completed, submitted and after fees have been paid. Treatment of weeds prior to inspection will save the landowner an additional inspection fee.*

If you are scheduling an inspection, need assistance completing this form, or for any other questions we are here to help:

Lewis and Clark County Noxious Weed Control District

Phone: (406) 447-8372 or (406) 447-8072

3402 Cooney Drive – Helena, MT 59602

E-mail: clehnert@lccountymt.gov

STEP by STEP INSTRUCTIONS (Application Pages: 5-8)

1. Use **the Subdivision, Timber Harvest, Open Pit Mine or Special Project (Cell Tower etc.) name** submitted to the leading agency or department.
2. **Indicate the years** that your management plan will begin and end.
The *Five-Year Management Plan* is active for five (5) years (Ex: 2023-2027—plan includes the year 2023 and is active through the year 2027).
3. Write the **name, address, phone number(s), and email** of the landowner.
Include the name, address, and phone number(s) of the landowner's representative/contact if this person will be developing and monitoring the *Five-Year Noxious Weed Management Plan* for the landowner.
4. Write the **Legal description** and **Geocode** of the land covered by this *Five-Year Noxious Weed Management Plan*.
This description can be found on your tax bill, your deed, or at the Lewis and Clark County Classification & Appraisal Office—Room 103—City/County Building—316 N. Park in Helena. Additionally, it can be found Lewis and Clark County Open GIS Data>City/County Viewer> search parcel address; Geocode will be displayed under Parcel window popup.

4*. A **map** of the Subdivision, Timber Harvest, Open Pit Mine, Special Project or Private Land property covered by this *Five-Year Weed Management Plan* must be attached for this application to be complete. Acceptable map formats include plat maps (preferable), topographical maps, self-drawn maps, photographs, aerial maps, Forest Service maps, and/or ownership maps.

5. Check the appropriate box to indicate if this area is part of an existing noxious weed management plan.
 - ✓ Write the existing plan name or plan number for the area if there is one.
 - ✓ Check the appropriate box to indicate if this project has or needs to have a 310 Permit.
6. **The landowner must sign and date the plan.** The landowner's signature indicates agreement to carry out this *Five-Year Noxious Weed Management Plan* by controlling noxious weeds on the property.
7. **Environmental Checklist:** All questions in this section must be answered. If you are not sure about the answer to an item in this section, please answer to the best of your knowledge. Any 'Yes' answer must be accompanied by a *comment* explaining how the environmental impact of the particular issue will be reduced.
8. **Noxious Weed Management Plan:** All questions in this section must be answered, except for item 9, which must be answered only if it applies to your situation. If you are not sure about the answer to an item in this section, please answer to the best of your knowledge.

Check the appropriate items in the project area before submitting the plan :

- | | |
|---|--|
| A. Identified noxious weeds. | F. General soil type(s) present. |
| B. Estimated acreage of the noxious weeds. | G. Groundwater depth. |
| C. Ownership acreage. | H. Season(s) noxious weeds will be managed. |
| D. Method(s) to manage the noxious weeds. | |
| E. Chemicals to be used. | |

9. This section must be filled out only if the soil on your property will be disturbed. Possible examples: road construction, grading, backfilling during construction and/or project development.
10. **Inspection Fees:** Subdivision, Timber Harvest, Open Pit Mine or Special Project (Cell Tower etc.) areas will be charged a fee based on acreage for a project. **Refer to page 3 for fee schedule.** *If untreated noxious weeds are observed during the first inspection, reinspection will be necessary. The landowner will be charged an additional fee for a second inspection equal to the first inspection fee.*
 - ✓ Payment must accompany completed *Five-Year Noxious Weed Management Plan*.
 - ✓ Pay fees at the **Lewis and Clark County Planning (City/County Building)** 316 N. Park Ave Room
 - ✓ Payment/Fee is not required for Private Lands/Compliance (only).
11. **Scheduling an Inspection:** It is the property owner's responsibility to schedule with the Lewis and Clark County Weed District

- If you have questions, or need help completing the form; call the Lewis and Clark County Weed District at (406) 447-8372/(406) 447-8072 or e-mail clehnert@lccountymt.gov
- There is no fee for Private Lands/Compliance Five-Year Noxious Weed Management Plans

Subdivision ● Timber Harvests ● Open Pit ● Special Projects* (Cell Tower etc.)
(*Special Projects* Excludes Private Lands/Compliance; there is no fee for Private Lands/Compliance*)

Requirements for Noxious Weed Free Certification

The following fee schedule applies to *all acres* to be inspected for a subdivision, timber harvest, open pit or special projects* (cell tower etc.) unit:

Acreage includes:

1. The excavation, cutting or gravel area,
2. Roads entering and exiting the project area,
3. Possible disturbed ground locations,
4. Crossings, and
5. Other equipment and operation locations.

Fees do not include properties adjacent to the project area.

Fee Schedule

Private Lands/Compliance	No Fee	\$0.00
Subdivisions	Up to 5 lots (minimum)	\$300.00
	+ Each lot > 5 (per lot)	\$20.00
Gravel/Timber/Special Projects	0-10 Acres (minimum)	\$100.00
	Each Acre >10 (per acre, not to exceed \$550.00)	\$10.00

- Fees include cost for mileage, inspection time, and administrative costs associated with the subdivision, timber harvest, open pit or special projects (cell tower etc.).
- A Five-Year Noxious Weed Management Plan must be filed on the subdivision, timber harvest, open pit or special project (cell tower etc.) area (acres) and adjacent land owned by the applicant along with a noxious weed inventory map. Identify infestation and/or controlled areas prior to operations.
- The Five-Year Noxious Weed Management Plan **must outline construction or harvest and transport equipment cleaning procedures for pre-entry to the area.**
- Each additional project **within the area will be subject to fees and a review of the property owner’s Five-Year Noxious Weed Management Plan and equipment cleaning procedures.**

Vehicle/Equipment Cleaning Procedures

The following are procedures recommended by the Lewis and Clark County Weed District to manage noxious weed seeds on equipment and vehicles being used for subdivisions, timber harvests, open pit mines or special project (cell tower etc.) These standard actions and procedures are to be used, where applicable, to reduce the risk of spreading or introducing noxious weeds through operations of vehicles and/or equipment:

1. *Clean vehicles and equipment prior to arrival on project land to prevent introduction and spread of noxious weed seeds.*
 - The vehicles/equipment shall be free of soil clumps and vegetative matter or other debris that could contain or hold noxious weed seeds. Cleaning of the vehicles/equipment should be done with a pressure washer or comparable high-pressure equipment (mobile equipment) and shall be done in a designated area that can be monitored over a five-year period after project completion or at a commercial washing area.
 - Pay particular attention to frame rails, skid plates, grill/bumpers, belly guards, and other undercarriage areas that could harbor noxious weed seeds or vegetative matter.
2. Because wet soil and mud will readily adhere to vehicles, equipment, and/or tools:
 - conduct operations during the dry season whenever possible, and
 - utilize paved and graveled roads whenever possible.
3. *After working in an infested area, remove or wash-off accumulations of plant debris (especially foliage), soil, and mud from vehicles, equipment, tools, etc. before traveling to an area that is not infested with noxious weeds.* Pay particular attention to sites where plant debris and soil may accumulate. Wash solution should contain biodegradable soap.
4. *After cleaning debris from vehicles and/or equipment, be sure to spray the wash solution on any surface that may have come into contact with noxious weeds.*

Five-Year Noxious Weed Management Plan Checklist

Subdivision ● Timber Harvests ● Open Pit ● Special Projects ● Private Lands/Compliance

- Check off completed sections and detach for your records.
- All areas must be completed prior to final approval.

✓	#	Requirement
	1	Project name
	2	Plan years
	3	Landowner information (representative/contact optional)
	4	Legal description and Geocode
	4*	Map of Project area attached to Five-Year Noxious Weed Management Plan
	5	Existing noxious weed plan
	6	Landowner signature
